

Program Overview

The Small Business Investment Company (SBIC) Program, administered by the U.S. Small Business Administration (SBA), is a multi-billion investment program created in 1958 to bridge the gap between entrepreneurs' need for capital and traditional sources of financing.

The SBIC Public-Private Partnership at Work

The SBIC Program harnesses the talent of professional investment fund managers to identify and finance promising small businesses. Qualified fund managers that complete the SBIC Program's rigorous application process are granted a license to operate their fund as an SBIC.

SBIC PROGRAM QUICK FACTS
From FY2014 through FY2018:
• Over \$27 billion in financing was invested in small businesses
• Over 5,641 businesses received investments
• In 2018, 27% of the small businesses financed were located in competitive opportunity gaps...

For every \$1 the fund raises from investors, SBA will commit up to \$2 of debt, subject to a cap of \$175 million. The SBIC manager can then assemble a portfolio of long-term investments in American small businesses. When the investments are realized and the fund begins to wind-down, the SBIC will repay its SBA-guaranteed debt and share the profits from its investments with the private investors that backed the fund.

Meeting the Needs of the Capital Market

Most applicants to the SBIC Program seek a Standard License, which accommodates a wide range of investment strategies.

Competitive Returns

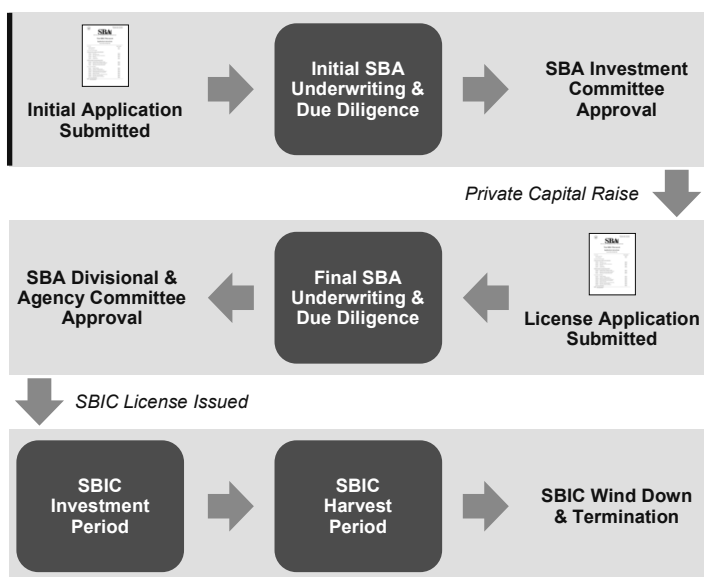

For more than a decade, SBICs have delivered returns to their investors that are in line with those available from other private equity funds in the market. Since 1998, SBICs that benchmark in the top half of private equity have delivered a 5 to 10 point boost in the IRR delivered to LPs as a result of SBA leverage.

Benefits Beyond the Potential for Enhanced Returns

- **Rapid Deployment of Funds:** SBA leverage can help shorten the fundraising cycle, allowing managers to begin investing quickly.
- **Exemption from the Volcker Rule:** Bank investments in SBICs are exempt from the 3% cap set forth by the “Volcker Rule” under the Dodd-Frank Wall Street Reform and Consumer Protection Act (PL-111-203).
- **Community Reinvestment Act (CRA):** Bank investments in SBICs are presumed qualified for CRA credit.
- **Flexible Terms:** With a long duration and no prepayment penalty, SBA leverage is compatible with most investment maturities.
- **Flexible Fund Structure:** SBICs may utilize a variety of fund structures, including “drop-down” and “side-car” structures.

Rigorous Underwriting Criteria

To be considered for an SBIC license, applicants must demonstrate the same key qualifications sought by private investors:

- **Manager Assessment**
A cohesive team of individuals with strong reputations and years of investment experience.
- **Performance Analysis**
A high quality track record of analogous investments that have yielded strong returns and successful exits.
- **Strategy Evaluation**
A well-articulated investment strategy that is compatible with leverage and which targets small businesses.
- **Fund Structure & Economics:**
Sufficient fund infrastructure to support the strategy and a strong alignment of incentives between the fund’s general partner, limited partners and SBA.
