SBA Financial Assistance Programs

Financing programs provided by SBA vary according to a borrower’s financial needs. SBA loans are made by private lenders and are guaranteed up to 85%. Contact your lender or local SBA office for details.

Government Contracting

The federal government is the largest buyer in the world and small businesses are often at a disadvantage when trying to win federal contracts, but the SBA can help overcome the barriers. Working closely with federal agencies and the nation’s leading large contractors, SBA works to ensure that small businesses obtain a fair share of government contracts and subcontracts.

Minority Business Development – 8(a) Program

SBA’s Section 8(a) Program is intended for business development purposes to help socially and economically disadvantaged business owners gain equal access to the resources necessary to develop their business and, thereby, improve their ability to compete on an equal basis in the mainstream of the American economy.
