EXECUTIVE SUMMARY

This report provides for the United States Senate Committee on Small Business and Entrepreneurship and the United States House of Representatives Committee on Small Business an analysis of the number and dollar amount of prime contracts awarded during Fiscal Year (FY) 2020 as required by 15-(h)-(2)-(e) of the Small Business Act. The chief purpose of this report is to provide Congress with data on the Executive Branch's compliance with legislatively mandated small business and socio-economic goals. This report makes available comprehensive statistics on the type and number of prime contracts awarded to small businesses under various socio-economic programs for the Federal Government and 24 Chief Financial Officer (CFO)-Act Agencies. The information in this report was derived from the FY2020 Small Business Goaling Report data set as of February 22, 2021. The FY2020 government-wide and agency prime contracting results were published in the FY2020 Small Business Goaling Report on July 27, 2021 and is located on the Federal Procurement Data System Next Generation (FPDS-NG) web site at: <https://sam.gov/reports/awards/static>

The federal government awarded \$145.7 billion to small business contractors during FY2020, achieving a small business percentage of 26.01 percent of eligible federal procurement. This achievement represents the seventh consecutive year that the federal government met the 23 percent statutory goal.

In FY20, in accordance with the Small Business Act, SBA has provided agencies double credit in two instances: 1) local area set-asides to small businesses in disaster areas - See 15 USC § 644(f); and 2) small business credit for Puerto Rico businesses and small businesses with principal offices in the U.S.V.I., American Samoa, Guam, and the Northern Mariana Islands (Sec. 875 of NDAA FY20 and 15 U.S.C. § 644(x)). For purposes of determining whether a prime contract awardee business location, SBA uses the prime vendor address reported in FPDS-NG. Double-credit under § 644(x) is provided only for awards dated on or after August 13, 2018, and only for awards that do not already qualify for double-credit under § 644(f).

In addition, in FY 2020, pursuant to 15 USC 644(g)(3) SBA included subcontracts awarded by Department of Energy Management and Operating Contractors in the government goaling numbers for prime

contracts. Since 2015 SBA has been considering these subcontracts towards DOE's prime contracting goals. They are not counted towards DOE's subcontracting goals.

Not including the doubled amounts, the \$142.4 billion awarded in small business prime contracts represents an incredible impact to the American economy that supports job creation (about 699K jobs), innovation, and growth.

Fiscal Year 2020 Department of Homeland Security Corrective Action Report

1. The Department of Homeland Security (DHS), Office of Small and Disadvantaged Business Utilization (OSDBU), is pleased to submit the Fiscal Year (FY) 2020 Corrective Action Report in accordance with Section 15, Subsection (h) of the Small Business Act (15 U.S.C. 644). This annual report discusses the DHS OSDBU methodology of advocacy to the small business community and the results that have been realized.

a. Small Business Accomplishments

In Fiscal Year 2020 DHS recorded a total spend of \$21,297,640,081.67 in total small business eligible prime contracting dollars. Contracts were awarded to small businesses in the amount of \$7,675,484,622.05 for a 36.04% accomplishment. Please see Attachment (1), Final Small Business Accomplishments for Fiscal Year 2020, which lists all small business categories and achievements.

Prime Accomplishments

DHS accomplished an impressive 36.04% in small business prime contracting exceeding the negotiated DHS goal of 33.00%. The Small Disadvantaged Business (SDB) accomplishment remains strong at 15.57% and significantly exceeds the government-wide goal of 5.00%. The Women-Owned Small Business (WOSB) accomplishment of 6.80% continues to exceed the government-wide goal of 5.00%. The FY 2020 HUBZone accomplishment of 4.09% exceeds the government-wide goal of 3.00% and marks the 10th year in a row that DHS has exceeded the HUBZone government-wide goal. DHS is extremely excited and proud of exceeding, for the 11th year in a row, its Service-Disabled Veteran-Owned Small Business (SDVOSB) goal of 3.00% with an accomplishment of 5.77% by awarding \$1,228,138,888.18 in prime SDVOSB dollars.

Subcontracting Accomplishments

DHS exceeded the subcontracting goals for traditional Small Business – 46.3%, SDB – 11.5%, SDVOSB – 4.4%, WOSB – 13.1%, and fell short with HUBZone – 2.1%. The DHS strategy for increasing the HUBZone subcontracting accomplishment include: requiring subcontracting goals on task orders under existing contracts, review of subcontracting plans by the OSDBU Subcontracting Program Manager, ensuring current DHS subcontracting goals are in all DHS solicitations that warrant subcontracting plans, making proposed subcontracting plan part of the evaluation criteria when it is warranted, and increasing the number

of prime contractors at our Vendor Outreach Sessions (VOS) so that more HUBZone small businesses have the opportunity to showcase their companies' attributes to the DHS prime contractors. The DHS OSDBU feels confident that these strategies will bring the focus necessary to achieve the DHS HUBZone subcontracting goal.

The DHS OSDBU believes that with a continued, leading edge small business program, and continued strong small business support from all levels of the DHS acquisition program, DHS will consistently record positive and proactive small business accomplishments.

b. Advocacy Methodology

The DHS OSDBU is very proud of its proactive advocacy to the small business community on how to market and do business with DHS. One of the OSDBU's highest priorities is to provide a variety of outreach activities and initiatives that provide information and access to DHS procurement opportunities as well as providing assistance and training to the small business community. Another priority area of the DHS OSDBU is information dissemination which is primarily accomplished through our website <https://www.dhs.gov/do-business-dhs>. This includes, but is not limited to, the Annual Procurement Forecast of Contract Opportunities, DHS Points of Contact which lists the DHS Small Business Specialists at each component and the OSDBU Staff, DHS Vendor Outreach Activities Schedule of Events, DHS Prime Contractor Listing for Subcontracting Opportunities, and the DHS Mentor-Protégé Program details, as well as the application for the agreement.

c. Small Business Review Process

The DHS OSDBU continues to document procurement efforts on the DHS Small Business Review Form 700-22, to ensure small business concerns are considered for inclusion in DHS acquisitions and that market research is conducted on all procurements documented by the 700-22 form. These include applicable actions over the Simplified Acquisition Threshold (SAT). The DHS Small Business Review Form 700-22 is also utilized for Federal Supply Service (FSS) Blanket Purchase Agreements (BPA), task or delivery orders from Government-Wide Acquisition Contracts (GWACs), DHS Strategic Sourcing Vehicles, and other multiple award contracts. The SBA Procurement Center Representative reviews all 700-22 forms valued at or above \$2,500,000 which are not planned to be set-aside for small business. The 700-22 form includes bundling and consolidation considerations (see FAR 7.104(c) and 19.202-1 for bundling considerations) to avoid unnecessary contract bundling and to mitigate the effects on small businesses of necessary consolidation.

d. DHS Small Business Policy

The policy statement of the DHS small business program, states "the small business acquisition policy is a shared responsibility among all DHS employees involved in the acquisition process. Through a unified team approach involving senior management, small business personnel, acquisition personnel, and technical/program staff, we can support both our critical national mission and the important public policy objective of small business inclusion in our acquisition program."

DHS continues to formulate and build two key policy documents: The Homeland Security Acquisition Regulation (HSAR) and The Homeland Security Acquisition Manual (HSAM). The HSAR includes policy for contract reporting and the HSAM incorporates policy on a multitude of procurement issues, as well as bundling review policy. The review and reporting process include requirements placed under Government-Wide Acquisition Contracts (GWACs) as well as the General Services Administration (GSA) Federal Supply Schedule (FSS) program. The DHS Small Business Review Form 700-22 is included in the HSAM to implement the bundling regulations published in the FAR. DHS includes in its HSAM the requirement to identify alternative strategies for proposed bundling and includes a discussion of rationale for not selecting these strategies. This information is reviewed at the agency level at the recommended threshold of \$2,500,000 and is part of the small business review form.

e. Subcontracting

DHS includes in its HSAR a requirement that subcontracting plans be approved prior to award by the OSDBU or its designee in consultation with the Contracting Officer (CO) and the SBA Procurement Center Representative (PCR). The DHS OSDBU works closely with the SBA PCR and the cadre of SBA Commercial Marketing Representatives (CMR) to help strengthen small business subcontracting. A DHS OSDBU staff member is responsible for all subcontracting compliance issues including managing the DHS Prime Vendor List on the website, as well as Agency Coordinator for the electronic Subcontract Reporting System (eSRS). Further, the OSDBU Director, conducts an annual meeting of the DHS large business prime contractors to discuss subcontracting plans, compliance, and monitoring.

f. Mentor-Protégé

DHS developed a Mentor-Protégé Program (MPP), which is included in the HSAR, and has published the requirements for participation in the DHS MPP on the DHS OSDBU website. The comments received from industry are overwhelmingly favorable. The Mentor-Protégé program currently has 36 OSDBU approved

agreements. The program will be used, in part, to mitigate the effects of necessary and justified bundling as well as to strengthen the DHS subcontracting program.

2. In summary, the small business procurement program is important to DHS. We will strive to meet or exceed our small business prime and subcontracting goals by continuing to make small business participation part of the DHS culture in support of our national mission. This dedication is shared by all DHS senior management and those involved in the small business procurement program.

Fiscal Year 2020 Corrective Action Plan

Strategy to Implement Strengthening Opportunities in Federal Contracting for Small Business Subcontracting Opportunities

Overview

The U.S. Office of Personnel Management's (OPM) FY 2020 small business achievements have once again reaffirmed the Agency's procurement reform efforts which were outlined in great detail to the U.S. Small Business Administration in August 2012 has had an extreme impact in comparison during this fiscal year. During FY20, OPM awarded 82.73% or \$297M, of its total dollar obligations to small businesses thus significantly exceeding in 5 out of 5 prime socio-economic categories: Small Disadvantage Business (45.17%), Women-Owned Small Business (46.35%) significantly exceeded for nine consecutive fiscal years, HUBZone (8.48%), and service-disabled disabled veteran-owned (7.93%).

Small Business Subcontracting Concerns

With the departure of the OPM's National Background Investigation Bureau (NBIB) during FY20, OPM was unable to reach the negotiation overall small business subcontracting goal of 50% and the service-disabled disabled veteran-owned business (SDVOSB) goal of 3%. NBIB was a large contributor to OPM's overall small business subcontracting goals due to their 4 large business contracts that produced over \$600M to small business total eligible dollars and employed small service disabled veteran-owned businesses to perform background investigations and other related "top secret" requirements.

Corrective Action

In accordance with the Federal Acquisition Regulation 52.219-9 Small Business Subcontracting, OPM has re-identified robust FY21 strategies to enhance overall subcontracting Small Business and SDVOSB participation, monitoring and enforcement in obtaining the annual negotiated goals. OPM has identified the following:

1. Request corrective action plans from large businesses that consistently do not make their goals in the hiring of targeted small business communities.
2. Develop an inventory of small business contractors with varied skill sets that have expressed interest in OPM subcontracting opportunities and share with large business contractors currently at OPM.
3. Institute training sessions with contracting officers responsible for reviewing the contractor's plan/notification and supporting data to ensure that the proposed subcontract is appropriate for the risks involved and consistent with current policy and sound business judgment.
4. Develop policies which shall describe in detail the penalties for contractors that do not comply with and/or are inadequate in their performance with subcontracting plan.

OPM has continued to define a strategic and comprehensive strategy for the use of small business vendors, and will continued to engage and execute a variety of initiatives designed to yield overarching near and long-term program improvements. The Agency's FY21 strategy is to continue with the refinement and focus on outreach, training, advocacy, and strategic partnering which have proven to be successful.

Fiscal Year 2020 Corrective Actions Report

The Office of Small and Disadvantaged Business Utilization (OSDBU) of the U.S. Environmental Protection Agency (EPA) is pleased to submit this Fiscal Year (FY) 2020 Corrective Actions Report. This report is provided in accordance with the reporting requirements under Section 15(h) of the Small Business Act, 15 U.S.C. § 644(h), and the related instructions of the U.S. Small Business Administration (SBA) for each agency to provide a short narrative explaining why its FY 2020 goals were not achieved.

A. The Extent of Small Business Utilization and Goal Achievements in EPA Acquisitions

During FY 2020, EPA was successful in awarding more than \$592.6M to small business concerns. Those awards accounted for approximately 39.5 percent of the agency’s total contract spend in FY 2020. As shown in Table 1 below, the percent of EPA’s total small business awards exceeded its established small business goal of 35 percent, and far exceeded the statutory government-wide goal of 23 percent.

In FY 2020, EPA was also successful in far exceeding the assigned goal for small disadvantaged businesses (SDBs) and awarding just above the assigned goal for women-owned small businesses (WOSBs). It is also noteworthy that EPA increased the percentage of dollars awarded to all but one of the socioeconomic small business categories, as compared to FY 2019. Specifically, in FY 2020, EPA increased the percent of its total contracting dollars to SDBs by 3 percent from the previous year. It also increased the percentage of total contracting dollars by almost 1 percent for WOSBs and for certified small businesses located in Historically Underutilized Business Zones (HUBZone). While EPA failed to meet the assigned HUBZone and service-disabled veteran-owned small business (SDVOSB) goals, the agency did enhance its HUBZone goal achievement from last year, as noted previously. Additionally, EPA missed the SDVOSB goal by just 0.04 percent.

On the subcontracting level, EPA exceeded all five of the small and socioeconomic goals. In addition, in FY 2020, EPA far outperformed its achievement levels with respect to the WOSB, SDVOSB and HUBZone goals. Overall, small businesses received approximately \$59.4M in subcontracts under EPA’s prime contract awards.

TABLE 1				
EPA FY 2020 SMALL BUSINESS GOAL ACHIEVEMENTS				
Category	Prime Goals		Subcontracting Goals	
	Goal %	Actual %	Goal %	Actual %
SB	35	38.5	55	56.7
SDB	5	18.0	5	12.7
WOSB	5	5.4	5	11.4
SDVOSB	3	2.9	3	4.3
HUBZone	3	2.0	3	3.6

B. Justification for Failure to Achieve the SDVOSB and HUBZone Goals

Despite EPA's overall accomplishments in exceeding the overwhelming majority of its prime and subcontracting goals, the agency fell slightly short for the SDVOSB and HUBZone goals. These shortfalls were due in part to the agency's implementation of its Category Management and Strategic Sourcing programs, including the EPA Acquisition Guidance on the Mandatory Use of Common Contract Solutions, and the Office of Management and Budget (OMB) targets for Spend Under Management (SUM). As discussed below, EPA has implemented several strategies to address those challenges and to expand the utilization of SDVOSBs and HUBZone firms in the agency's acquisitions.

C. Remediation Plan

EPA has made significant strides in developing and implementing a number of initiatives to strengthen the agency's small business procurement goal achievements. These initiatives are part of a comprehensive and coordinated strategy to integrate a *Small Business First* culture throughout EPA. They include the actions described below.

1. Cutting-Edge Acquisition Planning and Market Research – EPA's OSDBU has fostered a productive partnership with the agency's Office of Acquisition Solutions (OAS) in order to strengthen the inclusion and active engagement of OSDBU's Small Business Specialists (SBSs) in the acquisition planning and market research process. In December 2020, OAS launched a new policy for its Advanced Procurement Packages (APP). The policy explicitly requires contracting professionals to consult with OSDBU and dictates the active participation of an OSDBU SBS as an essential member of the agency's integrated acquisition teams. As part of the integrated acquisition team, OSDBU SBSs participate in the various APP kickoff meetings, which serve as the preliminary step for stakeholder discussions regarding the requirement. Participating in these meetings enables OSDBU SBSs to identify potential small business opportunities early in the planning process to help influence and shape the acquisition strategy to maximize small business participation, including the participation of SDVOSB and HUBZone firms.
2. Strategic Partnerships – OSDBU has also partnered with OAS to help institutionalize OSDBU's realignment of the SBSs as subject matter experts assigned to assist in EPA's top spend categories. Each SBS is dedicated to a specific spend category and provides expertise in small business solutions and vehicles to meet EPA's requirements, particularly within the category management framework. Furthermore, OSDBU also participates in monthly OAS client engagement meetings with each program office. During these meetings, the OSDBU SBS shares information on various small business matters, to include market research initiatives, acquisition forecast highlights, and future in-reach/outreach events.

3. Program Engagement – To ensure broad senior leadership and general agency engagement and accountability for small business goal achievements, OSDBU crafted an agency-wide memorandum, which it issued jointly with the agency’s Senior Procurement Executive. The memorandum outlined best practices for expanding small business contracting opportunities. It also identified available mechanisms for targeting socioeconomic small business categories within governing laws and regulations. Building on that communication, OSDBU further conducted one-on-one meetings with each EPA program and regional office. OSDBU presented specifically tailored strategies for each organization to expand small business participation in its acquisitions. OSDBU also crafted an EPA Administrator agency-wide communication in January 2021 reiterating the agency’s commitment to small business contracting.
4. Specialized Training – OSDBU has strengthened its EPA in-reach activities to ensure familiarity with the governing requirements for small business contracting, and with best practices to leverage multiple socioeconomic categories. Among other things, OSDBU launched a new initiative designed to provide practical small business contracting training for the EPA contracting community. Beginning in FY 2021, OSDBU began coordinating and hosting a quarterly *SmallBiz* eLearning Power Hour. The session topics in FY 2021 included the new WOSB certification program, the VETS2 Government Wide Acquisition Contract (GWAC), and proven practices in leveraging category management and market research to optimize small business utilization. In June 2021, OSDBU will host a session on Small Business Subcontracting. In addition to these EPA-focused eLearning Power Hours, OSDBU also continues to leverage the SBA First Wednesday’s Virtual Learning Series to help reinforce EPA competency and proficiency in small business contracting requirements.
5. Targeted Outreach – EPA continues to support small business outreach events. In addition to the agency-hosted events, EPA leverages available third-party small business outreach activities to help educate small businesses on doing business with the agency. These events include conferences hosted by such organizations as the National Veteran Small Business Coalition, the HUBZone Contractors National Council and various Chambers of Commerce. The majority of these conferences include matchmaking sessions that allow EPA to interface directly with small businesses to help identify qualified vendors for EPA’s acquisitions.

National Aeronautics & Space Administration (NASA)
Fiscal Year (FY) 2020 Corrective Action Report

During fiscal year (FY) 2020, NASA was unable to meet the federally mandated prime socioeconomic goals in the Woman-Owned Small Business (WOSB), Service-Disabled Veteran-Owned Small Business (SDVOSB), and Historically Underutilized Business Zone (HUBZone) categories. In the area of sub-contracting, NASA was able to achieve all assigned socioeconomic goals. In FY 2021, NASA will continue its initiatives, working with NASA's Space Technology Mission Directorate, and partnering with the local Chamber of Commerce and Procurement Technical Assistance Centers (PTACs) in regions where NASA does not have a presence to attract more small businesses. NASA will also continue to identify new initiatives that will help the agency meet these goals. NASA's ability to meet the WOSB, SDVOSB, and HUBZone goals were and will be impacted by the following actions and initiatives.

The pandemic in FY 2020 resulted in the cancellation of the usual Small Business outreach events that NASA historically attended. However, NASA will explore attending such events whenever they resume. It is NASA's experience that outreach events driven solely by an socioeconomic category (such as WOSB, HUBZone, 8(a), or SDVOSB) feature over-representation by the IT, training, and administrative service industries. Such events generally lack significant participation by firms in the engineering, manufacturing, and research and development industries, which represent the bulk of NASA's opportunities. NASA hosted and participated in numerous virtual outreach events in FY 2020, reaching firms that may not have previously attended in-person events.

The category management environment, combined with NASA's Enterprise/Product Service Line procurement approach may result in numerous consolidated contracts that may not be favorable for these demographics. However, NASA's OSBP and Office of Procurement will continue to work together to identify potential opportunities that may be set aside for small businesses.

The following is a detailed report on what NASA has done and will do to meet these goals.

Women-Owned Small Business (WOSB) Goal:

In FY 2020, NASA obligated \$791 million to WOSB, which is the second highest dollar value awarded to WOSB in the last seven years.

NASA will continue to look for ways to increase the number of WOSB set-asides in FY 2021. This is essential because WOSB's rarely win small business set-asides or full and open competitions at NASA. The category management environment, combined with NASA's Enterprise/Product Service Line procurement approach, may result in contract opportunities that may not be suitable to this demographic. This may reduce the number of contracts, along with the number of potential WOSB set-aside opportunities.

**National Aeronautics & Space Administration (NASA)
Fiscal Year (FY) 2020 Corrective Action Report**

NASA regularly forwards various procurement opportunities (Sources Sought Notices, etc.) to WOSB-oriented organizations such as the US Women's Chamber of Commerce in efforts to increase the awareness of this demographic to NASA acquisition opportunities.

NASA continues to operate four regional construction contracts under a WOSB set-aside, as part of its overall Multiple-Award Construction Contract (MACC) covering four southern NASA Centers and two sub-installations. NASA also manages two regional contracts under a WOSB set-aside as part of a MACC covering all of its west coast centers and sub-installations.

Finally, we note that NASA once again met the five percent WOSB subcontracting goal in FY 2020.

Service-Disabled Veteran-owned Small Business (SDVOSB) Goal

In FY 2020, NASA's SDVOSB prime metric was 1.6 percent, which is NASA's highest percentage since FY 2008. For the sixth consecutive year, NASA has increased the dollars awarded to SDVOSB. Between FY 2019 and FY 2020, the prime dollars awarded to SDVOSB increased by over \$66 million, which equates to over a 27 percent increase from the previous year.

NASA has increased the value of SDVOSB set-asides when scoring the criteria for the annually presented Administrator's Cup Award. This award highlights the Center (field office) with the best overall small business program for that specific fiscal year.

NASA regularly forwards various procurement opportunities (Sources Sought Notices, etc.) to VOSB-oriented organizations such the National Veterans Small Business Coalition to increase the awareness of this demographic to NASA acquisition opportunities.

In FY 2020, four of NASA's ten Centers exceeded the three percent statutory goal despite the the Agency not achieving the three percent goal. NASA continues to operate four regional construction contracts under a SDVOSB set-aside, as part of its overall Multiple-Award Construction Contract (MACC) covering four southern NASA Centers and two sub-installations. NASA also manages two regional contracts under a SDVOSB set-aside as part of a MACC covering all of its west coast centers and sub-installations.

Finally, we note that NASA once again met the three percent SDVOSB subcontracting goal in FY 2020.

National Aeronautics & Space Administration (NASA)
Fiscal Year (FY) 2020 Corrective Action Report

Historically Underutilized Business Zone (HUBZone) Goal

In FY 2020 \$120 million was awarded to HUBZone firms, which is the second highest amount awarded to this category of small business in the last six fiscal years. NASA HUBZone set-asides are primarily made in support of NASA's construction requirements.

NASA has increased the value of HUBZone set-asides when evaluating small business programs for the annual Administrator's Cup Award. Presented annually, this award highlights the Center (field office) with the best overall small business program for that specific fiscal year.

NASA regularly forwards various procurement opportunities (Sources Sought Notices, etc.) to HUBZone-oriented organizations such as the HUBZone Contractors National Council to increase the awareness of this demographic to NASA acquisition opportunities.

The number of NASA centers exceeding the three percent federally mandated goal decreased from five centers in FY 2019 to one center in FY 2020. NASA Stennis Space Center (SSC), exceeded the three percent federally mandated goal in FY 2020. SSC has exceeded this goal for the eighth consecutive year, which is a record among the ten NASA centers.

NASA continues to operate four regional construction contracts under a HUBZone set-aside, as part of its overall Multiple-Award Construction Contract (MACC) covering four southern NASA Centers and two sub-installations. NASA also manages two regional contracts under a HUBZone set-aside as part of a MACC covering all of its west coast centers and sub-installations.

In Fiscal Year (FY) 2020, the Department of Health and Human Services (HHS) was on the front line in responding to the unprecedented challenges resulting from the global Novel Coronavirus (SARS-CoV-2); more commonly referred to as COVID-19. HHS awarded over \$10.24 billion in new, unplanned contracts in support of the government-wide COVID-19 response. These unplanned COVID-related awards increased HHS’ annual obligations from \$24.15 billion and \$26.55 billion in FY18 and FY19 respectively to \$41.07 billion in FY20.

Contracts awarded in response to COVID-19 included requirements for ventilators, COVID-19 vaccine development, testing and diagnostic equipment, PPE, national education campaigns, anti-SARS-CoV-2 medical countermeasure trials and other COVID-related response efforts. And even though HHS total obligations to small businesses reached a record \$9.49 billion, there were not enough small business-friendly requirements to offset the \$10.24 billion unplanned COVID-related spend.

Remediation Plan

The Department of Health and Human Services is committed to meeting its mission through the utilization of small businesses to the maximum extent practicable. To this end, we are implementing the following programs and initiatives to improve upon the HUBZone, Service-Disabled Veteran-Owned Small Business and subcontracting achievements:

HUBZone/SDVOSB

- a. Dedicated page on the HHS OSDBU website on HUBZone contract resources, contract data and HUBZone company profiles.
- b. HUBZone/SDVOSB Set Aside Program – work directly with HUBZones and SDVOSB and engage acquisition professionals to identify potential procurements to be set aside.
- c. HUBZone/SDVOSB Virtual Showcase – Virtual capability briefing presentations to the HHS acquisition workforce by HUBZone and SDVOSB small businesses.
- d. HUBZone/SDVOSB-Specific Vendor Outreach Sessions – monthly meetings between HUBZones/SDVOSBs and OSDBU.

- e. HUBZone/SDVOSB Focus Groups – Sessions between HUBZone/SDVOSB and OSDDBU leadership to develop strategies on increasing SDVOSB/HUBZone participation.
- f. HUBZone/SDVOSB Repository – The HHS OSDDBU will create a page that will house a repository of HUBZones and SDVOSBs with Federal past performance.

Subcontracting

- a. Hire a subcontracting program manager.
- b. Provide subcontracting compliance training to the HHS acquisition workforce.
- c. Host a subcontracting summit for industry to advise on new legislation and compliance matters.
- d. Develop subcontracting job aids and other reference tools for contracting professionals.
- e. Create page on HHS OSDDBU website dedicated to the subcontracting.

Even though the FY20 small business prime and subcontracting goals were not met, HHS utilized small businesses wherever possible in its COVID-19 response by awarding over \$1.55 billion across 897 actions to 503 small businesses. HHS looks forward to continuing to partner with the Small Business Administration (SBA) and the small business community to look for ways to increase small business participation in HHS procurements.

Attachment 1, NSF Corrective Action Report for FY 2020

National Science Foundation (NSF) Corrective Action Report for FY 2020

May 14, 2021

The following information is provided in accordance with Section 15(h) of the Small Business Act to address unmet FY 2020 Goals.

In FY 2020, NSF implemented its corrective actions solutions recommended in FY19. As a result of this implementation NSF not only achieved but exceeded its FY 2020 total Prime Contracting Goal and each of the assigned socio-economic goals. NSF FY 2020 prime contracting goals was set at 13.5%. NSF achieved 19.27%. Additionally, NSF achieved its FY 2020 socio-economic prime contracting assigned goals of 5% for Social Disadvantage Business (SDB), 5% for Women Owned Small Business (WOSB), 3% for Service-Disabled Veterans Small Business (SDVOSB), and 3% for Historically Underutilized Business Zones (HUBZones). NSF achieved 9.54% for SDB, 5.99% for WOSB, 4.26% for SDVOSB and 3.82% for HUBZone.

NSF continues to strive to overcome its deficiencies in achieving its small business subcontracting goals. NSF's FY 20 total Small Business subcontracting goal was set at 37.84%. However, NSF achieved a total small business subcontracting goal of 20.50%. Although NSF exceeded the socio-economic 5% SDB goal, awarding 13.10% to Small Disadvantage firms, and the 3% SDVOSB goal, awarding 4.60% to SDVOSB, NSF fell short in its achievements, awarding 0.60% to WOSB, and 0.20% to HUBZone firms.

NSF attributes these short falls partially to the COVID-19 pandemic. Two of NSF's larger contracts are performed overseas by a large business. These contracts account for approximately 50% of NSF's annual spending obligations. Due to the size, complexity, and the fact that this work is performed in Polar Regions, there are no small businesses capable of viably performing this work, to this end. NSF relies heavily on these contracts to yield supportable subcontracting results. Due to the COVID-19 pandemic, NSF had significantly less activity in the Polar regions, consequentially, leading to substantially fewer subcontracting opportunities for small businesses.

Now that NSF has established proven best practices to achieve its prime contracting goals, it is the plan of the agency to place more focus on the subcontracting opportunities by putting more aggressive goals into our solicitations and considering them as evaluation factors for award. NSF will continue to monitor this practice to see if it will yield the warranted results as we recompetes our larger contracts.

Additionally, NSF continues to conquer its challenges in seeking out small businesses that have established relationships with the larger prime vendors that are needed to support NSF's mission. NSF continues to add language in the sources sought and unrestricted solicitations, encouraging small business participation goals.

Regarding NSF's deficiency in 5(k)15 Exclusive Duties and Title, NSF did not receive the peer review score of 1.00 as the OSDBU Director serves in additional roles other than the OSDBU Director position. Based on the size of the NSF organization and the number of career SES appointments, it was the decision of the agency to dual role the

Chief Human Capital Officer (CHCO) as the Director of the OSDDBU. As the agency grows, this decision could possibly be reconsidered.

NSF is committed to continue with the following steps to push for success in its goal achievements:

- NSF will host vendor outreach events at the NSF headquarters and invite small businesses to come in and meet with NSF program offices and NSF's current large prime contractors. Additionally, at these outreach events, the small business office will challenge its program offices to bring current requirements that need to become operational;
- NSF OSDDBU will continue to actively engage with our internal customers and explain the benefits of working with the Small Business community;
- NSF has implemented a monthly strategy meeting to review and discuss acquisition forecasted requirements. Goaling metrics are reviewed and discussed at each meeting. NSF finds that monthly review of metrics results in greater achievement. Included in these meetings, along with the OSDDBU staff, are the senior executives in the contracts branch office. This includes the Deputy Director of Contracts and the Contracts Branch Chiefs;
- Advanced planning will continue such as the NSF Advance Acquisition Plan (AAP), which includes a listing of upcoming NSF competitions. The completed AAP for FY 2020 has been placed on the NSF public website to allow the small business community to review to ensure firms have time to plan and prepare for any applicable prime or subcontracting opportunities listed for the NSF competitive acquisitions. The NSF AAP is periodically updated throughout the year;
- Strengthen our market research activities to ensure that we are complying with the rule of two; and
- Increase efforts to encourage small businesses to compete even when a released RFQ or RFP is unrestricted.

Fiscal Year 2020 Corrective Action Report

Submitted to:

The U.S. Small Business Administration

Introduction

In accordance with Section 15(h) of the Small Business Act (15 U.S.C. 644(k)), *Reporting On Goals For Procurement Contracts Awarded To Small Business Concerns*, the U.S. Department of Energy (DOE) is providing the U.S. Small Business Administration (SBA) with the following Fiscal Year (FY) 2020 Corrective Action Report.

As noted in Table 1 below, DOE exceeded its FY 2020 statutory prime and subcontracting small business goals and achieved its highest small business obligations to date. DOE awarded over \$8.64B to small businesses in FY 2020 and was successful in exceeding its FY 2020 small business statutory prime goal of 14 percent, which represented a 20 percent increase over the FY 2019 goal. This achievement translated to \$5.04B of small business prime and first-tier Management and Operating Subcontract Reporting Capability (MOSRC) awards. In addition, DOE obligated \$3.60B of subcontract awards to small businesses, which exceeded the Agency’s statutory subcontracting goal by 7.86 percent. DOE also obligated millions of dollars to small businesses through grants and cooperative agreements, non-appropriated funds, credit cards, and other award instruments that are currently not included in the calculation of the Agency’s small business goal achievements.

While the Department exceeded all the FY 2020 statutory socio-economic subcontracting goals, it did not achieve the FY 2020 statutory prime socio-economic goals. DOE is fully committed to a number of corrective actions, as detailed below, to improve its prime socio-economic performance.

FY 2020	DOE Prime Goals with MOSRC	Prime Contracting % Achievement without MOSRC Data	Prime Contracting % Achievement with MOSRC Data	DOE Subcontracting Goals	Subcontracting % Achievement with MOSRC Data
Small Business	14.00%	4.89%	14.19%	45%	52.86%
SDB	5%	2.43%	4.72%	5%	9.1%
WOSB	5%	0.89%	3.04%	5%	10.98%
SDVOSB	3%	0.54%	1.19%	3%	3.49%
HUBZone	3%	0.18%	0.85%	3%	3.87%

Table 1: Prime and subcontracting achievements were based on Federal Procurement Data System-Next Generation (FPDS-NG), Management and Operating Subcontract Reporting Capability (MOSRC), both extracted on March 17, 21, and Electronic Subcontract Reporting System data, extracted on April 5, 2021.

Justification for Failure to Achieve Goals

Two major factors contributed to DOE not achieving the FY 2020 prime socio-economic small business goals. First, DOE’s procurement base experienced an unusual increase by approximately \$7B and was predominantly added to existing Management and Operating

(M&O) contracts. DOE's small business obligations did not show a commensurate rate of increase with respect to the procurement base in FY 2020, in part, due to the lag and/or lead-time to award subcontracts. Second, DOE agreed with SBA to increase the Department's overall small business prime goal by 20 percent over FY 2019 goal likely due to DOE's small business achievements in FY 2018 and FY 2019, which can be directly attributed to the implementation of MOSRC in FY 2016 and the lowering of the procurement base. This increase did not factor in the possibility of MOSRC plateauing at or below the 14 percent goal, which appears to have happened in FY 2020.

Future negotiations between SBA and DOE are needed to reevaluate MOSRC's full capabilities to ensure the Department's total small business achievements are considered.

Corrective Actions

To improve DOE's contracting performance in the small business socio-economic categories, DOE Office of Small and Disadvantage Business Utilization (OSDBU) initiatives include:

1. Reassignment of Program Managers within the OSDBU for each of the four socio-economic categories to support more focused outreach, improved collaboration with the contracting community during early stages of acquisition planning, achievement tracking and overall enhanced program oversight.
2. Greater advance planning and engagement with Departmental elements in forecasting mission requirements and negotiating internal small business goals as well as improving data analysis efforts to facilitate the establishment of aggressive, but achievable small business goals.
3. Collaboration with DOE Office of Economic Impact and Diversity to enhance small business outreach and training to foster a more diversified supplier base inclusive of underrepresented entities.
4. Updating DOE Mentor-Protégé Program to expedite the review and approval process and expand the use of the program among the Nation's small business stakeholders.
5. Expanding collaboration with DOE's Office of Acquisition Management to maximize support of small businesses in all business areas, including shaping Agency policy to ensure new Category Management initiatives are positioned to both safeguard existing small business awards and to the maximum extent practicable grant preference to small businesses for strategic new procurements.

DOE OSDBU looks forward to the positive impact these concerted actions will have on our Agency's small business goals and our success in supporting maximum practicable small business utilization to accomplish DOE's missions.

**General Services Administration (GSA)
Fiscal Year (FY) 2020
Corrective Actions Report**

While GSA met the prime small business goal and prime socio-economic category goals in FY 2020, GSA only met the small business subcontracting goal for FY 2020. GSA's final goal achievements for small business (SB), small disadvantaged business (SDB), women-owned small business (WOSB), service-disabled veteran-owned small business (SDVOSB) and Historically Underutilized Business Zone small business (HUBZone) subcontractors per the accepted Summary Subcontract Reports (SSRs) in the Electronic Subcontracting Reporting System (eSRS) as of close of business April 15, 2021:

Category	Goal	Achievement
SB	24%	29.3%
SDB	5%	4.4%
WOSB	5%	4.8%
SDVOSB	3%	2.9%
HUBZone	3%	1.2%

GSA completed all of the actions listed in the remediation plan listed in our FY 2019 Corrective Actions Report. Additionally, GSA's Subcontracting Program Manager examined the highest dollar commercial plan SSRs and rejected those that allocated 99% of all subcontracted dollars to the federal government requiring the contractor to submit revised reports, properly allocating a smaller percentage of dollars to the federal government. As a result of this effort, the total subcontracted dollars were reduced in FY 2020, providing more accurate portrayal of small business subcontracting under GSA contracts than in years past.

Category	FY 2020	FY 2019	FY 2018	FY 2017
SDB	\$1,236,831,689	\$2,290,692,141	\$2,366,340,319	\$3,197,345,418
WOSB	\$1,370,911,897	\$2,558,014,068	\$2,358,218,882	\$3,656,343,417
SDVO SB	\$ 827,543,547	\$ 921,890,350	\$ 727,933,055	\$ 570,091,890
HUBZone	\$ 342,950,469	\$ 382,202,431	\$ 415,847,429	\$ 300,793,428

Analysis of the FY 2020 SSR data reveals commercial subcontracting dollars continue to drive GSA's inability to meet all of its small business subcontracting goals. While commercial subcontracting reports account for less than a third of the total accepted SSRs, the total commercial plan dollars account for 40% of all subcontracted dollars. Analysis of the small business achievement data under FY 2020 commercial plan SSRs indicates only a 15.8% small business achievement. Under accepted individual plan SSRs, GSA achieved 37.7% for small business and exceeded the goals for the socio-economic categories, but the total dollars under individual plans could not offset the commercial plan dollars, revealing the impact commercial plans have on GSA subcontracting achievement.

COVID-19 also had a negative effect on GSA's achievement recorded by the companies holding commercial subcontracting plans. The airlines noted a drop in spend impacting small business achievement in 2020 due to the restriction of travel, while others, such as Ford Motor Company, noted the shutdown of operations negatively impacted their goal achievement. These companies noted in their SSRs the need to reduce their purchasing in 2020 as a means to stay afloat, negatively impacting small business achievement, particularly for the socio-economic categories, illustrated in the reduced dollars recorded above.

GSA's Public Building Service (PBS) notes they continue to be challenged by the budget approval and funding process from the Office of Management and Budget. Delays in the process hinder GSA's ability to properly plan for prospectus construction projects which ultimately involve substantial subcontracting opportunities for small businesses. This rushed timeline does not afford the potential prime contractors, the potential small business subcontractors, and the GSA Contracting Officers (COs) adequate time to fully prepare and negotiate quality plans.

PBS further notes the continued challenge in receiving commercial plan SSRs from a number of utility companies. PBS awards “area-wide” contracts that other agencies use for energy sources. While GSA does not receive direct subcontracting credit under these area-wide contracts, GSA is responsible for the commercial plan and SSR reporting.

Actions taken in FY 2020

Leadership commitment. Leadership commitment to small business subcontracting continued to be GSA’s strong point in FY 2020, characterized by each GSA Service, the Federal Acquisition Service (FAS) and PBS, taking ownership of subcontracting. Specific actions by the Services include:

- PBS Office of Leasing released its comprehensive Leasing Alert on subcontracting plans, emphasizing negotiating plans before award and required actions after award such as timely review of subcontracting reports.
- PBS saw an increase in the number of reports filed by AbilityOne in FY 2020 as a result of the efforts taken in previous years and engagement from the Source America national office. As noted in the FY 2019 Corrective Action report, the AbilityOne workshops were often remiss in submitting the required subcontracting plan reports. In FY 2020, PBS reached out to Source America nationally for assistance in driving home the need for timely eSRS reporting among the AbilityOne workshops. PBS also provided regular updates to Source America on the status of eSRS report submissions. As a result of Source America’s intercession with the workshops, FY 2020 marked an increase to 97% AbilityOne submission rate in SSR reporting alone.
- Each Service continued identifying the SSRs required by contract, following up with COs to ensure reports were submitted as required. Based on past years’ success, both PBS and FAS at the national level continued to send reminder emails to contractors reminding them of their responsibility to submit reports in eSRS well in advance of the report due dates.
- GSA’s Office of Small and Disadvantaged Business Utilization (OSDBU) sent regular email messaging to the contracting staff reminding them of report submission deadlines and their responsibility to review the reports timely.
- OSDBU and Service leadership kept subcontracting on monthly agendas and regular messaging in their respective meetings with heads of contracting activities to ensure the small business subcontracting message was received enterprise-wide.

SSR submission. Overall, GSA had a SSR submission rate exceeding 97% in FY 2020, an uptick from 94% recorded in FY 2019. GSA’s FAS is responsible for over 90%

of the SSRs. In addition to the automatic emails sent by both FAS and PBS to prime contractors reminding them to submit required eSRS reports, FAS and PBS contractors' SSR submissions continued to be monitored by their respective leadership in 2020. FAS continued its concerted effort to correct Federal Procurement Data System-Next Generation (FPDS-NG) errors in its contract writing system, enabling more contractors to file in the government-wide eSRS, reducing the need for the use of paper SF 295s submitted in lieu of SSRs. Both Services continued follow up with contracting officers to ensure submitted reports were reviewed and moved to "accepted" status.

Data analytics. Both Services used FPDS data to determine what contracts required eSRS reporting.

- In FY 2020, FAS continued data analysis by comparing data for task/delivery order awards recorded in FPDS-NG against eSRS to see if there was a corresponding SSR submission by the company. Follow-up often with the CO often revealed the SSR was filed by a parent company which contractors are allowed to do by the FAR.
- PBS also used task/delivery order data in FPDS to identify orders PBS contracting officers placed under FAS contracts, such as the GSA Multiple Award Schedule contracts to identify their universe of expected eSRS reports.
- Each Service worked with contracting officers to ensure reports were submitted as required under FAR clause 52.219-9, *Small Business Subcontracting Plans*.

Acquisition workforce training. OSDBU conducted the following training sessions in FY 2020:

- Multiple sessions on how to review a subcontracting plan
- Top ten findings on subcontracting plans stemming from OSDBU's Small Business Compliance Reviews given to FAS contract specialists
- Targeted training to specific GSA contracting activities arranged as a result of findings from OSDBU's annual small business compliance reviews and the Findings released by GAO in FY2020 on subcontracting plan administration.
- eSRS Report training continued in FY 2020, offering multiple sessions each of ISR and SSR training.

Remediation plan for FY 2021

In addition to the initiatives reported in years past and the ongoing leadership commitment across GSA, OSDBU's planned actions for FY 2021 are as follows:

- OSDBU's continued partnership with the GSA Services (FAS and PBS) in developing a lessons learned from past eSRS efforts.

- Continue messaging with tips to contracting officers for all required eSRS reports.
- Emphasis on negotiating subcontracting plan goals before contract award to ensure maximum opportunity for SBs, SDBs, WOSBs, VOSBs, SDVOSBs and HUBZONE
- Training contracting officers on how to review and negotiate a subcontracting plan before award and training on how to review eSRS reports, holding sessions in both spring and fall when reports are due and submitted.
- Update GSA's acquisition policies in GSAM 519.7, providing clarity on negotiating plans before award and review of reports after award and recommending the use of a small business participation factor as part of acquisition strategies to increase small business subcontracting.
- Continue collaboration with PBS, engaging both AbilityOne providers and Utilities on subcontracting plans and required eSRS reports.

It is anticipated that these and ongoing past initiatives will enable GSA to meet its small business subcontracting goals in FY 2021. However, GSA expects the impact of COVID-19 will continue to have a negative impact on small business achievement among contractors with commercial plans.

Fiscal Year 2020 Corrective Actions Report

In compliance with the requirements of Subsection (h) (1) (A), (B), (C) of section 15 of the Small Business Act (15 U.S.C. 644), The U.S. Department of the State (DOS) Reports the following:

FY 2020 Small Business Prime Contracting and Subcontracting Goal Achievements:

(Data obtained from beta.sam.gov on March 30, 2021)

Small Business Categories	Prime Contracting Goal	Prime Contracting Goal Achieved	Subcontracting Goal	Subcontracting Goal Achieved
Total Small Business	26.5%	32.23%	38%	52.5%
Small and Disadvantaged Business (SDB)	5%	20.32%	5%	4.9%
Women Owned Small Business (WOSB)	5%	5.06%	5%	6.8%
Service-Disabled Veteran-Owned Small Business (SDV)	3%	4.84%	3%	2.9%
Historically Underutilized Business Zone (HUB Zone)	3%	6.89%	3%	1.4%

In Fiscal Year 2020, DOS achieved its total small business goals for Prime and Subcontracting.

Over the same period, DOS missed 3 socioeconomic category subcontracting goals.

Justifications for Not Achieving Small Business Subcontracting Goals

- The requirement to submit a subcontracting plan does not apply to contracts awarded to large businesses for overseas projects. The Department’s ability to meet its small business subcontracting goals by relying solely on large prime contractors performing within the United States has been and will continue to be a major challenge. The performance over the past year has continued to be a challenge given the impact to Small Businesses during the pandemic crisis. However, FY20 results demonstrate improvement in several socio-economic goals in comparison to FY19.
- The Department, following the Category Management best practices, heavily utilizes GWACs / IDIQs in its procurements, which include commercial subcontracting plans. Since the subcontracting goals for those plans are negotiated and allocated government-wide, the Department has no control or ability to negotiate these goals, which negatively impacts the net result of our potential opportunity.

The following outlines all measures that the Department routinely takes to maximize its small business goal achievements.

1. Continued Commitment to Achieving Small Business Goals

- Enforce the Department’s Rule of Two “Order of Preference” policy that prioritizes award of new contracts to categories of small businesses that least benefited from contracting opportunities during the previous fiscal year. The Department’s Order of Preference for the Fiscal Year 2021 is as follows: WOSB, SDVOB, HUBZone, and SDB.
- Educate small businesses on the principles of doing business overseas by organizing several outreach conferences on prime and subcontracting opportunities with the Department.
- Meet regularly with the Department’s program managers to identify upcoming requirements for potential set-asides.
- Review the System for Award Management (SAM) and the Dynamic Small Business Search (DSBS) database to identify potential matches for upcoming requirements.
- Work closely with program managers and contracting officers to ensure effective utilization of small business programs.
- Encourage small business focused market research by program offices and contracting officers such as issuing Sources Sought Notices (SSNs) and requests for information (RFIs) to maximize opportunities for small business offerors.
- Continually engage through the acquisition lifecycle to facilitate setting aside opportunities and awarding contracts to small business entities.

2. Senior Level Engagement in the Importance of Achieving Small Business Goals

- In an effort to provide feedback on each bureau’s progress toward meeting its small business goal, OSDDBU disseminates Monthly Small Business Goal Achievement Report among procurement and program executives, and all management officials in the procurement process.
- OSDDBU seeks support from the Department’s executive leadership to implement internal metrics of achievement of small business goals.
- OSDDBU participates in the Department’s Category Management committee and leads efforts to integrate small business strategies into Department Category Management efforts.

3. Training of Acquisition and Program Staff

- Provide monthly training sessions on small business programs, set-asides, subcontracting, and relevant FAR principles for the contracting and program management personnel.
- Add training and technical assistance on best practices for market research and outreach.
- Provide support and training assistance on evolving business practices, small business review policies and procedures.

4. Outreach to Small Businesses

- Ensure that information on the Department’s OSDDBU website is updated regularly, including updates to the “Guide to Doing Business with the Department of State,” list of prime contractors, and “Annual Forecast of Contract Opportunities.”
- Require contracting officers to issue Requests for Information or Sources Sought Notices in beta.sam.gov.
- Participate in conferences, workshops, and panel discussions on Federal Government contracting opportunities.
- Support government-wide small business outreach efforts by co-hosting, attending, participating in matchmaking at other agencies’ events, and providing opportunities for other federal departments and agencies to meet with small businesses at Department of State outreach events. The Department is actively engaging with industry partners nationwide and participating in virtual events that address the various small business and socioeconomic ecosystems; the ability to participate remotely has given the Department unprecedented access to small businesses around the country.
- Provide one-on-one and group counseling to small businesses on how to do business with the Department. The Department has implemented videoconferencing access that enables staff to seamlessly conduct group and 1-on-1 small business meetings. Moreover, the technology as improved access to Department personnel by reducing the physical barriers of distance and travel costs.
- Sponsor three annual small business events, that include conference/briefing, business matchmaking, and networking components.

- Implement an annual Reverse Industry Day to enable industry to share challenges and best practices with the Department's contracting community.
- Facilitate capability presentations by qualified small businesses to program and acquisition officials.

5. **Commitment to Achieving Subcontracting Goals**

- Conducted 1st Virtual Subcontracting Program 8/2020 to facilitates matchmaking, networking, and meetings between large prime contractors and small businesses seeking subcontracting opportunities.
- Manage and monitor e-SRS to ensure timely submissions of the ISRs and SSRs by large prime contractors and timely review of the ISRs by the Agency Coordinator / Small Business Technical Liaison.
- Provide training on subcontracting goals and processes for contracting officers and contract specialists.
- Developed a library of Subcontracting related resources on the Department's internal site that includes procedures manuals, training guides, and up-to-date goals and achievements tracking.
- Launched a pilot program to include small business participation as an evaluation factor in unrestricted solicitations.

Corrective Action Plan

The U.S. Department of Transportation (DOT) met its prime contract small business goals, and other statutory socioeconomic goals in FY2020. However, DOT fell short in the HubZone and Service Disabled Veteran Owned Small Business (SDVOSB) subcontracting goals, see table below.

Socioeconomic Group	Goal	Achievement
Historically Underutilized Business Zone (HUBZone)	3%	0.8%
Service-Disabled Veteran-owned Small Businesses	3%	2.4%

Our office is committed to provide maximum opportunities to small businesses through our subcontracting programs and ensure compliance with Federal Acquisition Regulations (FAR) requirements regarding small business participation reporting. We assessed our subcontracting programs to determine prime contractor and contracting officers' compliance with Federal Acquisition Regulations (FAR) and any factors that may have hampered our ability to meet the above referenced goals. We found the following:

- Some primes did not submit Individual Subcontracting Reports (ISR) and Summary Subcontracting Reports through the Electronic Subcontracting Reporting System (eSRS) in a timely manner.
- Although there were some improvements compared with previous years, some contracting officers did not review ISR reports in a timely manner.

ACTIONS TAKEN

Our office is determined to strengthen our subcontracting program and we took several measures to remediate the issues listed above, as follows:

- Provided a meeting series for Small Business Specialists involved in the evaluation of subcontracting reports in the eSRS.
- OSDBU provided subcontracting plans and eSRS training at monthly Small Business Specialist Meetings.
- OSDBU Director, as part of DOT's Strategic Acquisition Council (SAC), meets monthly with the Senior Procurement Executive and Operating Administration's Chief of Contracting Officers (COCOs) to discuss small business initiatives including subcontracting programs and goals.

- OSDBU regularly monitored the eSRS for prime contractors timely reporting and compliance. We reviewed a subcontracting report from FPDS to determine the prime contractors required to submit ISR and SSR reports.. We cross-referenced this data with ISR and SSR submissions in eSRS. We reached out to those primes in non-compliance to remind them of the requirement to submit these reports.
- OSDBU staff provided training to Operating Administration Small Business Specialists (SBS) and contracting officers (CO) to emphasize FAR requirements related to subcontracting plans including pre and post award CO responsibilities.
- Enforced FAR 19.7 requirements to set Veteran Owned Small Business goals in DOT subcontracting plans.
- DOT Operating Administrations and DOT subcontracting policies include a review of all Subcontracting Plans by Contracting Officers, Small Business Specialists, the SBA Procurement Center Representative and OSDBU.
- The DOT OSDBU website communicates information on subcontracting with DOT and includes the DOT Subcontracting Directory.

NEXT STEPS

- Our staff will work closely with Operating Administrations to ensure prompt review of ISR reports in eSRS by Contracting Officers.
- We will monitor eSRS on a monthly basis to determine Contracting Officer compliance and communicate with those in non-compliance for immediate action.
- Our staff will provide training to DOT acquisition community to remind them of their pre and post award requirements as they relate to subcontracting plans and prime contractor reporting requirements.
- OSDBU staff will work with prime contractors to ensure ISR and SSR reports are submitted on time. OSDBU will continue our proactive approach to communicate with primes before the end of each reporting period to remind them of the due dates and provide assistance if needed. Our goal is to have all ISR and SSR reports by the due dates.

The DOI achieved all the goals established for the agency under 15 USC 644 subsection (g)(2) in FY 2020 with the exception of the Historically Underutilized Business Zone (HUBZone) and Service-Disabled Veteran Owned (SDVOSB) subcontracting goals. Historically, The HUBZone goal has been difficult to achieve since the goal is small relative to the dollar value of most DOI contracts that have a subcontract plan.

The DOI OSDBU is identifying opportunities to better align the Department’s small business activities, Department strategies, and executive orders, strengthening OSDBU’s ability to support the Department’s mission and service small and underserved small businesses. The DOI OSDBU continues to emphasize HUBZone and SDVOSB subcontracting in small business subcontract plans and through data analysis of spend to identify areas of opportunity to increase HubZone participation, increasing the use of small business subcontracting as an evaluation factor contract award and highlighting success stories, specifically HUBZone and SDVOSB through the annual DOI Small Business Champion award.

MEMORANDUM FOR THE SMALL BUSINESS ADMINISTRATION, ASSISTANT ADMINISTRATOR FOR GOVERNMENT CONTRACTING AND BUSINESS DEVELOPMENT

SUBJECT: U.S. Department of Treasury's FY 2020 Small Business Scorecard Corrective Action Plan

The Department of Treasury is committed to adopting leading edge small business and procurement strategies and initiatives to increase supplier diversity and ensure successful execution of mission critical functions. Together, the Chief Acquisition Officer (CAO), Senior Procurement Executive (SPE), and the Office of Minority and Women Inclusion (OMWI), identified corrective actions to help ensure Treasury's small business and subcontracting goals in FY 2021 are met.

For the first time in 10 years, Department of the Treasury did not meet their statutory Historically Underutilized Business Zone (HUBZone) prime small business contracting goal. Treasury awarded \$157,633,143 or 2.47% to HUBZone small businesses. The statutory goal is 3%, and Treasury missed the goal by .53%.

Also, for the first time in 10 years, Department of Treasury did not meet 4 out of 5 subcontracting goals. In FY 2020, Treasury's statutory Small Business subcontracting goal was 30%. Treasury achieved 23.7% in Small Business subcontracting awards. Treasury missed the Small Business subcontracting statutory goal by 6.3%. Furthermore, Treasury did not meet the following Socio-economic statutory subcontracting goals: Service-Disabled Veteran-Owned Small Business (goal 3%, achieved 0.8%), Small Disadvantaged Business (goal 5%, achieved 4.8%), and HUBZone business (goal 3%, achieved 2.3%).

Treasury procurement offices had many competing priorities in FY 2020. COVID-related emergency acquisitions impacted the ability of program offices and Procurement organizations to adequately perform acquisition planning. These emergency acquisitions stalled the strategies in place to meet Treasury's prime and subcontracting goals and hindered acquisition workforce training, especially the area of small business subcontracting.

Treasury OSDDBU provides the following corrective actions that will assist Treasury in meeting Treasury's FY 2021 statutory prime and subcontracting goals: 1) Treasury's Chief Acquisition Officer and Senior Procurement Executive will assess Bureau compliance with Treasury procurement policies and identify potential strategies to increase procurement opportunities among the socio-economic categories, 2) Treasury bureaus will provide the Office of Procurement Executive approved pre- and post-award subcontracting oversight and management training to the acquisition workforce (contract specialists, contracting officers, procurement policy officers, program officers), and 3) Contracting Officers shall coordinate all

subcontracting plan reviews with OSDBU and SBA Procurement Center Representative prior to adding the plan to the resultant contract.

Small Business: Achieved

Small Disadvantaged Business: Achieved

Women-Owned Small Business: Not Achieved

Service-Disabled Veteran-Owned Small Business: Achieved

HUBZone: Not Achieved

1.C: Justification for WOSB and HUBZone prime contracting underachievement

The Department's procurement efforts are challenged by mission focus, statutory small business goals, COVID-19 impacts, and an organizational commitment to increase common spend under the Category Management initiative. Overall, the Department successfully navigates these challenges but is disappointed with the failure to successfully do so for the WOSB and HUBZone socio-economic programs. Part of the mission challenge is evident in the increased funding for major defense acquisition programs (MDAPs) which offer fewer opportunities for small business prime contractors. Continued increases in funding for MDAPs increases the weighting of high dollar value and more complex contracts that are not well-suited for small business concerns. The Department is optimistic it will continue to improve in these goal areas.

WOSB: Previously, DoD demonstrated steady improvement in WOSB contracting and expected that trend to continue, however, WOSB outreach was severely impacted this year due to the Global COVID-19 pandemic. WOSB in FY20 spending remained on par with FY19, but performance fell due to an increased overall spend. The Department expects performance improvements to resume in the achievement of the 5% prime contracting goal.

HUBZone: HUBZone small business concerns do not have a competitive advantage over other small business concerns. The HUBZone price evaluation preference does provide a competitive advantage when considering offers from other-than-small business concerns in full and open competitions. Highly performing small business concerns who would otherwise be eligible for HUBZone program certification have been challenged by a dynamic HUBZone map and onerous program requirements for continuing eligibility. On November 26, 2019, the Small Business Administration issued comprehensive changes to the HUBZone program (reference 84 FR 65222) that will realize increased stability and efficiency in the HUBZone Program. The Department realized an increase in dollars which contributed to the Department's improved performance.

2A: Extent of Participation in FY 2020 DoD Subcontracting by Small Business Concerns

FY 2020 DoD SB Subcontracting Report Results (eSRS) as of 4/15/21:

Total Eligible Dollars: \$165.2 billion

Small Business: \$55.2 billion (33.40%), above the 32.00% goal.

Small Disadvantaged Business: \$6.8 billion (4.14%), below the 5.0% goal.

Woman Owned Small Business: \$8.9 billion (5.39%), above the 5.0% goal.

Service Disabled Veteran Owned Small Business: \$3.7 billion (2.23%), below the 3.0% goal.

HUBZone: \$2.8 billion (1.72%), below the 3.0% goal.

FY2019 Official Subcontracting information:

Total Eligible Dollars: \$161.8 billion

Small Business: \$62.3 billion (38.53%), above the 32.00% goal.

Small Disadvantaged Business: \$6.4 billion (3.95%), below the 5.0% goal.

Woman Owned Small Business: \$8.5 billion (5.24%), above the 5.0% goal.

Service Disabled Veteran Owned Small Business: \$3.3 billion (2.06%), below the 3.0% goal.

HUBZone: \$2.6 billion (1.60%), below the 3.0% goal.

The DoD exceeded the FY 2020 performance goal with a 33.40% performance, however this was a decline in total small business performance and dollars. The department also exceeded the subcontracting WOSB statutory 5% goal with 5.39% performance, an increase in dollars and percentage from the previous year. While small business goals were not met for the SDB, SDVOSB, and HUBZone socio-economic concerns, performance and dollars were increased in each of these areas from the previous fiscal year levels.

2.B: In FY 2020 the Department of Defense achieved two of five subcontracting goals

Small Business: Achieved

Small Disadvantaged Business: Not Achieved

Women-Owned Small Business: Achieved

Service-Disabled Veteran-Owned Small Business: Not Achieved

HUBZone: Not Achieved

2.C: Justification for SDB, SDVOSB and HUBZone subcontracting underachievement

Although DoD exceeded the Small Business and WOSB subcontracting goal and increased dollars and percentages in all socio-economic subcontracting concerns in FY 2020, DoD did not meet the SDB, SDVOSB, and HUBZone subcontracting goals.

The obvious challenge the Department faced in FY 2020 was the ongoing COVID-19 pandemic. The Department received an unusually high number of Individual Subcontract Reports that were zeroed out across the entire report, which is possibly due to the challenge faced by prime contractors in successfully finding and maintaining subcontract relationships during the pandemic. Additionally, the Department has continued increase funding for its major defense acquisition programs (MDAPs). This trend increases the weight of MDAP prime contractors on subcontracting goals as MDAP prime contractors often awarded first-tier subcontracting to other than small businesses (OTSBs). These OTSBs (like Northrup Grumman and BAE Systems on the F-35 MDAP where Lockheed Martin is the prime contractor) are not required to record their subcontracting participation in eSRS below the first-tier; eliminating the inclusion of potential small businesses in lower-tiered subcontracts. Additionally, the secondary and tertiary effects of purchasing major defense systems includes smaller percentages of capable small businesses to fulfill higher-tiered subcontracting roles. The DoD Mentor Protégé Program was established to develop capable small business concerns to meet critical industrial base needs.

Recent improvements in subcontracting data collection and surveillance have provided more accurate data to manage subcontracting plan compliance. The Department, working closely with the Defense Acquisition University, also improved subcontracting training and guidance for contracting officials and small business professionals. Areas of progress included: reviewing subcontracting plans and carrying out post-award functions related to subcontracting. A subcontracting course offered through the Defense Acquisition University (DAU) covers compliance requirements from pre-award through post-award. The impact of these initiatives

was to refine improve subcontracting compliance improvements and improved subcontracting data collection and analysis. These efforts resulted in an increase of small business socio-economic subcontracting concerns as measured by dollars awarded and percentage increase over FY 2019 performance levels.

Remediation Strategies

In December 2019, the Office of Industrial Policy submitted the DoD Small Business Strategy to Congress. The Strategy focuses on three strategic goals: creating and implementing a unified management structure across the Department's small business workforce; aligning the Department's small business activities with the National Defense Strategy (NDS), National Security Strategy, and Executive Order 13806; and strengthening DoD's ability to support the warfighter and serve small businesses. The Strategy will assist the Department in assessing priorities across stakeholders, identifying opportunities for enhancement, and leveraging the significant efforts of other departments and agencies that also focus on supporting small businesses. The alignment of the Department's small business activities with the objectives of the NDS will ensure our work has a meaningful impact on securing our allies and nation's future. The Department is also working to identify opportunities to improve its day-to-day support of small businesses, maximize the utility of each individual program, and replicate our most successful tactics across lines of effort. These goals and objectives aim to leverage the might of the millions of entrepreneurs and small business owners across the nation to help secure our future.

The participation of dynamic, robust, and modern small businesses in the industrial base is critical to the United States' efforts to maintain its technological superiority, military readiness, and lethality. The Strategy pursues a wide variety of methods to unlock small business capabilities, change the acquisition culture of the Department towards small businesses, and improve acquisition processes to simplify and enhance how small companies do business with the Department of Defense. In the execution of this Strategy, the Department will increase and improve small business workforce training, focus key innovation programs on small business participation, increase commercialization, develop the right tools for acquisition professionals, and streamline policy and regulations where appropriate. This multi-faceted effort will encourage every organization of the Department of Defense to support and promote these initiatives to create a more synchronized, modernized, and agile small business industrial base.

During FY 2020, the Department continued efforts to meet statutorily mandated small business goals. The Department will continue to refine our small business strategy to address small business performance shortfalls and encourage new opportunities for small businesses to achieve greater socioeconomic impact during FY 2021 using innovative tools, leveraging policy changes, offering specialized training, exploiting strategic partnerships, and focused outreach.

Leveraging Policy Changes

Proposed Small Business regulations and related FAR changes (i.e., FAR case 2018-003) will provide small business subcontracting credit below the first-tier subcontracting level and will permit prime contractors, particularly the Department's MDAP contractors, to receive subcontracting credit for lower tier small business concerns.

Offering Specialized Training

In FY 2021, The Department will improve training for small business professionals, arming them with critical knowledge to improve performance and ensure proper execution of small business programs. DoD is continuing to review and promote small business equities through training, frequent industry outreach to overcome the challenges of COVID-19, and revision of small business professional certification requirements for the Defense Acquisition Workforce Improvement Act (DAWIA) certification curriculum. The courses expand the implementation of established and continually evolving small business competencies across the workforce and address findings from gap assessments to improve performance. This training will educate the defense acquisition workforce to make better and more informed decisions, and improve opportunities for small businesses.

DoD OSBP will also continue earlier efforts to provide training for acquisition and small business professionals in the Department and to industry regarding subcontracting policies and procedures, cyber-security compliance and resources, and the submission and review of required subcontracting reports in accordance with subcontracting plans. DoD will target reports required under a Commercial Subcontracting Plan to ensure correct submission and proper review by the identified contracting organization. DoD will also emphasize subcontracting through outreach efforts.

During FY 2021, the Department of Defense continues to plan to host Small Business Training Week, a collaborative training with the Small Business Administration (SBA). The event provides updates regarding DoD programs, policy and legislative changes and serves as a forum for participants to discuss common issues and practices. This training assists Small Business Professionals, including contracting officers, in making well-informed decisions when suggesting and awarding opportunities that might include small business concerns.

Exploiting Strategic Partnerships

DoD OSBP will continue its valuable partnerships with DoD and civilian federal agencies to implement small business contracting regulations in the Federal Acquisition Regulation (FAR) and Defense FAR Supplement (DFARS). DoD OSBP regularly participates in the FAR Small Business Team and DFARS Small Business Committee to craft changes to regulations, and also works with DPAP to issue policy guidance for the acquisition workforce, such as deviations or interim guidance.

The Department will leverage force multipliers such as the DoD Mentor Protégé Program (MPP) and DoD R&E efforts to promote commercialization of innovative technologies to meet critical industrial base needs and provide critical training such as cybersecurity. Incorporating these

requirements into acquisition strategies will assist the Department in achieving small business goals and increase the number of qualified vendors within the industrial base.

DoD OSBP will continue targeting outreach events to address readiness challenges with Major Defense Acquisition Programs. Establishing strategic partnerships with industry will assist the Department in identifying SDB, SDVOSB and HUBZone small business subcontractors that can provide critical technology to meet capability gaps. The department will continue efforts to improve performance in SDB, SDVOSB and HUBZone subcontracting while maintaining an increase in the other socioeconomic categories.

Focused Outreach

To increase small business awareness and achievement, the Department will continue providing effective outreach, marketing and promotional materials through business.defense.gov to serve and expand our audience. DoD will host, partner and support educational small business events, providing awareness to areas of underachievement such as SDB, SDVOSB and HUBZone small business subcontracting.

DoD OSBP will continue partnering with SBA and WIPP, to host and support ChallengeHER events. ChallengeHER is designed to provide women business owners with procurement education, best practices for working with the government, and resources to learn how to apply and obtain a federal contract under WOSB/EDWOSB set asides.

The Department will continue a series of Small Business webinars and industry meetings providing necessary awareness and training to small business entrepreneurs interested in doing business with the Department of Defense. These events address program requirements, policy and legislative changes, and COVID-19 resources for small business. They have served as an effective forum to address industrial base concerns for increased cash flow, workplace flexibilities, performance forbearance, cybersecurity, and to promulgate best practices.

These changes and improvements will enable the Department to focus its attention on compliance oversight and subcontracting achievements for the DoD Services and Agencies.

Dear Ms. Hidalgo:

As required by section 15(h)(1) of the Small Business Act (15 U.S.C. § 644(h)(1)), the Department of Veterans Affairs (VA) submits this report on its achievement of small business goals for fiscal year (FY) 2020. The enclosed report describes VA's Veterans First contracting requirements that enable the Department to take a leadership role for Service-Disabled Veteran-Owned Small Businesses (SDVOSBs) and Veteran-Owned Small Businesses (VOSBs). It also discusses the challenges presented for other socioeconomic goals and how VA will address them.

In FY 2020, VA was again the Federal civilian agency leader in prime contract dollars awarded to SDVOSBs, awarding more than \$7.4 billion to such firms out of a total procurement of \$36.9 billion, or 20.23% of total dollars. More than one out of every four Federal dollars awarded to SDVOSB prime contractors came from VA.

In addition, VA is unique in having a goal for contracting with VOSBs. For FY 2020, the Secretary determined this goal to be 17%. VA significantly exceeded this goal, awarding 20.41% of its contract dollars to VOSBs. VA also awarded 9.32% to small disadvantaged businesses, nearly doubling the 5% goal.

VA continues to excel in its performance of subcontracting goals in the area of individual subcontracting plans, achieving over 61% with small businesses. However, the bulk of VA's subcontracting (more than 98%) is on commercial plans that reflect contracts across multiple agencies. Due to systemic issues with the process for managing and reporting subcontracting results, VA recommends the Small Business

Fiscal Year 2020

Small Business Participation in VA Contracts and Achievement of Goals

As required by section 15(h)(1) of the Small Business Act, the Department of Veterans Affairs (VA) submits this report on participation of various types of small businesses in VA contracting. The statutory mandate requires an assessment of VA’s achievement of the various goals, justification for failure to meet any of the goals, and a remediation plan to address the unmet goals.

In fiscal year (FY) 2020, VA did not meet its goals for contracting with small businesses, Historically Underutilized Business Zone (HUBZone) small businesses and Women-Owned Small Businesses (WOSBs), but exceeded the goals for Service-Disabled Veteran-Owned Small Businesses (SDVOSBs), Veteran-Owned Small businesses (VOSBs) and Small Disadvantaged Businesses (SDBs). In fact, for the first time, VA spent more than \$7 billion with VOSBs and SDVOSBs.

	Dollars Credited (Achievement)	Percent of Total Procurement (\$36,928,231,252)	Percentage Goal
All Small Business	\$9,817,323,433	26.6%	28.2%
SDVOSB	\$7,473,181,860	20.2%	15.0%
VOSB	\$7,536,924,260	20.4%	17.0%
HUBZone	\$731,590,672	2.0%	3.0%
SDB	\$3,441,907,846	9.3%	5.0%
WOSB	\$902,468,567	2.4%	5.0%

Exhibit 1. Department of Veterans Affairs Small Business Goaling Report, FY 2020. Source: Federal Procurement Data System, downloaded February 23, 2021. The presentation in this chart reflects the larger overall small business goal followed by all other socioeconomic groups in VA’s hierarchy of contracting preferences per 38 U.S.C. 8127(h). Dollars represent the sum of all Action Obligations for contract actions where Contracting Officer’s business size determination is “SMALL BUSINESS” and vendor type is the socioeconomic status indicated in the table.

In preparation for this report, VA also reviewed its FY 2020 subcontracting achievements using the “Subcontracting Achievements by Federal Agency” report in the Electronic Subcontracting Reporting System (eSRS), as directed by the Small Business Administration (SBA). This report reviews subcontracts associated with specific prime contracts awarded by VA, as well as an attributed share of sales reported by prime contractors on their companywide commercial plans. As of March 29, 2021, this report indicated VA met only two of the subcontracting goals for individual subcontracting plans on VA contracts. However, since the great majority of VA subcontracting is done as part of commercial plans, they caused VA to fall short on its subcontracting goals.

VA recommends that SBA establish a working group to examine the entire subcontracting business process for establishing goals, tracking progress, and reporting results, and in particular, the business process and data system for attributing commercial plan dollars to Federal agencies.

Exhibit 2. Subcontracting awards to small business, FY 2020. Source: Electronic Subcontracting Reporting System, downloaded March 29, 2021. For consistency, the order reflects the same hierarchy as shown in the prime contracting chart. VA has broken out the individual and commercial subcontracting plans to demonstrate the order of magnitude difference between these types of subcontracts.

Background

VA carries out its prime contracting and subcontracting programs with small business under the authority of two separate but closely related laws: the Small Business Act (15 U.S.C. 631 *et seq.*), which applies Government-wide; and the Veterans First Contracting Program authorized by 38 U.S.C. 8127-28, which is specific to VA. In FY 2020, VA awarded \$36.9 billion to prime contractors of all sizes and received small business goal credit of \$9.8 billion. VA's prime contractors, in turn, awarded \$27.8 billion in subcontracts to support their performance of VA contract requirements, and small businesses received nearly \$5.4 billion of this total.

As the name suggests, the Veterans First Contracting Program requires VA to award contracts to SDVOSBs and other VOSBs, provided the Veteran ownership and control of such firms has been verified by VA's Center for Verification and Evaluation. In making contract awards, the law directs VA to consider SDVOSBs first and VOSBs second, followed by the other SBA programs (HUBZone, 8(a), and WOSB), then all other small business preferences. Goals for prime contracting programs are negotiated with SBA, except for SDVOSB and VOSB goals, which are established by the Secretary of Veterans Affairs.

While the Government-wide SDVOSB program established by the Small Business Act specifies a goal of 3% of awarded prime contracting dollars, the VA Secretary establishes a higher goal for VA as required by the Veterans First Contracting Program. In addition, the Secretary establishes a goal for VOSBs, which has no Government-wide counterpart. Having VA-specific goals for these firms accords with the enhanced opportunity available at VA, due in large part to the legal mandate to set aside contracts for such firms when VA reasonably expects to receive two or more competitive offers, a requirement commonly referred to as the "VA Rule of Two." The mandatory nature of this policy was reinforced by the U.S. Supreme Court in *Kingdomware Technologies, Inc. v. United States*, --- U.S. ---, 136 S. Ct. 195 L. Ed. 2d. 334 (2016).

As noted previously, VA's prime contractors often carry out their commitments with the aid of subcontractors, and VA expects small businesses to participate in those subcontracts as well. The Secretary establishes goals for subcontracting with SDVOSBs and VOSBs, and VA negotiates a goal for other categories with SBA. Reports on small business participation under these contracts are submitted to the eSRS, where the responsible contracting officer can review and accept or reject the report submitted. In practice, VA contracting officers have the most visibility into performance on an individual plan *i.e.*, a subcontracting plan specifically related to one particular contract; however, these only made up about 2% of VA subcontracting dollars in FY 2020.

Most subcontracting at VA occurs in relation to commercial plans; *i.e.*, plans associated with goods and services available in the commercial marketplace where the contractor has business relationships with VA, other Federal agencies and the private sector. Because of the multiple customers involved, and because commercial acquisition seeks to rely on marketplace practices rather than Government requirements, VA contracting officers are limited in their ability to monitor and manage these plans. Approximately 98% of VA's FY 2020 subcontracting dollars were awarded on commercial plans.

Justifications for Unmet Goals

VA's contracting spend affects the Department's ability to achieve its socioeconomic goals. Due to these concerns, SBA and VA agreed to an FY 2020 small business goal that was decreased from 29.6% in FY 2019 to 28.2% in FY 2020. In accepting this goal, VA noted its concern regarding the impact of statutorily directed non-VA provided health care initiatives associated with the Maintaining Internal Systems and Strengthening Integrated Outside Networks (MISSION) Act of 2018 (Public Law 115-182). These concerns about the impact on small business participation proved to be valid. However, VA's top priority is providing care to Veterans when and where they need it, and that may be incongruent with small business contracting on occasion. The fact that VA did not achieve the FY 2020 small business goal suggests that VA has been impacted by these mission-critical changes to its procurement baseline.

For example, VA's contractual health care initiatives are necessarily awarded to large firms as the only offerors with the capability to provide the necessary referral networks and connect Veterans with the appropriate health care providers. VA also reported a significant addition of new dollars in VA's procurement baseline compared to prior years associated with its Community Care Network contracts for non-VA healthcare. To manage its small business goals effectively, VA needs systematic and timely reporting of this spend through express reporting to the Federal Procurement Data System (FPDS). Significantly, VA's overall procurement went from \$27.5 billion in FY 2019 to more than \$36.9 billion in FY 2020.

VA continued to lead the Federal government in procurement dollars awarded to SDVOSBs, once again exceeding the combined procurements of all civilian agencies in this category as a result of the Veterans First Contracting Program's mandated preference for SDVOSBs and VOSBs. While this statutory hierarchy is consistent with VA's Veteran-centric mission, it also has an unavoidable consequence of limiting VA's use of the set-aside and sole-source authorities that are available to other Federal agencies in non-Veteran socioeconomic categories. A VA contracting officer may proceed to exercise an authority ranked after those programs in this hierarchy only if market research indicates insufficient SDVOSB or VOSB sources. Since there are more than 14,000 verified firms in the VA Veterans First Contracting Program, there are few instances where the VA Rule of Two does not yield capable SDVOSBs or VOSBs to choose from. As a result, VA mainly receives credit toward the HUBZone and WOSB goals by awarding contracts to SDVOSBs and VOSBs that have dual eligibility: *i.e.*, that are eligible for these other programs in addition to being an SDVOSB or VOSB.

In addition, the Supreme Court held in *Kingdomware Technologies, Inc. v. United States* that VA's mandate to award contracts to SDVOSBs and VOSBs does not cease once VA has met its goals for those categories. By contrast, SBA regulations generally allow an agency to select among programs based on, among other factors, the need to award contracts in a particular program to achieve program contracting goals. See, *e.g.*, 13 CFR § 125.2(f)(2)(ii). This parity among the Government-wide small business programs is not available to VA due to its statutory mandate. Accordingly, VA last met its HUBZone goal, and came within a small fraction of meeting its WOSB goal, in Fiscal Year 2007, the year in which this priority policy was enacted through the Veterans

Benefits, Health Care, and Information Technology Act of 2006 (Public Law 109-461).

Regarding subcontracting, VA is largely successful in achieving small business goals with respect to individual plans. For example, for FY 2016-20, VA's overall small business goal performance on individual subcontracting plans ranged from 43.2% to 65.0%. When VA's results on such individual plans are added to results from commercial plans, to calculate overall agency performance on the SBA scorecard, VA falls short of the SBA goals due to the magnitude of subcontracting using commercial plans.

Previously, more than 90% of VA's subcontracting (measured in dollars) was based on commercial plans, but in the past four years (FY 2016-19), commercial plans have grown to represent 98% of VA's subcontracting plan dollars. Congress enacted a preference for acquisition of commercial items to leverage the competition in the general marketplace, in place of Government administrative overhead and Government-unique item specifications. Commercial plans are the preferred subcontracting plan approach for prime contractors providing such items. Rather than track specific subcontracts as in an individual prime contract, such commercial plans involve large aggregates of entire product lines that serve all agencies and the private marketplace, and estimate the participation of small businesses based on the share deemed attributable to VA.

The decision on whether a prime contractor will provide a commercial plan starts with a consideration of if the contractor provides commercial items to the Government. Once an agency's contracting officer negotiates a commercial plan based on requirements for commercial items, the rest of the Government is bound by the decision. This means VA could be charged with meeting goals negotiated by a contracting officer for another agency not governed by VA's Veterans First Contracting Program requirements. Moreover, once a commercial plan is in place by another agency, VA is not permitted to impose additional subcontracting plan requirements covering the same items irrespective of the Veterans First requirements. Finally, reports on accomplishments under such plans are submitted annually, after the end of the fiscal year—too late to provide actionable information to track performance or address shortfalls while the fiscal year is still in progress. These policy constraints are a significant impediment to VA's ability to achieve, or even manage, these goals.

Remediation Plan to Address Unmet Goals

As noted previously, VA's unexpected shortfall on its FY 2020 prime contracting small business goal suggests the Department's procurement baseline continues to face risks from implementation of non-VA health care initiatives and other mission-critical requirements regardless of careful planning and monitoring of acquisition strategies. An express report received in December 2020 in the amount of \$3.3 billion with more than 360,000 contract actions had a significantly negative impact on VA's small business goaling achievements, after the fiscal year had actually concluded. The FY 2021 goal, based on achievements prior to that express report, increases modestly to 28.45%, and

could present a challenge to VA. VA anticipates continued success on its SDVOSB and VOSB goals, but continued challenges with respect to HUBZone small businesses and WOSBs.

To adhere to Veterans First Contracting Program requirements, VA seeks to increase the number of verified VOSB firms with dual eligibility in the WOSB program, and VA OSDBU has created an initiative to target these firms. Since contracting officers cannot evaluate an offeror based on participation in multiple socioeconomic categories, VA is conducting more aggressive outreach to dual-eligible firms by hosting outreach events for women owners of VOSBs to encourage them to apply for verification of their VOSB status. VA is also reaching out to Veterans at WOSB events to encourage them to compete for VA contracts.

VA is considering policy changes that would more effectively consider the use of the WOSB and Economically Disadvantaged WOSB set-asides ahead of the general small business set-aside, consistent with VA's procurement hierarchy.

With respect to subcontracting, VA anticipates continued challenges under a policy framework that limits visibility in commercial plan performance. Additionally, given the recent growth in the share commercial plans represent of VA subcontracting performance, this issue will continue to challenge our performance in this area. VA would welcome an opportunity to work with other agencies and SBA, either through the Small Business Procurement Advisory Council or a working group specifically for this purpose, to identify policy options to improve accountability on commercial plans, while remaining cognizant of Congress' purpose in using commercial practices to reduce acquisition costs and administrative burdens.

ENCLOSURE 18
Department of Housing and Urban Development
(HUD)

U.S. Department of Housing and Urban Development

FY 2020 Corrective Actions Report

The U.S. Department of Housing and Urban Development (HUD, or the Department) remains strongly committed to utilizing small business concerns to the maximum extent practicable for its procurement needs. Since FY 2012, HUD has received consecutive “A” or “A+” grades on the Federal Small Business Procurement Scorecards, and in FY 2018 and FY 2019, HUD achieved all its prime small business goals. However, in FY 2020, HUD did not achieve the small business, service-disabled veteran-owned prime small business (SDVOSB), or women owned small business (WOSB) goals based on SBA’s Scorecard methodology given the way that de-obligations are incorporated into the calculation.

Throughout FY 2020, the Department continued to award a significant portion of its contract dollars to small business concerns and worked to clear findings of outstanding de-obligations from prior years, some as far back as FY 2008. However, the large number of unanticipated de-obligations in FY 2020, severely impacted the Department’s small business goal achievement. According to HUD’s projections, when excluding the de-obligations, HUD would have achieved all small business prime goals. Unfortunately, SBA’s scorecard methodology continues to include prior year de-obligations with current year achievements which misrepresents the accurate performance of the Department in meeting its small business commitments. Taking this into account, HUD negotiated with SBA a considerably lower small business prime goal of five percent for FY 2021.

The largest source of de-obligations for HUD has been from the Federal Housing Administration’s (FHA) Management & Marketing (M&M) contracts. Since 1999, HUD has been outsourcing the disposition of its foreclosed FHA inventory under the M&M contracting process. M&M contractors manage and market single family properties owned by or in the custody of HUD. This can at times be a volatile market and planning for contract obligations to support maintenance and marketing of the Department’s real estate owned or REO properties is not an exact science. The M&M contracts, which make up a significant portion of the Office of Housing’s overall contract portfolio, historically have provided numerous small business set-aside opportunities. However, since FY 2013, there has been a significant decrease in the overall housing portfolio in some contract areas. The process of closing out M&M contracts, from as early as FY 2008, is ongoing and has resulted in de-obligating hundreds of millions of dollars. HUD’s massive de-obligations effort in FY 2020 helped contribute to the Department’s clean audit opinion, as it was a long-standing financial management challenge. As a result of the massive de-obligations, when using the Small Business Administration’s Scorecard methodology, HUD’s percentage of obligated dollars going to small businesses significantly decreased from over 28 percent to less than two percent, and also resulted in what would otherwise be an impossibility - a negative SDVOSB achievement.

In FY 2020, the Department was short 4.8 percentage points of the 49 percent small business subcontracting goal. Achieving the small business subcontracting goals and category management objectives are challenging. When using best-in-class vehicles and multiple award schedules, the Department has no insight into the subcontracting goals and achievements on the resulting task order awards and whether the Department has received full credit for the subcontracting achievements. While the contracting officer may request additional goals on the task order awards, currently, there can only be one subcontracting plan and those achievements are reported under the

master contract for whichever agency holds the master contract. Taking this into account, HUD negotiated with SBA a considerably lower subcontracting goal of 35 percent for FY 2021.

In FY2020, HUD OSDBU planned to host several conferences and training events. When the planned in person events were no longer feasible, HUD relied on electronic collaborative tools and revamped the events to virtual trainings and events. Also, in FY2020, HUD OSDBU hosted its first virtual matchmaking event. HUD OSDBU hosted conferences and training events have received extremely positive feedback from both industry and HUD staff. This unexpected pivot to a virtual environment has allowed the Department to continue and expand its outreach nationally and increase awareness of the Department's contracting opportunities.

For continued improvement, HUD submits the following corrective actions:

1. As part of HUD's work under Executive Order 13985, a Procurement Action Team in support of HUD's Equity Assessment Group has been established to identify strategies on expanding contracting opportunities to socially and economically disadvantaged and underutilized small business concerns; and
2. HUD is aware of remaining prior year de-obligations anticipated to be completed in FY 2021, and the FY 2021 small business goal was proactively negotiated with that consideration; and
3. Since most of the outstanding prior year de-obligations are within HUD's Office of Housing, the Office of the Chief Procurement Officer (OCPO) and the Office of Housing have formalized process improvements to ensure de-obligations operate seamlessly going forward; and
4. HUD OSDBU will continue to sponsor employee trainings on subcontracting, and on the small business programs to increase awareness and utilization of small businesses for HUD contracts; and
5. HUD OSDBU will continue to encourage other than small business prime contractors to post subcontracting opportunities to SBA's SUBNet; and
6. HUD OSDBU will continue to review subcontracting plans and reports for the maximum practicable opportunities for small business concerns; and
7. HUD OSDBU will continue to invite HUD's other than small business contractors to participate/exhibit at HUD sponsored events, such as IT Industry Day, as a means to increase the visibility of small businesses, WOSB, SDVOSB, and HUBZone concerns interested in subcontracting; and
8. HUD OSDBU will continue to publish the listing of prime contractors on the OSDBU website; and
9. HUD OSDBU will continue to convene vendor outreach and matchmaking events.

ENCLOSURE 19
U.S. Department of Agriculture
(USDA)

Unfortunately, the U.S. Department of Agriculture (USDA) did not meet its accomplishments of the SBA goal for Small Business and Service-Disable Veteran Owned Small Business (SDVOSB) goal. USDA also did not meet the SBA goal for subcontracting. We recognize the opportunities this provides small businesses that are endeavoring to build upon past performance and obtain a stronger foundation to providing solutions to government agencies.

As the Department focuses on meeting these goals we will continue to:

- Conduct outreach events that provide networking opportunities for businesses.
- As a necessity, OSDDBU will train Contracting Officers as it relates to small prime contractors.
- OSDDBU will establish an “Industry Day” geared toward Small and SDVOSB’s in doing business with USDA.
- Train agency personnel on applicable laws and policies relating to participation in Federal contracting.
- Reserving agency contracts exclusively for Small and SDVOSB’s
- Update the Clearance process to strengthen the procurement review process.

The areas the Department will focus on to expand the subcontracting opportunities with small business that are SDB, SDVOSB, WOSB and HUBZone’s will be to:

- Continue to work one-on-one with the CO’s to provide clarification as is deemed necessary as well as assist with the inputting and updating eSRS.
- Continue outreach events that provide networking opportunities for businesses.
- Disseminate information to SDB, SDVOSB, WOSB and HUBZone’s that would assist these businesses in participating in awards of agency contracts.

Corrective Actions to Address Unmet Fiscal Year 2020 Goals

In accordance with Subsection (h) of Section 15 of the Small Business Act (15 U.S.C. 644) the Social Security Administration (SSA) provides the following information.

A. The extent of participation by small business concerns, small business concerns owned and controlled by veterans (including service-disabled veterans (SDVOSB)), qualified HUBZone small business concerns, small business concerns owned and controlled by socially and disadvantaged individuals, and small business concerns owned and controlled by women in the procurement contracts of such agency during such fiscal year;

The tables below represent Small Business Administration (SBA) goals and our FY 2020 progress.

Fiscal Year (FY) 2020 Small Business Goaling Report for SSA

<u>Categories</u>	FY 2020 GOAL %	FY 2020 Achievements %	FY 2020 Dollars Obligated

Small Disadvantaged	5%	7.92%	\$171,745,965.71
Women-Owned	5%	5.99%	\$129,938,475.09
HUBZone	3%	1.02%	\$22,201,776.55
SDVOSB	3%	3.61%	\$78,173,480.43

FY 2020 Small Business Subcontracting Goaling Report for SSA

<u>Categories</u>	FY 2020 GOAL %	FY 2020 Achievements %	FY 2020 Dollars Obligated
Small Business	50%	49.9	\$154,584,526
Small Disadvantaged	5%	11.3%	\$34,919,342

HUBZone	3%	4.8%	\$14,818,567
SDVOSB	3%	4.1%	\$12,576,175

B. Whether the agency achieved the goals established for the agency under subsection (g)(2) with respect to the fiscal year;

As provided in the above tables, SSA met and exceeded our FY 2020 small business goal of 27 percent, our small disadvantaged goal of 5 percent, our Women-Owned goal of 5 percent, and our Service Disabled Veteran Owned Small Business (SDVOSB) goal of 3 percent. We did not meet our HUBZone goal of 3 percent. However, we did increase it from FY19 at .95% to 1.02%. Although SSA did not

exceed our FY 2020 small business-subcontracting goal of 50 percent, SSA did exceed all of the subcontracting goals in the other socio-economic categories.

C. Any justifications for a failure to achieve such goals;

In FY 2020, while we did not meet the 3 percent prime HUBZone goal, we note that we exceeded every other small business goal. Additionally, we increased our overall small business spend by \$125,367,417.28 (from 30.95% to 31.85 percent). We believe this illustrates our commitment to small business as well as the consideration of socio-economic achievement in every acquisition to the maximum extent practicable consistent with market research.

D. A remediation plan with proposed new practices to better meet such goals;

Action 1: The Office of Small and Disadvantaged Business Utilization (OSDBU) Director and the Head of the Contracting Activity will brief the Senior Executive Staff regularly on small business goal results, discuss acquisition strategies, and identify goaling areas for increased emphasis on HUBZone Small Business.

Action 2: The OSDBU Director will work closely with HUBZone contractors and the HUBZone Contractors National Council to promote small business contracting opportunities and to identify potential HUBZone sources for future small purchases and contracts. The OSDBU will collaborate with The Business Services Center and the United States Women’s Chamber of Commerce, who will identify potential HUBZone sources for future purchases and contracts. The Office of Acquisition and Grants (OAG) will review potential HUBZone sources for potential purchases and contracting opportunities.

Action 3: The OSDBU website provides a link to recent SSA headquarters contracting history on the [OAG](#) website, where interested vendors can search a database of OAG awards by vendor name, award description, or contract number. This provides interested vendors access to award information that includes vendor name, contract number, requirement description, award type, award date, obligation amount, and completion date.

Action 4: The Small and Disadvantaged Business Utilization Specialist (SADBUS) will provide training to its acquisition staff to explain the small business review process and the importance of conducting thorough market research to identify small business concerns. The SADBUS will emphasize the direct impact that market research has on achieving agency and statutory socio-economic goals.

Action 5: The OSDBU and SADBUS will continue to invite our large business prime contractors to attend our monthly vendor outreach sessions to facilitate interaction with potential small businesses. The OSDBU will continue to provide a list of the agency’s prime contractors on the aforementioned OAG website to promote opportunities to small businesses.

FISCAL YEAR 2020**

Prime Small Business Goal Achievement

In Fiscal Year (FY) 2020, the United States Agency for International Development (USAID) met its overall small business prime contract goal. The preliminary data indicates the Agency awarded 14.90 percent of its total contract obligations to small businesses. The Agency also exceeded the government-wide goal for the Small Disadvantaged Business Program; achieving 6.93 percent or \$429M and the Women-Owned Small Business (WOSB); achieving 5.69 percent or \$352M. The Agency continues to grapple with meeting the goals for Historically Underutilized Business Zones (HUBZone) and the Service-Disabled Veteran Owned (SDVOSB) small business programs. The following chart illustrates the USAID’s FY 2020 accomplishments:

USAID Small Business Prime Goals Versus Achievement

FY 2020 Total Small Business Eligible Prime Dollars			\$6,193,670,002
Contract Award Categories	Goals	Achieved	Expended
Small Business	12.00%	14.90%	\$923,118,882
Small Disadvantaged Business	5.00%	6.93%	\$429,093,346
Women-Owned	5.00%	5.69%	\$352,340,752
Historically Underutilized Business Zone	3.00%	0.66%	\$41,011,881
Service-Disabled Veteran-Owned	3.00%	0.48%	\$30,017,371

HUBZone Program Goal

HUBZone small business goals presented a challenge because of the nature of where we perform our work. However, the Agency increased contract dollar obligations in this program by 8 percent. Host country personnel are an integral part of how small businesses perform development work overseas and must be a part of the contractor’s labor mix. There are also a limited number of HUBzone firms that perform development work, and the COVID-19 pandemic exacerbated the difficulty of in-country staffing.

SDVOSB Program Goal

USAID did not meet its SDVOSB small business goal. However, the Agency increased contract dollar obligations to Service-Disabled Veteran owned small businesses by 10 percent despite the COVID-19 pandemic.

Subcontracting Small Business Goal Achievement

The subcontracting data provided by the U.S. Small Business Administration indicates USAID exceeded its FY 2020 subcontracting goal of 16 percent, the Agency obligated \$107.7M to small businesses which equates to 18.60 percent. In addition, USAID obligated \$32.2M to WOSBs which equates to 5.80 percent and \$16.4M to SDBs which equates to 3 percent.

The Agency is analyzing the reduction of subcontracting achievements for the past three fiscal years. We also continue to grapple with the challenges associated with identifying SDVOSBs and HUBZones capable of providing development services internationally, as they have traditionally been the lowest category achievements at USAID.

Conclusion

The expansion of the small business goaling program to include overseas contract awards has a significant impact on the ability of USAID to meet its small business goals. We continue to identify best practices to increase subcontracting achievements worldwide. Our FY 2020 prime contracting obligations represent an increase of approximately 14 percent from FY 2019.

FY 2020 Corrective Actions Report**

In fiscal year 2020, the U.S. Nuclear Regulatory Commission (NRC) exceeded all five of its small business prime¹ contracting goals but fell short in achieving its subcontracting² goals (see Enclosure 1). Therefore, this report will only discuss planned actions to improve subcontract goal performance for the five categories the agency failed to accomplish: small, disadvantaged, women, service-disabled veterans, and businesses located in Historically Underutilized Business Zones (HUBZones). In addition, the agency was cited as noncompliant in five areas noted in the fiscal year 2020 OSDBU Compliance Worksheet, which are discussed in detail herein.

PRIME CONTRACT GOALS

No actions are needed as all five goals were exceeded.

SUBCONTRACT GOALS

The agency fell short of achieving its small business, disadvantaged, women³, service-disabled veteran, and HUBZone small business subcontracting goals. Therefore, please find below a list of targeted actions to achieve the subcontracting goals next fiscal year.

A. Receive Subcontracting Credit for Federal Supply Schedule Orders

The NRC's Small Business Program initiated discussions with its contracting division to take the necessary steps to receive small business subcontracting credit for the agency's General Services Administration (GSA) Federal Supply Schedule (FSS) orders in accordance with revisions to the Federal Acquisition Regulation (FAR) that allows subcontracting credit to flow directly to ordering agencies. The Small Business Program is working with contracting officers to identify applicable GSA FSS orders where FAR clause 52.219-9(d)(10)(iii) can be incorporated via a modification to require GSA FSS prime contractors to submit annual subcontracting reports to the Electronic Subcontracting Reporting System. The impact is perceived to be significant as the agency's largest dollar value acquisition, a multiple award GSA FSS acquisition with a ceiling totaling \$679 million, requires its large business prime contractors to subcontract at least 40 percent of the total value of its awarded orders to small businesses and achieve all four of the subcategory goals.

¹ The agency more than quadrupled its small disadvantaged business goal and more than doubled its goal for service-disabled veterans, women, and companies located in Historically Underutilized Business Zones.

² It should be noted that subcontracting performance does not take into account subcontracting under the agency's Federal Supply Schedule acquisitions via recent changes to reporting in the electronic Subcontracting Reporting System, which is included as an action item for FY 2021.

³ The agency nearly met its WOSB goal of 5 percent by achieving 4.8 percent.

FY 2020 Corrective Actions Report**

B. Increase the Use of the Agency's Small Business Subcontracting Plan Evaluation Factor

The Small Business Program intends to increase both the use and enforcement of small business subcontracting goals. The Small Business Program created a small business subcontracting plan evaluation factor that incentivizes the use of small businesses as subcontractors under a pass/fail scored factor that is considered in source evaluation and selection. Once contract award is made, the proposed subcontracting goals become a material part of the contract and are required throughout contract performance. Moreover, prime contractors are advised that subcontracting plan performance and compliance is a factor contracting officers assess when performing and documenting official contractor past performance reporting.

To ensure that subcontracting plans maximize the use of this factor, the Small Business Program will continue to review small business subcontracting plans through formal small business subcontracting plan reviews. The Small Business Program also plans to collaborate with the agency's acquisition staff to identify projects that have historically provided the greatest amount of subcontract opportunities for small businesses to begin increasing the target goals, where possible. In addition, the Small Business Program plans to bolster enforcement of small business subcontracting goal achievement through tracking and monitoring measures. The Small Business Program will conduct annual audits of prime contractor performance and begin recording achievement of prime contractors in a tracking and monitor system under development.

C. Continue to Facilitate Prime Contractors' Good Faith Efforts to Increase Subcontracting Through Various Outreach Efforts

The Small Business Program actively assists agency prime contractors identify small business subcontractors through counseling sessions with potential subcontractors and outreach events located across the country. The NRC Small Business Program developed a web-based Small Business Toolbox, which includes a feature that connects small businesses with the agency's top prime contractors to explore subcontracting opportunities. This feature includes access to a publicly available copy of the agency's scope of work or list of requirements for various commodity categories of work (e.g., information technology, cybersecurity, and technical assistance/engineering), thereby establishing a mechanism for potential subcontractors to identify an area or task where their capabilities align with agency requirements in a supporting role.

The small business counseling sessions provided by Small Business Program staff include an analysis of available subcontract opportunities using the Small Business Toolbox to identify opportunities that match the capabilities and experience of the small business. Once a small business has completed its evaluation of subcontract opportunities at the agency, the toolbox feature also provides a point-of-contact for the

U.S. Nuclear Regulatory Commission FY 2020 Corrective Actions Report

top⁴ prime contract opportunities, which facilitates the introduction of capable and pre-vetted companies to prime contractors for consideration in a supporting role. The Small Business Program plans to expand and increase the number of top agency prime contracts that are included on the list through enhancements and updates to the Small Business Toolbox.

The NRC Small Business Program hosts and participates in outreach events to expand the agency's innovative and competitive supplier base and increase awareness of agency opportunities. Outreach activities included participation in events sponsored by Congress; Federal, State, and local Governments; and business organizations located across the country. Such conferences focus on increasing prime and subcontract opportunities with small businesses; companies located in a HUBZone; and businesses owned by women, the disadvantaged, and service-disabled veterans. The Small Business Program plans to continue its conference participation through speaking, conducting matchmaking sessions, and exhibiting to identify companies that have the capability and interest in supporting agency prime contractors. In addition, the Small Business Program plans to host a virtual event to educate the small business marketplace on best practices to successfully identify and secure subcontracting opportunities with agency prime contractors. Moreover, the Small Business Program also plans on informing prime contractors of upcoming outreach events using Small Business Toolbox's Calendar of Events resource, which is frequently updated, and through direct email communication with agency prime contractors.

OSDBU COMPLIANCE WORKSHEET

The agency was cited for noncompliance in five areas under Section 15(k) of the Small Business Act. The name of the office, reporting structure, the duties and official title of the director, and conversion activities were noted as areas where the agency failed to establish compliance. The specific questions listed in the FY 2020 OSDBU Compliance Worksheet that the NRC is not in compliance with are listed below.

- Does the federal agency with procurement powers have an office known as the "Office of Small and Disadvantaged Business Utilization"?
- Is the OSDBU Director responsible only to (including with respect to performance appraisals), and reports directly and exclusively to, the head of the agency or to the deputy of such head [except for the Office of the Secretary of Defense who shall be responsible (including with respect to performance appraisals), and reports directly and exclusively to, such Secretary or Secretary's designee]?
- Is the management of the Office of Small and Disadvantaged Business Utilization known as the "Director of Small and Disadvantaged Business Utilization" for such

federal agency (or, for the Department of Defense, Director of Office of Small Business Programs)?

- Does the OSDBU Director holds any other title, position, or responsibility, except as necessary to carry out responsibilities under this subsection?
- Does the OSDBU Director review and advise agency on any decision to convert an activity performed by a small business concern to an activity performed by a Federal employee?

The agency remains committed to evaluating areas where it fell short and exploring strategies to enhance or establish compliance. Regardless of the few areas the agency was deemed noncompliant, the Small Business Program remains dedicated to maximizing opportunities for small businesses to participate in the agency's acquisition program.

(C) any justifications for a failure to achieve such goals.

(D) a remediation plan with proposed new practices to better meet such goals, including analysis of factors leading to any failure to achieve such goals.

II. SMALL BUSINESS ADMINISTRATION

The U.S Small Business Administration Office of Financial Operations & Acquisition Management (OFOAM) Acquisition Division reports that it successfully met all set Prime socio-economic category goals for Fiscal Year (FY) 2020 as follows:

FY20 Prime Contracting Goals

- ✓ Agency FY20 Small Business Goal of 73%
- ✓ Small and Disadvantaged Business (SDB) Goal of 5%
- ✓ Women Owned Small Business (WOSB) Goal of 5%
- ✓ Service-Disabled Veteran-Owned Small Business (SDVOB) Goal of 3%
- ✓ Historically Underutilized Business Zone (HUBZone) Small Business Goal of 3%

Small business prime contractors received 80.2% of eligible prime contracting dollars in FY 2020. This includes 73.7% to SDB concerns and 10% to SDVOSB concerns.

The U.S Small Business Administration Office of Financial Operations & Acquisition Management (OFOAM) Acquisition Division reports the following for Sub-Contracting socio-economic category goals for Fiscal Year 2020:

FY20 Subcontracting Goals

- ✓ Agency FY20 Small Business Subcontracting Goal of 39%
- ✓ Small and Disadvantaged Business (SDB) Goal of 5%
- X Women Owned Small Business (WOSB) Goal of 5%
- X Service-Disabled Veteran-Owned Small Business (SDVOB) Goal of 3%
- X Historically Underutilized Business Zone (HUBZone) Small Business Goal of 3%

SBA achieved 92.5% for its small business subcontracting goal and 22.6% for SDB subcontracting. Both far exceed the established goals for FY 2020. SBA recognizes that it failed to meet its subcontracting goals for WOSB, SDVOSB and HUBZone concerns and intends to re-focus its efforts in reviewing solicitations that require the submission of a subcontracting plan to ensure agency goals in all categories are clearly communicated. Additionally, SBA intends to work with its prime contractors to increase WOSB, SDVOSB and HUBZone subcontracting participation and proper reporting into the electronic Subcontract Reporting System.

Corrective Actions to Address Small Business Goals Not Met During FY 2020

Data in the Federal Procurement Data System – Next Generation (FPDS-NG) as of February 22, 2021, show that the Department of Justice (DOJ) achieved the following results against its small business prime contracting goals.

Category	Goal	Accomplishment
Small Business	30.75%	32.71%
SDB	5.00%	14.76%
WOSB	5.00%	5.94%
SDVOSB	3.00%	6.15%
HUBZone	3.00%	2.19%

As shown above, DOJ exceeded its prime contracting goals for small businesses, small disadvantaged businesses, woman-owned small business, and service-disabled veteran-owned small business. Although DOJ did not meet its HUBZone goal of 3.00%, it did achieve 2.19% to HUBZone firms by awarding \$179 million to such firms. That total represents the second highest percentage of dollars to HUBZone firms in DOJ’s history. DOJ remains committed to ensuring that small businesses participate in our procurements to the maximum extent practicable. In an effort to achieve our unmet HUBZone goal, DOJ is taking the following steps during FY 2021:

- Clearly communicate the FY 2021 small business goals and the importance of meeting those goals
- Publish the FY 2021 DOJ Forecast of Contracting Opportunities on the DOJ OSDBU website
- If possible, host Vendor Outreach Sessions specifically for HUBZone firms, SDVOSBs, WOSBs/EDWOSBs, and 8(a) firms in an effort to encourage those businesses to pursue contracting opportunities at DOJ
- Conduct thorough market research to identify procurements that could be set aside for small businesses
- Use set aside authority when using multiple award contracts to drive achievement to small firms in the HUBZone category
- Maximize awards to small businesses under the simplified acquisition threshold
- Ensure that FAR 19.203(c) is followed by reviewing contract actions greater than the simplified acquisition threshold
- Consult and collaborate with SBA’s HUBZone Empowerment Contracting Program Office when appropriate to identify HUBZone opportunities when appropriate

Data in the Electronic Subcontracting Reporting System (eSRS) as of April 15, 2021, show that DOJ achieved the following small business subcontracting accomplishments in FY 2020.

- Publish the small business subcontracting goals and accomplishments on the DOJ OSDBU website
- Ensure that contracting officers stress the importance of subcontracting plan compliance in all small business categories with DOJ’s large prime contractors with particular focus on the small business goals not met
- Ensure that all DOJ prime contractors are submitting reports to eSRS as required
- Ensure that contracting officers are using the Individual Subcontracting Reports (ISRs) in the (eSRS) to monitor contract specific small business subcontracting accomplishments
- Review subcontracting plans for contracts greater than \$700,000 to other than small businesses to ensure that proposed small business subcontracting plans meet DOJ’s small business subcontracting goals
- Ensure that SBA’s PCR has an opportunity to review proposed subcontracting plans and provide input
- Conduct training to DOJ’s acquisition staff regarding pre-award and post award subcontracting responsibilities
- Where appropriate, make small business subcontracting an evaluation factor contract award
- Where appropriate, make Small Business Participation Plan an evaluation factor for award providing a higher score for comprehensive socioeconomic small business participation
