**Comments:****Graded Agency:**

Management and Operating Subcontract Reporting Capability (MOSRC): The U.S. Department of Energy's (DOE) prime contracting performance includes the Department's Management & Operations first-tier subcontracts, pursuant to 15 USC 644(g)(3), to the extent DOE publicly provided information on small business subcontractors, including the names and claimed size or socioeconomic status. Any first-tier subcontracts counted towards DOE's prime contracting goals were not counted towards DOE's subcontracting goals. Please see information below for DOE's FY15 Scorecard results, published prior to the inclusion of Management & Operations first-tier subcontracts.

**FY17 Socioeconomic Subcategories:**

The DOE OSDBU 2018-2021 Strategic Plan includes three major objectives:

- Making it easier for small businesses to do business with the Department of Energy
- Forging more productive relationships with internal small business stakeholders
- Achieving the socioeconomic goals set by the Small Business Administration

In addition to the major strategic plan objective in support of achieving the socioeconomic goals, DOE will co-host three major HUBZone Outreach events, and is planning to co-host additional SDVOSB events in FY18 and FY19 to increase our engagement with these underrepresented business populations, and further advance toward our socioeconomic small business utilization goals.

**U.S. Department of Energy (DOE) additional Contributions to Small Businesses:**
