Graded Agency:

In Fiscal Year 2016, the U.S. General Services Administration (GSA) made it an agency-wide priority to meet and exceed its small business contracting goals while at the same time supporting customer agencies' achievement of their small business goals. GSA's commitment to small business utilization is demonstrated from the highest levels of the agency and throughout all business lines and support organizations as evidenced by the socio-economic goal achievements. GSA implemented the "Making It Easier" initiative to offer a more efficient and straightforward process for small business and companies new to the federal market. GSA also launched the GSA Forecast Tool, a GSA-engineered product, to make it easier for small business vendors to find potential contracting opportunities with the Federal Government. GSA expanded its vendor training to include virtual training and collaborations with SBA and other advocacy groups. GSA attended approximately 300 events advocating for small business throughout the country. GSA also redesigned its website so that the information small businesses need is easily located. During the reporting period, GSA met its small business subcontracting goal and increased subcontracting dollars awarded to Service Disabled Veteran-owned Small Businesses. GSA is looking forward to another year of continued success.
