It is my honor to serve as Administrator of the U.S. Small Business Administration, leading a dedicated team of talented individuals across America who are focused on helping entrepreneurs start, grow, and expand their small businesses. The SBA is here to support the prosperity and longevity of our nation’s small businesses with timely and innovative resources to help them thrive in today’s economy. America’s entrepreneurs are innovators, risk-takers, and the catalyst for employment opportunities within their communities, and they are what makes our economy so strong and dynamic.

As we enter a new decade of possibilities, small businesses have a remarkable opportunity to continue building upon the success we’ve seen in our economy over the last three years. As the voice for America’s 30 million small businesses, I am eager to advocate on entrepreneurs’ behalf as a member of the President’s Cabinet. Whether it’s seeking access to capital, government contracting opportunities, business mentoring, or assistance with disaster recovery, the SBA is ready and determined to help our customers succeed.

The SBA remains committed to continuing our support of America’s entrepreneurs and making an even bigger impact in communities across the country. In particular, the SBA is focused on elevating female entrepreneurs and our military veterans, expanding access to SBA resources among entrepreneurs in disadvantaged communities, and continuing to prioritize disaster relief.

Within this resource guide, you will learn more about the tremendous tools the SBA provides small businesses through our 68 District Offices and numerous Resource Partners, such as our Small Business Development Centers, our SCORE mentoring network, Women’s Business Centers, and Veterans Business Outreach Centers. Featured in this guide are some of the remarkable success stories of entrepreneurs who partnered with the SBA to take their businesses to the next level. The SBA encourages you to also utilize these resources to help strengthen and meet your business goals.

Sincerely,

Jovita Carranza
SBA Administrator
Small business is no small task.

It’s an exciting time in the Centennial State: growth continues and Colorado products and services are in demand. Our state ranks near the top in the country for economic and employment growth. Colorado is the perfect place to set up your new business, grow or expand your existing one. As the nation’s first stop for small business assistance, the SBA helps make the American dream of small business ownership a reality. We are the only federal agency dedicated to helping our 30 million small businesses start, grow, expand, or recover after a disaster. This guide points you to many local resources and partners that will help you navigate each stage of small business development, powering your small business dreams.

We often hear the small businesses are the engines that drive our nation’s economy. In Colorado you can say small business is actually big business, since 99.5% of all our companies are designated as small, employing nearly half of all Coloradans. Small businesses make all of Colorado’s nearly 270 towns and cities great places to live, work, and play. Colorado has such a high rate of new business formation, especially from women, veteran, and minority-owned firms, for many great reasons but namely our spirit of entrepreneurship. We have an entrepreneurial culture and a population of risk takers, as well as a climate that supports new businesses and diverse industries, especially within disadvantaged communities.

Stay up to date on SBA events near you and get valuable local business information by following us @SBA_Colorado. Register for email updates at sba.gov/updates. Use our Small Business Resource Guide to power your dream of starting, growing, or expanding your small business in Colorado. Our community continues its recovery from the health, social, emotional and economic effects of the Coronavirus pandemic, we hope you know you can continue to count on SBA for small business assistance. We’re in this together.

Sincerely,

Frances Padilla
District Director
LOCAL BUSINESS ASSISTANCE

How I Did It

Rick Schmidt
Tipping Point Solutions
Colorado
Rick Schmidt has always been on a mission to make things better. Whether it was during his extensive career as a Naval Information Warfare officer or starting Tipping Point Solutions (TPS), his goal has been the same—to exercise a disciplined approach to solving organization’s greatest challenges. In the case of TPS, that focus has been on providing training solutions that address the needs of organizations backed with a quantifiable return on investment. And together with the SBA’s assistance and being named Colorado’s 2019 Small Business Person of the Year, Rick’s vision has blossomed.

In 2008, Rick retired from the U.S. Navy as a service-disabled veteran after 20 years of service. In his last position as Director of Training for the Navy’s Center for Information Dominance, his focus was developing the nation’s next generation of information warfare specialists. That’s when it dawned on him—the training industry was sorely lacking in quality content that could provide entities with truly impactful data.

So in 2011, Rick started Tipping Point Solutions. The aim of TPS was to create a training development firm specializing in the creation of highly-effective and engaging classroom, computer-based and mobile training solutions, delivering impactful results. And quickly, the need was apparent: the company’s first years saw sales growth of 42, 17, and 29 percent consecutively through 2014.

What challenge did you have?
Any business owner looks for opportunities to differentiate themselves from the competition, and Tipping Point Solutions is no different. I looked for ways to become more competitive for defense and governmental contracts, which meant seeking out opportunities to serve as a sub-contractor. I knew about the 8(a) program but never considered myself eligible as I don’t present many of the typical indicators that would qualify. Early on, through conversations with contracting officers, it would come up that I was Native American. Over time, they encouraged me to review the program and that’s when I made the decision to apply.

What was the solution?
Joining the 8(a) program for sure. I knew that being an 8(a) participant would encourage large businesses to be more inclined to work with me. There are a lot of things that make us great from a sub-contracting standpoint. When I looked at all that, it would have been foolish to not consider the program. In business, you have to play the cards you’re dealt as it’s hard to be a business owner in any industry. So it’s important to take advantage of any opportunity. As a disabled veteran and a Native American, the 8(a) program opened up opportunities for my company and my employees.

What was the benefit?
Where to start? Revenue increases, business expansion, and increasing our workforce. Since joining the 8(a) program, we’ve had more than 445 percent growth. In the past three years, from 2017 onward, we’ve gone from 12 employees to having 80. This has resulted in $10 to $12 million in annual revenues. Tipping Point wouldn’t be where it is today without the 8(a) business development program.
SBA Resource Partners

No matter your industry, location, or experience, if you have a dream, the SBA is here to help you achieve it. Our SBA Resource Partners offer mentoring, counseling, and training to help you startup and thrive at all stages of the business life cycle. These independent organizations operating across the United States and U.S. territories are funded through SBA cooperative agreements or grants.

SMALL BUSINESS DEVELOPMENT CENTERS

Achieve your dream of business ownership and remain competitive in an ever-changing global economy with assistance from your local SBDC. Access free counseling and free or low-cost training on topics like regulatory compliance, technology development, and international trade. Find an SBDC adviser at sba.gov/sbdc.

SCORE

Join the ranks of other business owners who have experienced higher revenues and increased growth thanks to SCORE, the nation’s largest network of volunteer business mentors. Experienced executives share real-world knowledge to fit your busy schedule. SCORE mentors are available for free as often as you need, in person, via email or over video chat. Find a mentor at sba.gov/score.

WOMEN’S BUSINESS CENTERS

Women entrepreneurs receive business counseling and training from this national network of community-based centers. Each center tailors its services to help you navigate the challenges women often face when starting or growing a business. To learn about SBA resources for women visit sba.gov/women.

VETERANS BUSINESS OUTREACH CENTERS

Veteran and military entrepreneurs receive business training, counseling, and referrals to other SBA Resource Partners at a Veterans Business Outreach Center, sba.gov/vboc. Receive procurement guidance to better compete for government contracts. VBOCs also serve active duty service members, National Guard or Reserve members, veterans of any era, and military spouses.

How to Start a Business in Colorado
Thinking of starting a business? Here are the nuts & bolts.

The Startup Logistics
Even if you’re running a home-based business, you will have to comply with many local, state, and federal regulations. Do not ignore regulatory details. You may avoid some red tape in the beginning, but your lack of compliance could become an obstacle as your business grows. Taking the time to research regulations is as important as knowing your market. Being out of compliance could leave you unprotected legally, lead to expensive penalties, and jeopardize your business.

Market Research
View consumer and business data for your area using the Census Business Builder: Small Business Edition, https://cbb.census.gov/sbe. Filter your search by business type and location to view data on your potential customers, including consumer spending, and a summary of existing businesses, available as a map and a report.

Business License & Zoning
Licenses are typically administered by a variety of state and local departments. It is important to consider zoning regulations when choosing a site for your business. Contact the local business license office where you plan to locate your business. You may not be permitted to conduct business out of your home or engage in industrial activity in a retail district.

Name Registration
Register your business name with the county clerk where your business is located. If you’re a corporation, also register with the state at sos.state.co.us.

Taxes
As a business owner, you should know your federal tax responsibilities and make business decisions to comply with tax requirements. The IRS Small Business and Self-Employed Tax Center, irs.gov/businesses/small-businesses-self-employed, includes information on paying and filing income tax and finding an Employer ID Number.

    As the IRS continues to implement some of the Tax Cuts and Jobs Act provisions, your tax obligations may change. For the latest tax reform updates that affect your bottom line, visit irs.gov/tax-reform.
LOCAL BUSINESS ASSISTANCE

An O’Fallon Casting Inc. employee at work in O’Fallon, MO. General Manager Vince Gimeno grew his business thanks to the Small Business Innovation Research Program.

Many cities and counties levy local sales tax. The Colorado Department of Revenue collects taxes for 214 of these local governments. There are also 59 home rule entities that collect their own tax.

Social Security
If you have any employees, including officers of a corporation but not the sole proprietor or partners, you must make periodic payments, and/or file quarterly reports about payroll taxes and other mandatory deductions. You can contact the IRS or the Social Security Administration for information, assistance, and forms at (800) 772-1213 or visit socialsecurity.gov/employer. You can file W-2s online or verify job seekers through the Social Security Number Verification Service.

Employment Eligibility Verification
The Federal Immigration Reform and Control Act of 1986 requires employers to verify employment eligibility of new employees. The law obligates an employer to process Employment Eligibility Verification Form I-9. The U.S. Citizenship and Immigration Service offers information and assistance through uscis.gov/i-9-central. For forms, see uscis.gov/forms. For the employer hotline call (888) 464-4218 or email I-9central@dhs.gov.

E-Verify is the quickest way for employers to determine the employment eligibility of new hires by verifying the Social Security number and employment eligibility information reported on Form I-9. Visit e-verify.gov, call (888) 464-4218 or email e-verify@dhs.gov.

Health & Safety
All businesses with employees are required to comply with state and federal regulations regarding the protection of employees, visit employer.gov and dol.gov. The Occupational Safety and Health Administration provides information on the specific health and safety standards used by the U.S. Department of Labor. Call (800) 321-6742 or visit osha.gov.

» U.S. Department of Labor

(303) 318-8000
colorado.gov/pacific/cdle

» Workers’ Compensation
colorado.gov/pacific/cdle/dwc
Employee Insurance
Check your state laws to see if you are required to provide unemployment or workers’ compensation insurance for your employees. For health insurance options, call the Small Business Health Options program at (800) 706-7893 or visit healthcare.gov/small-businesses/employers.

Association Health Plans allow small businesses, including self-employed workers, to band together by geography or industry to obtain healthcare coverage as if they were a single large employer. For information, visit dol.gov/general/topic/association-health-plans.

Environmental Regulations
State assistance is available for small businesses that must comply with environmental regulations under the Clean Air Act. State Small Business Environmental Assistance programs provide free and confidential assistance to help small business owners understand and comply with environmental regulations and permitting requirements. These state programs can help businesses reduce emissions at the source, often reducing regulatory burden and saving you money. To learn more about these free services visit nationalsbeap.org/states/list.

» Environmental Protection Agency
Small Business Division
epa.gov/resources-small-businesses

» Colorado Department of Public Health and Environment
4300 Cherry Creek Drive S., Denver (303) 692-2000

colorado.gov/agmain

Accessibility & ADA Compliance
For assistance with the Americans with Disabilities Act, call the ADA center at (800) 949-4232 or the Department of Justice at (800) 514-0301. Direct questions about accessible design and the ADA standards to the U.S. Access Board at (800) 872-2253, TTY (800) 993-2822, ta@access-board.gov or visit access-board.gov.

Child Support
Employers are essential to the success of the child support program and collect 75% of support nationwide through payroll deductions. You’re required to report all new and rehired employees to the State Directory of New Hires. If you have employees in two or more states, you may register with the Department of Health and Human Services to report all your employees to one state. Find electronic withholding orders and the Child Support Portal, which can be used to report information to nearly all child support agencies, at acf.hhs.gov/programs/css/employers. Send questions to employerservices@acf.hhs.gov.

Intellectual Property
Patents, trademarks, and copyrights are types of intellectual property that serve to protect creations and innovations. For information and resources about U.S. patents and federally registered trademarks consult uspto.gov, call (800) 786-9199 or visit the Rocky Mountain Regional Office in Denver, uspto.gov/denver For inventor entrepreneur resources visit uspto.gov/inventors.

There are three types of patents:
• Utility patents may be granted to anyone who invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement.
• Design patents may be granted to anyone who invents a new, original, and ornamental design for a manufactured article.
• Plant patents may be granted to anyone who invents or discovers and asexually reproduces any distinct and new variety of plant, other than a tuber propagated plant or a plant found in an uncultivated state.

A trademark or service mark includes any word, name, symbol, device, or any combination, used to identify and distinguish the goods/services of one provider from others. Trademarks and service marks can be registered at both the state and federal level. The U.S. Patent and Trademark Office only registers federal trademarks and service marks, which may conflict with and supersede state trademarks. Visit uspto.gov/trademarks.

Chambers of Commerce
To find your local chamber of commerce for networking and events opportunities, visit cochamber.com.
Advocacy
When you need a voice within the federal government for your interests as a small business owner, SBA advocates are here to assist. They analyze the effects of proposed regulations and consider alternatives that minimize the economic burden on small businesses, governmental jurisdictions, and nonprofits.

The office, advocacy.sba.gov, helps with these small business issues:

» if your business could be negatively affected by regulations proposed by the government
» when you need economic and small business statistics

The SBA Office of Advocacy also independently represents small business and advances its concerns before Congress, the White House, and federal agencies.

Ombudsman
Entrepreneurs who have an issue with an existing federal regulation or policy receive assistance from the SBA national ombudsman.

The ombudsman’s office helps you:

» resolve regulatory disputes with federal agencies
» reduce unfair penalties and fines
» seek remedies when rules are inconsistently applied
» recover payment for services done by government contractors

Make your voice heard by participating in a Regional Regulatory Enforcement Fairness Roundtable or a public hearing hosted by the SBA national ombudsman. These events are posted periodically on the ombudsman website, sba.gov/ombudsman.

To report how a proposed federal regulation could unfairly affect you, contact advocacy.sba.gov.

To submit a comment about how your business has been hurt by an existing regulation, visit sba.gov/ombudsman/comments.

To submit a comment or complaint through the online form, visit sba.gov/ombudsman/comments. Your concerns will be directed to the appropriate federal agency for review. The SBA will collaborate with you and the agency to help resolve the issue.
Entrepreneurial Resources

Regional Innovation Clusters
Create jobs and grow the economy through an SBA Regional Innovation Cluster.

Who should join
Small businesses driving innovation in one of these tech industries:
- advanced composites
- agTech
- bioscience
- food processing
- data sciences
- medical sciences
- power and energy
- unmanned aerial systems
- water tech
- wood products

How it works
Each industry cluster is based in a geographic region. Your small business must be located in or near that region in order to join the cluster. For example, the AgLaunch Initiative cluster, which focuses on agricultural technology, is located in the Tennessee area. A small agTech business in or near Tennessee will connect with other agTech suppliers, service providers, and related institutions through that innovation cluster.

How it benefits you
Network with other industry innovators and connect with resources that will help your small business find funding. You’ll also receive guidance on how to better compete for government contracts and other opportunities for growth and expansion. Receive free technical and legal assistance to develop your tech and get it to market for government and industry buyers.

Get involved
Find an SBA Regional Innovation Cluster near you by visiting sba.gov/localassistance. Select the regional innovation clusters on the drop-down menu.

Online Learning
Find free short courses and learning tools to start and grow your small business at sba.gov/learning. The SBA’s free Online Learning Center is a great resource for every entrepreneur, especially rural business owners looking for easy access to vital business training.

Courses include:
- writing your business plan
- understanding your customer
- buying a business
- marketing to win customers
- legal requirements
- financing options
- disaster recovery

Native American Workshops
Tribal enterprises and business organizations can receive entrepreneurial training at an SBA Entrepreneurial Empowerment Workshop. These workshops cover business concepts important for starting, growing, or expanding a small business. RedWind instructors, SBA contractors, identify and help participants avoid common pitfalls. Learn how to prepare a business plan, gain access to capital, and basic book keeping. Request a workshop in your area by visiting nativesmallbusiness.org.
When April Broderick wanted to expand into government contracting, she turned to the SBA. A&A Fire and Safety Co. in Cabot, AR serves the fire protection and service needs of businesses, schools, and fire departments across Arkansas. She took over from her father, Alan, in 2014, becoming one of the few women executives in her industry. With the help of the SBA Emerging Leaders program, April received business training and networking opportunities to help her better compete in the public marketplace. April committed to the program because she wanted to develop a three-year growth plan with business experts. Since graduating from Emerging Leaders, she has grown her business to six full-time employees, seven part time, with a projected 2019 revenue of $1.7 million.
10 Tips to Help You Build and Grow a Stand-Out Small Business Brand

Build a better business with these time-tested tips.

The United States loves small businesses. That’s according to a survey by the Pew Foundation reported by Small Business Trends, smallbiztrends.com, which found that 71% of Americans view small business more favorably than any other institutions, including religious organizations.

Why is this? Well, small businesses are seen as a positive influence. But it’s more than that.

Small businesses are in a unique position to create valuable customer experiences. Their products and services are often niche, the target customer is very defined. Business operations are agile and unconstrained by corporate rules and processes. Small businesses are also trusted for their integrity, community engagement, and customer service. When was the last time you called a small business and got put through to an automated call center? These things come together to create a hugely competitive value proposition, the linchpin of your brand.

But what can you do to leverage these experiences and grow the appeal of your brand without breaking the bank?
1. What is Your Brand?
It’s important to understand that your brand is much more than your logo, merchandising or products. It is all the experiences customers have with your business, including the visual elements of your business. It also includes what you do, how you do it, customer interactions, and your marketing. All of these elements help establish the trust and credibility of your business.

2. Stand Out
If your brand is going to be strong, you need to be able to pinpoint what makes you different from competitors. A SCORE mentor, sba.gov/score, can help you use competitive differentiators to build your business brand. Don’t forget to weave your differentiators into your company’s messaging and marketing.

3. Have Great Products and Services
Word of mouth is often a small business’s greatest lead generator, so having great products and services that people talk about is a critical part of your brand. Even the most outgoing and charming small business owner is not going to succeed in bringing customers back unless the product or service they provide delivers and exceeds expectations. Don’t lose sight of your product, keep refining it, testing new offerings, and making sure you always put product first.

4. Make Sure Your Customers Know the Face Behind the Product
One of the biggest reasons that small businesses fail is because of the persistent absence of the business owner. You only need to look at a few episodes of business makeover TV shows to witness what can go wrong when a business is left to run itself. Without an actively engaged owner, employees lose motivation and structure, which can quickly lead to sloppy service, a poor product, and customer churn. Yes, your business needs to be able to function without your constant presence, but it’s important to strike a balance. Find ways to make sure your customers know you and connect with the face behind the business. Businesses thrive when the energy of the owner is present.

5. Get Your Name and Logo Right
It’s important to get this right the first time because changing your name and logo later can be costly. Your logo and name should be easily recognizable and reflect the nature and tone of your business as well as appeal to your target market. I’m a dog owner, and two of my absolute favorite small businesses cater to pet owners: my local provider of dog walking services and a healthful pet food store. When I see their logos, it makes me feel good; I feel an affinity with them. That’s what you need to shoot for.

6. Have a Distinct Voice
A great way to ensure your distinct brand message is delivered consistently across your business is to focus on how you and your employees interact and communicate with customers in person, on the phone, and on social media. Not sure what your “voice” should be? Look to other brands. What do they do that you’d like to emulate? How do they greet and interact with you? What is it they do that makes you feel good about doing business with them?

7. Build Community Around What You Do
A successful brand is one trusted and respected by customers. Building a strong community online and offline can help you achieve this. You don’t have to spend a lot of money to do this. In fact, many successful brands concentrate almost exclusively in online and offline community building. Offline participation in community activities, such as local events, fundraisers, and charities, as well as hosting your own events, such as workshops or loyal customer events, can all help you build community and extend the trust your brand has earned.

8. Be an Advocate for Your Business—Not Just a Salesman
You don’t have to be the greatest salesman to succeed in business. Selling takes many forms, and being a brand advocate gets them. For example, many small business owners strive to be the number one salesman, the number one cheerleader, and the number one fan of their own business. If you are passionate about your business, be an advocate for it. Invite people in!

9. Be Reliable
Letting your customers down by failing to live up to your own promises and brand standards can be particularly harmful for small businesses that depend heavily on referrals. The foundation of brand loyalty lies in great service; a happy customer is a loyal customer. Make sure you aren’t making promises that you can’t keep, whether you run a pizza business and pledge to deliver within 30 minutes, or you’re a painting contractor who promises to start a job on a Monday at 9 a.m. sharp. Stand by your promises.

10. Have a Value Proposition
Value, not to be mistaken with price, can help define your brand and differentiate you from the competition. This goes back to my second point about standing out. What niche do you serve? What do you do well in that niche that makes you different from everyone else? What are the emotional benefits of what you do? The answers to these questions will help define what your value is to your customers. It could be your great customer service, product quality, innovation, or a combination of these.

WRITTEN BY Caron Beesley, CONTRIBUTOR
Entrepreneurship training
In Boots to Business, explore business ownership and other self-employment opportunities while learning key business concepts. Walk away with an overview of entrepreneurship and applicable business ownership fundamentals, including how to access startup capital using SBA resources. Boots to Business is conducted on all military installations as part of the Department of Defense’s Transition Assistance Program.

Who’s eligible?
Service members transitioning out of active duty and military spouses. Boots to Business: Reboot, for veterans, National Guard or Reserve members and military spouses, teaches this entrepreneurship curriculum off base in communities. Register for either B2B program at https://sbavets.force.com.

For women veterans
Receive entrepreneurial training geared toward women veterans, service members, and spouses through these SBA-funded programs:
» Veteran Women Igniting the Spirit of Entrepreneurship in Syracuse, New York

Opportunities for Veterans
Military community members become more successful entrepreneurs with the help of the SBA.

AVMAC President/CEO Bert Ortiz, left, and fellow U.S. Navy veteran and electrician Ken Morey manufacturing a power panel bracket.

HOW THE SBA HELPED ME SUCCEED
U.S. Navy veteran Roberto Ortiz puts his 40 years of aviation management experience to use as a small business owner in Chesapeake, VA. Bert expanded AVMAC Inc. into the government sector fulfilling aviation and maritime logistical services with the help of his local SBA Veterans Business Outreach Center. VBOCs are the first stop for military community entrepreneurs looking to start, grow, or expand a small business. The VBOC located at Old Dominion University helped Bert obtain government contracting business certifications. With support from his local VBOC, Bert has strategically positioned AVMAC in the federal marketplace to better compete for large-scale government contracts. From AVMAC’s first contract in 2010, this veteran-led company has nearly doubled in revenue and grown to over 400 employees.
Veterans Entrepreneurship Program at the Riata Center for Entrepreneurship, Spears School of Business, Oklahoma State University in Stillwater, Oklahoma

Veteran Entrepreneurship Jumpstart at St. Joseph’s University in Philadelphia, Pennsylvania

Dog Tag Inc., affiliated with Georgetown University in Washington, DC

Financing
Employee called to active duty?
You can receive funds that enable your business to meet ordinary and necessary operating expenses when an essential employee is called up to active duty in the military reserve. Ask your local SBA specialist or lender about the Military Reservist Economic Injury Disaster Loan.

Government contracting
Veteran-owned and service-disabled veteran-owned small businesses that want to better compete in the public market receive training from the Veteran Institute for Procurement, nationalvip.org.

VIP Start
Enter the federal market and become ready for procurement.

VIP Grow
Strategize to expand and operate within the federal marketplace.

VIP International
Enter or expand your federal and commercial contracting opportunities overseas.

Get certified
Learn about the service-disabled veteran-owned small business certification program on page 49.

Need assistance?
Veteran and military entrepreneurs receive business training, counseling, and referrals to other SBA Resource Partners at a Veterans Business Outreach Center, sba.gov/vboc. For veterans business information visit sba.gov/veterans.
Write your Business Plan

Lay the foundation for success with a business plan.

TRADITIONAL BUSINESS PLAN FORMAT

When you write your business plan, you don’t have to stick to the exact business plan template. Instead, use the sections that make the most sense for your business and your needs.

Executive Summary
Briefly summarize your company and why it will be successful. Include your mission statement, your product or service, and basic information about your company’s leadership team, employees, and location. You should also include financial information and high-level growth plans if you plan to ask for financing.

Company Description
Go into detail about the problems your business solves. Be specific as to audience and location. List out the consumers, organizations, or businesses your company plans to serve.

Explain the competitive advantages you have that will make your business successful. Are there experts on your team? Have you found the perfect location? Your company description is the place to boast about your strengths.

Market Analysis
Demonstrate a solid understanding of your industry outlook and target market. This is where it pays to partner with an experienced business counselor from your local Small Business Development Center, SCORE, Women’s Business Center, or Veterans Business Outreach Center—all these SBA Resource Partners provide free or low-cost business assistance. Competitive research will show what other businesses are doing and their strengths. In your market research, look for trends and themes. What do successful competitors do? Why does it work? Can you do it better? Now’s the time to answer these questions.

Organization and Management
Explain how your company will be structured and who will run it.

Describe the legal structure of your business. State whether you have or intend to incorporate your business as a C or an S corporation, form a general or limited partnership, or if you’re a sole proprietor or limited liability company.

Business plans help you run your business.
A good business plan guides you through managing your business. You’ll use your business plan as a roadmap for how to structure, run, and grow your new business.

Business plans can help you get funding or bring on new business partners. Investors want to see a return on their investment. Your business plan is the tool you’ll use to convince people that working with you—or investing in your company—is a smart investment. Brainstorm with a business counselor (visit one of our SBA Resource Partners detailed on page 10) and write a traditional business plan, which uses a standard structure and detailed sections. Once you’ve got it all down, you can then condense it to a lean startup business plan, which typically contains key points on only one page.

Want to see an example of a business plan?
View examples of business plans at sba.gov/business-guide/plan/write-your-business-plan-template
LOCAL BUSINESS ASSISTANCE

Use an organizational chart to show the hierarchy. Explain how each person’s experience will contribute to the success of your venture. Consider including CVs of key members.

Service or Product Line
Describe what you sell or what service you offer. Explain how it benefits your customers and the product lifecycle. Share your plans for intellectual property, like copyright or patent filings. If you’re doing research and development for your service or product, explain it.

Marketing and Sales
Your marketing strategy should evolve and change to fit your needs in each context. Describe how you’ll attract and retain customers. Show how a sale will actually happen. You’ll refer to this section later when you make financial projections, so be thorough.

Funding Request
If you’re asking for funding, outline your funding requirements. Specify whether you want debt or equity and the terms you’d like. Your goal is to clearly explain how much funding you’ll need over the next five years and how the investment will be used.

Specify if you need funds to buy equipment or materials, pay salaries, or cover specific bills until revenue increases. Explain how you’ll pay off the debt.

Financial Projections
Supplement your funding request with a prospective financial outlook for the next five years. Show how your business will be a financial success.

If your business is already established, include income statements, balance sheets, and cash flow statements for the last three to five years. List collateral you could put against a loan.

Include forecasted income statements, balance sheets, cash flow statements, and capital expenditure budgets. For the first year, be even more specific and use quarterly—or even monthly—projections. Make sure to clearly explain your projections and match them to your funding requests.

Use visual organization tools—graphs and charts—to tell your business’s financial story.

Appendix
Here you’ll attach supporting documents or other requested materials. Common items to include are credit histories, CVs, product pictures, letters of reference, licenses, permits, patents, legal documents, and other contracts.

TRADITIONAL BUSINESS PLAN CHECKLIST

- Executive summary
- Company description
- Market analysis
- Organization and management
- Service or product line
- Marketing and sales
- Funding request
- Financial projections
- Appendix

LEAN STARTUP PLAN FORMAT
Write a lean startup plan if requested from an investor, or if your business is relatively simple or you plan to regularly change and refine as you go.

Lean startup plans use more visual organization tools and only a handful of elements to describe your company’s value proposition, infrastructure, customers, and finances. They’re useful for visualizing your company’s fundamental facts. Your business counselor can help you edit down into the Business Model Canvas, used here—the most well known style, or another lean startup template.

Key Partnerships
Note the other businesses you’ll work with—suppliers, manufacturers, subcontractors, and similar strategic partners.

Key Activities
List the ways your business will gain a competitive advantage. Will you sell direct to consumers or use technology to tap into the sharing economy?

Key Resources
List resources you’ll leverage to create value for your customer. Your most important assets include staff, capital, or intellectual property. Leverage business resources that might be available to women, veterans, Native Americans, and HUBZone-certified businesses.

Value Proposition
Make a clear and compelling statement about the unique value your company brings to the market.

Customer Relationships
Describe how customers will interact with your business. Think through the customer experience from start to finish. Is it automated or personal? In person or online?

Customer Segments
Name your target market. Your business won’t be for everybody; it’s important to have a clear sense of who you serve.

Channels
List the most important ways you’ll talk to your customers.

Cost Structure
Will your company focus on reducing cost or maximizing value? Define your strategy, then list the most significant costs you’ll face.

Revenue Streams
Explain how your company makes money: direct sales, memberships fees, selling advertising space? If your company has multiple revenue streams, list them all.

LEAN STARTUP PLAN CHECKLIST

- Key partnerships

FUNDING PROGRAMS
Financing Your Small Business

How We Did It
Crafting a Business

SBA-backed financing helped Superstition Meadery expand into a multimillion dollar enterprise.

WRITTEN BY BECKY BOSSHART
Jennifer and Jeff Herbert’s home-based brewing has expanded into a global, multimillion dollar enterprise thanks to SBA assistance. Using Arizona honey and ingredients they’ve sourced from around the world (such as Tahitian vanilla and Moroccan saffron), the Herberts are selling nearly 30,000 gallons annually of their honey-based fermented beverage. They operate a downtown Prescott, Arizona tasting room and state-of-the-art production facility, creating jobs and building a local craft industry. The Herberts, founding members of the American Mead Makers Association, have traveled around the world hosting pairing events and pouring at craft beverage festivals.

**Challenge**
The Herberts wanted to scale up their meadery while also staying true to their values of quality ingredients and craft process. It is often difficult for new entrepreneurs or unique concepts like a meadery to get traditional financing, even though they knew they had a great idea, the backing wasn’t there to expand. They say that choosing to do something new breaks the mold, which can be uncomfortable for traditional lenders.

**Solution**
Thanks to guidance from an SBA Resource Partner, the Small Business Development Center at Yavapai Community College, Jennifer and Jeff learned about financing that worked for them. The SBA guarantees loans made by lending institutions to small business that would not otherwise be able to obtain financing. Their small business qualified for two SBA-backed loans totaling more than $600,000. The Herberts’ first SBA-backed loan allowed them to acquire commercial property to design and build their mead production facility. Their second SBA-backed loan provided the funding for professional brewing equipment to complete their 7,450-square-foot production space. The Herberts recently purchased a historic building in downtown Phoenix, Arizona to open a mead-pairing restaurant.

**Benefit**
The Herberts started with two employees and now have over 20 producing 29,000 gallons this year. From a homegrown setup, Jennifer and Jeff are now charting revenue in excess of $2.6 million and distributing to 37 states, across Europe and Southeast Asia. They have plans for another expansion, including a shipping warehouse to manage their online retail and wholesale orders.

---

**5 Tips for Success**

1. **Get guidance.**
   Develop a working relationship with an SBA Resource Partner (see page 10). Your adviser will help make your business ready for financing.

2. **Define your lending needs.**
   Determine if a loan is right for you and if this is the right time. Define your needs. How much do you need? What are you going to use it for? Include this in your business plan.

3. **Keep clear records.**
   Track your cash, inventory, accounts payable & receivable, payroll, sales, purchases, loans payable, owners’ equity, and retained earnings. Most lenders will want to see this data, balance sheets, and profit & loss statements for multiple years.

4. **Talk to multiple lenders**
   Talk to multiple lenders and see who best matches your business. Lenders have different levels of risk and types of industries they take on.

5. **Check all options.**
   SBA Lenders determine if you’re eligible for SBA financing programs based on your industry & experience, collateral, credit score, and the relationship & transparency you develop with the lending agent.
SBA guarantees

help small business owners and entrepreneurs who are creditworthy but cannot get financing elsewhere. If you cannot obtain a business loan with reasonable rates and terms, contact your local SBA Lender to see if you are eligible for SBA programs. The SBA works with participating lenders to reduce their risk, increasing the likelihood your loan will be approved with the terms that work best for you. The guarantee is conditional on the lender following SBA program requirements. Just like with any other loan, you make your loan payments directly to your lender in accordance with your terms.

Financing 101

1. What do you need funding for?
   - Start or purchase a business
   - Purchase, renovate or expand facilities
   - Purchase inventory, equipment or machinery
   - Revolving credit/working capital for day-to-day expenses
   - Export a product or service

2. Do you need help with your business plan or loan package?
   If so, SBA Resource Partners can help. Find a list at your local SBA district office.

3. Now that you have your business plan and loan package ready, contact an SBA Lender to see if you qualify. There are two options...

   A. Check out Lender Match (sba.gov/lendermatch) to find an SBA Lenders who may specialize in your industry or type of project.

   B. Visit your local SBA district office for a list of local SBA Lenders.

Be prepared to discuss:
- size and purpose of your loan
- how long your business has operated
- your credit history
- collateral
- financial projections
- technical assistance/mentoring needs
FUNDING PROGRAMS

Need Financing?

Visit your local SBA office or lender to learn about these funding options.

The 7(a) Loan, the SBA’s Largest Financing Program
If you cannot get conventional financing and you meet the eligibility requirements, use a 7(a) loan to buy real estate, equipment or inventory for your small business. It may also be used for working capital, to refinance business debt or purchase a small business.

**MAX LOAN AMOUNT:** $5 million

**INTEREST RATE:** generally prime + a reasonable rate capped at 2.75%

**TERMS:** loan term varies according to the purpose of the loan, generally up to 25 years for real estate, 10 years for other fixed assets and working capital

**GUARANTEE:** 50 to 90%

CAPLines
Meet your revolving capital needs with lines of credit. CAPLines can be used for contract financing, seasonal lines of credit, builders line of credit, or for general working capital lines.

SBA Express Loan
Featuring a simplified process, these loans are delivered by experienced lenders who are authorized to make the credit decision for the SBA. These can be term loans or revolving lines of credit.

**MAX LOAN AMOUNT:** $350,000

**INTEREST RATE:** for loans less than $50,000, prime + 6.5%; for loans of $50,000 and greater, prime + 4.75%

**TERMS:** loan term varies according to the purpose of the loan, generally up to 25 years for real estate and 10 years for other fixed assets and working capital

**GUARANTEE:** 50%

Community Advantage
A financing program for women, veterans, low-income borrowers, and minority entrepreneurs just starting up or in business for a few years. Receive free business counseling as you work with a community-based financial institution.

**INTEREST RATE:** prime + 6%

**TERMS:** up to 25 years for real estate, 10 years for equipment and working capital

**GUARANTEE:** 75 to 90%

Microloans
Eligible businesses can startup and grow with working capital or funds for supplies, equipment, furniture and fixtures. Borrow from $500 to $50,000 and access free business counseling from microlenders.

**INTEREST RATE:** loans less than $10,000, lender cost + 8.5%; loans $10,000 and greater, lender cost + 7.75%

**TERMS:** lender negotiated, no early payoff penalty

504 Certified Development Company Loan
For those who do not qualify for traditional financing, but would like to purchase/renovate real estate or buy heavy equipment for a small business. It provides competitive fixed-rate mortgage financing through a lender and a certified development company.

**MAX LOAN AMOUNT (UP TO 40% OF THE TOTAL PROJECT):** up to $5 million; $5.5 million for manufacturing or energy public policy projects

**INTEREST RATE:** below market fixed rates for 10, 20 or 25 year terms

**TERMS:** 20 or 25 years for real estate or long-term equipment, 10 years for general machinery and equipment

**GUARANTEE:** the lender provides a senior loan for 50% of the project cost (with no SBA guarantee); the CDC finances up to 40% in a junior lien position (supported by the SBA guarantee)

**SPECIAL CONDITION:** a minimum borrower contribution, or down payment, is required, amounts vary by project but are usually 10%
Go Global with International Trade
Stabilize seasonal sales and become less dependent on any one market by exporting.

Expand your Market
Small businesses can enter and excel in the international marketplace using State Trade Expansion Program grants and training. Visit sba.gov/internationaltrade to find out if your state is participating. You can:

- learn how to export
- participate in foreign trade missions and trade shows
- obtain services to support foreign market entry
- translate websites to attract foreign buyers
- design international marketing products or campaigns

Financing for International Growth
Having trouble securing capital to meet your small business exporting needs? Use SBA international trade programs to cover short or long-term costs necessary to sell goods or services abroad. Loan proceeds can be used for working capital to finance foreign sales or for fixed assets, helping you better compete globally. Apply for lines of credit prior to finalizing an export sale or contract and adequate financing will be in place by the time you win your contract. If you’ve been in business for at least a year, ask your area SBA regional finance manager about the Export Working Capital program. The International Trade Loan program also helps exporters who have been adversely affected by foreign importing competition, helping you better compete globally.

- **Max loan amount:** $5 million
- **Interest rate:** for Export Working Capital, the rate is negotiated between borrower and lender. For the International Trade Loan, it also cannot exceed prime + 2.75% for loan amounts over $50,000 and maturity of seven years or more.
- **Terms:** For Export Working Capital, typically one year, cannot exceed three years. For International Trade Loans, up to 25 years for real estate, up to 10 years for equipment.
- **Guarantee:** up to 90%

Expert Advice on Exporting
Find an SBA professional in one of the 21 U.S. Export Assistance Centers, sba.gov/tools/local-assistance/eac, located in most major metro areas. The centers are also staffed by the U.S. Department of Commerce and, in some locations, the Export-Import Bank of the United States and other public and private organizations. Visit your local Small Business Development Center (see page 10) for exporting assistance from professional business counselors.

Export Express uses a streamlined process that expedites the SBA guarantee—what small businesses need most when preparing to export or ramping up international trade on a fast timeline.

- **Max loan amount:** $500,000
- **Interest rate:** typically not to exceed prime + 6.5%
- **Terms:** up to 25 years for real estate, up to 10 years for equipment, up to seven years for lines of credit
- **Guarantee:** up to 90%
- **Approval time:** 36 hours or less

Help with Trade Barriers
If you need assistance with international trade regulations, the SBA can be your advocate in foreign markets. Call toll free (855) 722-4877 or email your contact information and trade issue to international@sba.gov.
HOW THE SBA HELPED US SUCCEED
Small businesses that qualify for the SBA State Trade Expansion Program use grant proceeds to bolster their international market presence, which EarthQuaker Devices has done in a seismic way. A manufacturer of guitar special effects pedals in Akron, OH, EarthQuaker has built an international social media fanbase delivering content in seven languages, generating millions of website page views. EarthQuaker owners Julie Robbins & Jamie Stillman developed their global marketing strategy and multilingual promo materials with the SBA State Trade Expansion Program. The couple also received global marketing counseling and research assistance from the Ohio Small Business Development Center Export Assistance Network.

Help with Trade Barriers
If you need assistance with international trade regulations, the SBA can be your advocate in foreign markets. Call toll free (855) 722-4877 or email your contact information and trade issue to international@sba.gov.
R&D Opportunities for High Growth Startups

Businesses engaged in high-risk research and development can compete to develop their tech to market.

Do you work in one of these areas?
» advanced materials
» agTech
» artificial intelligence
» augmented reality and virtual reality
» big data
» biomedical
» cloud computing
» cybersecurity
» energy
» health IT
» national security
» sensors
» space exploration

America’s Seed Fund
The Small Business Innovation Research and the Small Business Technology Transfer programs, known as America’s Seed Fund, provide more than $3.5 billion each year in early stage capital through a competitive awards process.

How it works
Every year, participating federal agencies announce topic areas that address their R&D needs. Topics include:
» energy efficiency tech
» remote exploration to outer space
» new advances in devices for health research and diagnostic applications

Eligible businesses submit proposals to win either grants or contracts and then advance through three phases:
» The proof-of-concept stage typically lasts from 6-12 months, and provides from $100,000-$225,000
» The full R&D period lasts about 24 months, and typically provides $600,000-$1.5 million

▲ HOW THE SBA HELPED US SUCCEED
Killer Snails brings science out of the laboratory and into classrooms and living rooms with award-winning educational games, such as BioDive, Assassins of the Sea, and Biome Builder. The Brooklyn, NY-based business gained access to startup funding thanks to the Small Business Innovation Research seed funding program. Dr. Mandë Holford, left, Jessica Ochoa Hendrix, right, and Dr. Lindsay Portnoy envisioned how venomous marine snail research could be used in extended reality and digital learning to engage students and meet educators’ needs. The business has raised more than $1.2 million to support a team of full-time employees. Killer Snails’s tabletop, digital, augmented and virtual reality games have won national and international awards.

COURTESY OF THE SBA
The commercialization stage is when your small business seeks public or private funds for its venture or sells the innovation for a profit.

How your startup benefits
The funding agency does not take an equity position or ownership of your business. The federal government also protects data rights and the ability to win sole-source phase three contracts. Some agencies provide additional resources beyond funding.

Participating agencies:
» Department of Agriculture
» Department of Commerce
  › National Institute of Standards and Technology
  › National Oceanic and Atmospheric Administration
» Department of Defense
» Department of Education
» Department of Energy
» Department of Health and Human Services
  › Centers for Disease Control
  › Food and Drug Administration
  › National Institutes of Health
» Department of Homeland Security
» Department of Transportation
» Environmental Protection Agency
» NASA
» National Science Foundation

Visit sbir.gov to find funding opportunities and helpful program tutorials, as well as past award winners, such as Qualcomm, iRobot, Illumina, and Symantec. Use the local resources locator tool to identify state and regional programs and resources available to assist with grant writing, commercialization, and business counseling in your community.

Investment Capital
Looking for investors? For mature, profitable businesses with sufficient cash flow to pay interest, a small business investment company can help scale up your small business.

How an SBIC works
Investment companies with financing expertise in certain industry sectors receive SBA-guaranteed loans, which means the federal government is responsible in case of default. These investment companies then use the SBA-guaranteed capital and private funds to invest in qualifying small businesses. Each SBIC has its own investment profile in terms of targeted industry, geography, company maturity, the types and size of financing they provide.

To be eligible
The majority of your employees and assets must be within the United States. Some ineligible small businesses and activities include re-lenders, real estate, project financing, and foreign investment.

Visit sba.gov and click on Funding Programs and then Investment Capital. Follow us on Twitter for updates and announcements or visit our events page to learn about outreach programs in your community.

For more information, visit sba.gov and click on Funding Programs and then Investment Capital.
If you ask Stephanie Vitori, the person who coined the term “bittersweet” must have run a business. In the 15 years Stephanie has owned Cheeseburger Baby, the Florida burger joint has endured recessions, multiple hurricanes, and competition from corporate franchises. She has grown along with Cheeseburger Baby, changing with each stage of the business lifecycle.

Vitori worked as a delivery driver before purchasing the business in 2004. Since then, she’s expanded by purchasing two food trucks. She runs an open kitchen, which means customers can watch their 100% Angus beef cheeseburgers sizzle on the flat-top grill. Burgers are kept classic, no extra frills. “People feel at home,” Stephanie says. “You’re not just another table somebody has to serve.” Here, everybody feels like somebody, she says. So many people love a good cheeseburger, which is why all kinds of people are attracted to her restaurant. Cheeseburger Baby’s handcrafted patties have been featured on the Food Network and consumed by celebrities such as

How I Did It

Smiling After the Storm

With SBA assistance, Stephanie Vitori rebuilt her Miami Beach, FL restaurant after Hurricane Irma.

written by Jess Walker
Jay-Z and Kanye West. Stephanie has met famous chefs “all through a cheeseburger.” But just as special to her is the Vietnamese couple who came in one day, speaking little English. They were eager to meet Stephanie and show her a napkin with “Cheeseburger Baby” scrawled on it. On the other side of the world, a friend had told them to come, so they did. It all just goes to show you, Stephanie says, people come together for a great cheeseburger.

Challenge
Despite these sweet moments, there have also been bitter ones. Hurricane Irma struck in 2017, and Cheeseburger Baby lost equipment and food supplies. Thirty percent of sales blew away with the wind. “It was a zombie zone in South Beach. People were scared to come since they thought everything was destroyed,” Stephanie says. “It was the roughest road I’ve ever traveled.”

Solution
An SBA disaster assistance loan aided Cheeseburger Baby’s recovery. The SBA provides direct low-interest loans to businesses of all sizes, nonprofits, homeowners, and renters to repair damage or replace property not covered by insurance or other forms of assistance. SBA disaster assistance loans can also be used to rebuild stronger, protecting your home or business against future damage caused by a disaster. The SBA also introduced Stephanie to her local

Once safety and security needs are met, the SBA helps get you and your community back to where you were before the disaster. Since low-interest SBA disaster assistance loans are government aid, creditworthiness and the ability to repay are taken into consideration before a loan is awarded. For information visit sba.gov/disaster.
Small Business Development Center, which provided assistance with financing options and marketing. She continues to meet with SBDC advisers to remain competitive in an ever-changing economy.

During disasters, the responsibility falls on the owner’s shoulders. But one lesson Stephanie has learned is the value in reaching out to others for assistance and counsel. While her brick-and-mortar restaurant was being rebuilt, she sold from a food truck. When the restaurant was operational again, she advertised that with spray paint on the plywood covering the broken windows. Stephanie and her wife, Gabrie Vitori, rebuilt Cheeseburger Baby by depending on each other and SBA assistance. See their story on YouTube by searching for the 2019 Phoenix Award for Small Business Disaster Recovery. “You’ve got to have resiliency. You’ve got to swallow your pride sometimes,” Stephanie says. “But you also have to believe in your product.”

**Benefit**
For Cheeseburger Baby, that product will continue satisfying the burger hankering of locals, celebrities, and tourists alike. Vitori sees expansion in her future—she’d like to have a brick-and-mortar restaurant and food truck in each growing town in South Florida. “My whole life is this. I’ve always felt a love for business ownership,” Stephanie says. “That drive keeps you going.”

---

**Get Ready**

**Don’t Wait**
Take steps now to protect your business and reduce property damage with the help of an SBA disaster assistance loan. Those affected by a disaster can rebuild stronger by increasing their SBA loan up to 20% of the verified physical damage to make mitigation improvements. Borrowers have two years after loan approval to request an increase for higher rebuilding costs, code-required upgrades or mitigation.

---

**Keep in mind**
Since an SBA disaster loan is a direct loan from the government, other organizations may reduce or not award you a grant if you have received an SBA loan or other assistance for your disaster loss. Be sure to check with the organization offering assistance to see how an SBA loan might affect your eligibility for their program. In general, recovery expenses covered by insurance, FEMA, or other forms of assistance may reduce the amount provided by your SBA disaster assistance loan.
Getting Back to Business:

Six essential preparedness steps for creating a continuity plan

The financial and emotional cost of rebuilding a business after a disaster can be overwhelming. With a business continuity plan in place, you can recover more quickly. Your plan also puts you in a better position to contribute to the economic recovery of your community.

1. Establish a communications plan
   - Test your calling tree or communications list to reach employees to ensure they and their families are safe.

2. Protect your documents
   - Keep copies of vital business documents in a digital format or in an accessible, protected off-site location.

3. Review insurance coverage
   - Contact your insurance agent to find out if your coverage is right for your business; make sure you understand the policy limits and deductibles.
   - Ask about business interruption insurance, which compensates you for lost income and covers operating expenses if your company has to temporarily shut down because of a disaster.

4. Establish a solid supply chain
   - If your vendors and suppliers are local and the disaster is widespread, you will all be in the same situation—struggling to recover. Put a disaster response plan in place to get key supplies from companies outside your area. Create a contact list of contractors and vendors you plan to use.

5. Plan for an alternative location
   - Identify several places to relocate your operations in case you must close your primary location for an extended time.
   - Consider creative options for available office space, including sharing space and resources with other businesses.
   - Allow employees to telecommute until your location reopens.

6. Practice your plan with your staff
   - Based on your location, assess your risk for every type of emergency.
   - Discuss as a group how your plan would be affected by different types of disasters, such as an earthquake, tornado, flood, mudslide, or hurricane.
Surety Bonds

Eligible small businesses in the construction, supply, and service sectors better compete for contracting and subcontracting jobs using SBA-backed surety bonds.

How you benefit
Surety bonds help small businesses receive the bonding assistance they need to win contracts by providing the customer with a guarantee the work will be completed.

How surety bonds work
Many contracts require surety bonds, which are offered by surety companies. The SBA guarantee provides an incentive for surety companies to work with small businesses that would normally not be able to obtain the bond.

Is the program right for you?
Small businesses that often come to the SBA for surety bonds:

- startups and firms in business less than three years
- businesses with credit issues or internally prepared financial statements
- those who cannot secure bonding through regular commercial channels
- subcontractors with a desire to establish their own bonding as a prime contractor
- those wishing to increase their current bonding limits

HOW THE SBA HELPED ME SUCCEED
With SBA-backed surety bonds, Frank Spencer III has been able to better compete for commercial and government contracts. Aztec Contractors of El Paso, TX received the bonding support it needed to compete for construction contracts with the General Services Administration, U.S. Army Corps of Engineers, and the Mission and Installation Contracting Command. Frank acquired Aztec in 2006 with no capital and only two employees. Now he employs 25 full time and provides internship opportunities. Sales have grown to about $30 million annually. Aztec now qualifies for bonding in the standard surety market without SBA support.
For all contracts and subcontracts up to $6.5 million, the SBA guarantees bid, payment, performance, and ancillary bonds issued by surety companies. For federal contracts up to $10 million, the SBA makes a guarantee if it’s in the best interest of the government.

The SBA reimburses surety companies in case of default 90% of losses sustained for veteran & service-disabled veteran, minority, 8(a), and HUBZone-certified small businesses; all projects up to $100,000 and 80% for all other small businesses.

Need a surety bond guarantee fast?

For contracts under $400,000, the process is streamlined using the SBA’s QuickApp program.

- easy application
- no need to submit financials to the SBA
- online applications submitted to SBA authorized agents approved within hours

Ready to start?

The SBA partners with 36 surety companies and hundreds of bonding agents. Find authorized agents at sba.gov/osg.

Do you want to discuss the advantages of the SBA’s Surety Bond Guarantee program?

Jennifer Rahn steers Admiral Engineering and Manufacturing to success as a government subcontractor.

WRITTEN BY MICAELA MORRISSETTE
Jennifer Rahn was first hired as an office assistant at Phoenix, Arizona-based Admiral Engineering and Manufacturing Co. Rising to the top in a sector dominated by men, Rahn’s career sounds a lot like the classic American success story. She got there with the help of a mentor and business growth earned as a federal government subcontractor.

For 16 years, Rahn worked side-by-side with then-owner David Schlosser, who became her mentor. Rahn says she learned “everything it takes to run a machine shop. I naturally just picked it up and wanted it.”

The learning curve was steep—Admiral specializes in complex machined parts for industries including aerospace and communications—and Schlosser expected as much as he gave. “When I did something wrong, he told me, and I didn’t do that again,” Rahn said, laughing.

One of their largest clients, aerospace and defense company L3 Technologies, nominated Admiral for the SBA Subcontractor of the Year award. As a subcontractor for L3 Technologies, Rahn said she gets great satisfaction from knowing soldiers are able to communicate with their leaders because of parts her company has made.

When Schlosser decided to retire, he asked Rahn to purchase Admiral.

“He did not want to sell to a corporation that would bring in their own people or end up foreclosing,” Rahn says. “Then all your hard work is gone. I agreed because it was everything I had spent my life working on, too.”

In September 2017, she took over as owner and president. Ownership transition poses a unique set of challenges. Rahn wanted to maintain relationships with her existing clients, which include major government contractors. She’s grateful prime contractors have incentive to subcontract with small business, and that helps businesses like Admiral.

Rahn has plans to grow, but not in the typical ways. She’s investing in replacing equipment, enhancing efficiency and productivity while leading Admiral into new arenas like 3D printing. Because of the stability provided by being a government subcontractor, she’s able to do all of this.
How to do business with the government

1. Consult your local Small Business Development Center (see page 10) or Procurement Technical Assistance Program adviser. Find your closest center at aptac-us.org.

2. Search https://beta.sam.gov to see if any federal agencies are looking for your product or service. Search the SBA SubNet database for subcontracting opportunities.

3. Attend an SBA district office contracting workshop. Visit sba.gov/localassistance to find your local office.

4. Identify your product or service number at naics.com.

5. Obtain a free DUNS number at fedgov.dnb.com/webform. A Unique Entity ID managed by Ernst & Young will replace DUNS in late 2020.

6. Register with the System for Award Management (sam.gov).

7. Research SBA certification programs like the 8(a), woman-owned small business, and HUBZone programs. If eligible, upload all required documents to certify.sba.gov before you submit an offer on a contract.
Government Contracting

Is it right for you? Government contracting can be a valuable tool to grow your small business, but it isn't for everyone. Complete the following readiness assessment to help you decide whether your company can successfully compete for government contracts.

1. Does the government buy the product or service that you sell?
   - √ Continue to question 2.
   - × Government contracting may not be for you at this time.
   - ? Start with your local SBA district office. If you can’t identify at least three federal agencies that might buy what you sell, contracting might not be right for you.

2. Are you capable of fulfilling a government contract (e.g., time, staffing, and materials)?
   - √ Continue to question 3.
   - ? Your local SBA district office can help you gauge ramp-up time and other factors that contribute to government contracting success.

3. Confirm your answer to all of the following:
   - √ Is the majority owner(s) a U.S. citizen?
   - √ Does your company have a place of business in the U.S.?
   - √ Is your business organized for profit?
   - √ Does your business generate revenue?
   - × These are requirements for participation in government contracting programs.

4. Are you credit worthy?
   - √ Continue to question 5.
   - × Visit an SBA Resource Partner for tips on repairing your credit.
   - ? Talk to an SBA Lender about how to build credit.

5. Do you have an accounting system that produces financial statements, such as profit and loss statements, balance sheets, and cash flow projections?
   - √ Continue to question 6.
   - × Before you get into government contracting, make sure your accounting system is compatible with the government’s requirements.

6. Do you have cash on hand to purchase working inventory, if needed?
   - √ Continue to question 7.
   - × Talk to an SBA Lender about getting a line of credit or a loan to do business with the government.

7. Do you already have federal/state/local government contracting experience?
   - √ Continue to question 8.
   - × If you don’t yet have contracting experience, you won’t reap the full benefit of opportunities like the 8(a) Business Development Program. You can participate in the 8(a) program once, so make sure it’s the right time for you.

8. Do you know where to find contracting opportunities?
   - √ Continue to question 9.
   - × Ask an SBA business opportunity specialist for help.

9. Make sure you have:
   - √ a DUNS number
   - √ the NAICS codes and size standards for your industry
   - √ SAM registration
   - × This is a requirement for participation in some government contracting programs.

Continue below.

It sounds like you may be a good fit for government contracting! Visit your local SBA district office or sba.gov/contracting for more information.
SBA Certification Programs

Your business could earn profit and gain valuable work experience by providing goods or services to the government.

HOW THE SBA HELPED ME SUCCEED
September Myres knew that becoming a government contractor would empower herself and other native peoples, while also growing her small business to the next level. She sought business development assistance from the SBA, qualifying for the SBA 8(a) Business Development Program, which helps small disadvantaged businesses compete in the federal marketplace. This program helped September strategically grow her company to become a competitive force in the environmental services industry. Sundance Consulting of Pocatello, ID has won contracts from the Army Corps of Engineers and the U.S. Forest Service. She has continually secured Department of Defense contracts to improve Native American lands adversely affected by past department activities. September often assists Native American tribes and Alaska Native villages with developing projects and community plans.

American Indians, Alaska Natives, and Native Hawaiians seeking entrepreneurial development training can start, grow, and expand their business with the help of the SBA, sba.gov/naa. The Office of Native American Affairs also consults with tribal governments prior to finalizing SBA policies affecting tribes.

Contracting certification programs are designed to help you better compete for and win federal contracts set aside for small businesses. Visit sba.gov/contracting to learn more about set-asides and whether one or more of these government certification programs is right for your business. To see if you are eligible and to then certify as 8(a), woman-owned, All Small Mentor-Protege or HUBZone, visit certify.sba.gov.

8(a) Business Development Program
If you’re an entrepreneur who is socially or economically disadvantaged, you may be eligible to receive business training and government contracting assistance through the 8(a) Business Development Program, sba.gov/8a. It includes free business development education, training workshops, and match-making opportunities with federal buyers. Firms owned by Alaska native corporations, Indian tribes, Native Hawaiian organizations, and community development corporations are also eligible for 8(a) business development assistance. To be eligible for the 8(a) program, your small business must:
» be owned and controlled by U.S. citizens who are socially and/or economically disadvantaged
» demonstrate at least a two-year track record and have potential for continued success
» have a net worth and an adjusted gross income of less than $250,000 and assets under $4 million

Socially disadvantaged: those subjected to racial or ethnic prejudice or cultural bias without regard to their individual qualities because of their identity as members of certain groups. The following groups often fit this status: Black Americans, native Americans, Alaska natives, native Hawaiians, Hispanic Americans, Asian Pacific Americans, and subcontinent Asian Americans. A person who is not a member of one of these groups must establish that it is more likely than not that he or she has suffered social disadvantage.

Economically disadvantaged: those whose ability to compete in the marketplace has been impaired because they have not had as much capital and credit opportunities compared to others in the same or similar line of business.

The benefits of the 8(a) program:
» You are assigned an SBA professional to help coordinate business development assistance.
» You could be awarded an 8(a) sole-source contract up to $4 million for goods and services, $7 million for manufacturing, exceptions apply.

What is an 8(a) sole-source contract?
A direct awarding of a contract to an 8(a) small business that can provide the needed services. This is an accelerated process saving time for both you and the government agency or office.

All Small Mentor-Protege Program
Looking for an opportunity to partner with a more experienced firm for mentorship? That effort can be rewarded in the All Small Mentor-Protege Program, sba.gov/alsmallmpp. At the same time you’re gaining invaluable direction and experience, you and your mentor can compete for government contracts, further growing your business.

To qualify for this program:
» Proteges must have a mentor prior to applying for the program. Visit your local SBA office for guidance. Ask about the SBA’s Resource Partners and the Procurement Technical Assistance Program for help in connecting you with a mentor business.
» You must be certified as a small business within your NAICS industry classification (naics.com).

» Mentors and proteges must be organized for profit or as an agricultural cooperative.

» Mentors cannot own more than 40% equity in the protege’s business.

» An SBA determination of affiliation must not exist between the mentor and the protege. All Small-approved partnerships receive an exclusion of affiliation for contracting purposes.

HUBZone
Businesses located in historically underused business zones, sba.gov/hubzone, can gain special access to federal contracts. To qualify for the certification, your small business must:

» be owned and controlled by U.S. citizens, a community development corporation, an agricultural cooperative, Indian tribal government, Alaska native corporation, or a native Hawaiian organization

» have a principal office located in a HUBZone, which includes Indian reservations and military facilities closed by the Base Realignment and Closure Act. Enter your address in our interactive map, maps.certify.sba.gov/hubzone/map, to see if you qualify.

» have at least 35% of your employees living in a HUBZone

Service-Disabled Veterans
If you’re a service-disabled veteran looking to enter the federal marketplace, you may be eligible for this small business certification. To determine your eligibility, contact a veterans business development officer at your local SBA office, or the SBA’s Office of Veterans Business Development, sba.gov/ovbd. After you have set up to do business with the government in sam.gov, update your status as a service-disabled veteran business. Keep in mind, the SBA does not officially certify this designation, so when a contract awarded based on this eligibility is protested, the SBA will determine if your business meets the eligibility status, ownership and control requirements.

Woman-Owned Small Business Certification
Here’s how to get certified so you can more easily compete for government contracts.

1. Make sure you’re eligible

» The business must be owned and controlled by one or more women who are U.S. citizens.

» A woman must hold the highest officer position.

» Women must manage the daily business operations on a full-time basis and conduct long-term decision making and planning.

To qualify as an economically disadvantaged woman-owned small business, the business owner and/or manager must also meet certain income and asset requirements. Find out more at sba.gov/wosb.

2. Register

» Register with the System for Award Management (sam.gov) to start doing business with the government.

3. Certify

» Submit your documents to certify.sba.gov. The SBA will offer free certification starting in late summer 2020. Or obtain certification from one of the SBA’s approved third-party certifiers (which costs a fee):

• El Paso Hispanic Chamber of Commerce
• National Women Business Owners Corp.
• U.S. Women’s Chamber of Commerce
• Women’s Business Enterprise National Council

4. Update your status

» Update your status as a woman-owned small business in sam.gov.

5. Search the database

» Search beta.sam.gov for your new business opportunity. You must receive your certification prior to submitting an offer on a contract set aside for a woman-owned small business.
Get Expert Contracting & Certification Help

Federal contracting can be complex, but you don’t have to do it alone. A Procurement Technical Assistance Center adviser can help you determine if your business is ready for government contracting. An adviser can also help you register in the System for Award Management (sam.gov) and see if you’re eligible for any small business certifications and/or programs. Visit sba.gov/localassistance to find one-on-one counseling that is free or low cost. (see page 10).
