

## Sanchez Electric Inc.

Thomas A. Sanchez, President, of Sanchez Electric, Inc., has been in the electrical industry since 1972. He has worked as an apprentice, journeyman and project foreman. He passed his electrical Master's test in 1984 and started Sanchez Electric, Inc.

Sanchez Electric, Inc. is certified in the States of Wyoming and Montana with the [Disadvantaged Business Enterprise program](#). Sanchez Electric, Inc. is also certified as a participant in the [U.S. Small Business Administration's \(SBA\) 8\(a\)](#) program. These programs have been a great asset in the success of the business.

They have completed several jobs at Warren Air Force Base, VA Medical Center, and Bureau of Land Management (BLM) and have worked on almost every airport in Wyoming and an airport in Montana. Other types of jobs completed are sewage lift stations, core drilling, highway lighting, medium voltage, fire rescue stations, houses, generators, controls, fire and security systems.

Information on some of these projects can be seen on [ProNet](#). References are also available upon request.
