Comments:**Graded Agency:**

DOE is not contesting its scorecard grade of "B." However, we wish to explain DOE's inability to achieve its assigned prime socio-economic goals. DOE's under achievement of these goals is due to its business model favoring subcontracts over prime contracts.

The Department's business model requires DOE to obligate approximately 85% of its total procurement dollars to its Facility Management Contractors, which includes the national laboratories. Consequently, when retaining only 15% of the procurement base, it is highly improbable that DOE can attain the statutory limits of the socio-economic goals.

SBA:

The Department of Energy (DOE) met 1 of its 5 prime contracting goals: Small Business. However, it did not meet its prime contracting goals for Women Owned Small Business, Small Disadvantaged Business, Service-Disabled Veteran Owned Small Business and HUBZone.

Fiscal year 2010 prime contracting achievement saw increases over FY2009 in Small Business, Women Owned Small Business, Small Disadvantaged Business and HUBZone. DOE FY2010 achievement declined for Service-Disabled Veteran Owned Small Business.

DOE regularly attends Small Business Procurement Advisory Council meetings.
