EMAIL BUSINESS COUNSELING COMES TO WYOMING

Businesses now have access to counseling at www.score.org. Once you get online, click on the Get Email Counseling icon. A window will appear offering a list of email counselors. You will be able to select your choice for a counselor, matching their expertise with your business, industry, topic or location. Questions can be sent on a 24-hour basis. All counseling is free and confidential. SCORE (Service Corps of Retired Executives) is a Small Business Administration (SBA) resource partner.

SCORE has traditionally offered free counseling and advice, either by phone or by appointment. SCORE volunteers help prospective and established small business owners and managers identify problems and find solutions. Email counseling has been available nationally on the SCORE web page. Since October 2002, the Wyoming Chapter of SCORE has been able to provide statewide counseling online for businesses.

SCORE, established in 1964 as a resource partner of the SBA, has assisted over 3.5 million Americans with a staff of retired or active business volunteers. The use of the SCORE web page will allow Wyoming residents access to the collective experience of the full range of American Enterprise. For assistance in Wyoming, go to www.score.org or phone 307-261-6530 for the Casper Office or 307-635-4592 for Cheyenne. Statewide phone toll free is 1-888-420-3330 for consultation or appointment.
