Law 656, codified at Section 7(j)(16) of the Small Business Act, 15 U.S. Code (U.S.C.) § 636(j)(16).

SMALL BUSINESS ACT - Section 7(j)(16)

(A) The Administrator shall develop and implement a process for the systematic collection of data on the operations of the Program established pursuant to paragraph (10).

(i) The average personal net worth of individuals who own and control concerns that were initially certified for participation in the Program during the immediately preceding fiscal year. The Administrator shall also indicate the dollar distribution of net worth, at \$50,000 increments, of all such individuals found to be socially and economically disadvantaged. For the first report required pursuant to this paragraph the Administrator shall also provide the data specified in the preceding sentence for all eligible individuals in the Program as of the effective date of this paragraph.

(iii) A compilation and evaluation of those business concerns that have exited the Program during the immediately preceding three fiscal years. Such compilation and evaluation shall detail the number of concerns actively engaged in business operations, those that have ceased or substantially curtailed such operations, including the reasons for such actions, and those concerns that have been acquired by other firms or organizations owned and controlled by other than socially and economically disadvantaged individuals. For those businesses that have continued operations after they exited from the Program, the Administrator shall also separately detail the benefits and costs that have accrued to the economy during the immediately preceding fiscal year due to the operations of such concerns.

(iv) A listing of all participants in the Program during the preceding fiscal year identifying, by State and by Region, for each firm: the name of the concern, the race or ethnicity, and gender of the disadvantaged owners, the dollar value of all contracts received in the preceding year, the dollar amount of advance payments received by each concern pursuant to contracts awarded under section 8(a), and a description including (if appropriate) an estimate of the dollar value of all benefits received pursuant to paragraphs (13) and (14) and section 7(a)(20) during such year.

(v) The total dollar value of contracts and options awarded during the preceding fiscal year pursuant to section 8(a) and such amount expressed as a percentage of total sales of (I) all firms participating in the Program during such year; and (II) of firms in each of the nine years of program participation.

(vi) A description of such additional resources or program authorities as may be required to provide the types of services needed over the next two-year period to service the expected portfolio of firms certified pursuant to section 8(a).

(vii) The total dollar value of contracts and options awarded pursuant to section 8(a), at such dollar increments as the Administrator deems appropriate, for each four digit standard industrial classification code under which such contracts and options were classified.

EXECUTIVE SUMMARY

This report is provided annually to the Congress to determine and quantify the extent to which the Minority Small Business and Capital Ownership Development Program (herein referenced as the 8(a) Business Development (BD) program) has assisted in the development of firms owned and controlled by socially and economically disadvantaged individuals. The Small Business Act requires SBA to provide information on participants in the 8(a) BD program for the Report year and the status of the business concerns that completed their 8(a) BD program term during the preceding three fiscal years of the Report year. This Fiscal Year (FY) 2018 Report will report on FY 2018 participants, as well as former participants that completed their program terms or exited the program in FY 2015, FY 2016, and FY 2017.

FY 2018 marked the 51st year of the SBA's 8(a) BD Program. During FY 2018, a total of 5,384 businesses participated in the 8(a) BD Program (defined as in the program at least one day during the fiscal year). These firms made significant contributions to the Federal, state, and local tax bases and contributed an estimated 120,010 jobs to the Nation's economy.¹ Between October 1, 2017, and September 30, 2018, a total of 351 new firms were certified to participate in the program.

According to data collected from the Federal Procurement Data System – Next Generation (FPDS-NG) total federal obligations to participating firms were \$27,382,322,349. This consisted of \$17,632,106,192 in 8(a) sales and \$9,750,216,157 non-8(a) sales. The 8(a) obligations represent an estimated 64.3 percent of total revenue for FY 2018 firms.²

In order to assess the current business status of former 8(a) firms that exited and *completed*³ the program during the past three preceding fiscal years, SBA utilized information and data available through Dun and Bradstreet (D&B), a company that provides commercial data and analytics for businesses. Between October 1, 2014, and September 30, 2017, a total of 1,442 firms graduated or otherwise exited the program. Of the 1,442-total number of firms, 1,270 were active firms in FY 2018, 127 had ceased business operations,⁴ and 45 firms did not have business data available. Of the active firms, 15 were acquired by another firm or organization owned and controlled by other than socially and economically disadvantaged individuals and 163 firms were substantially curtailed.⁵

Pursuant to D&B figures, the 1,442 former participants that exited or completed the program during FY 2015, FY 2016, and FY 2017 collectively reported revenues for FY 2018 of approximately \$7,161,479,140 and provided jobs for approximately 47,433 persons.

¹ Data regarding jobs (employees) was pulled from SBA's internal database.

² 8(a) Contract Dollars reflects FPDS-NG Small Business Goaling FY 18 Report as of February 18, 2019, while Non-8(a) Dollars reflects a SBA FPDS-NG Ad Hoc Report as of February 25, 2019.

³ The term "completed" refers to firms that completed the full nine-year program term.

⁴ *Ceased* firms are firms that are out of business.

⁵ For purposes of this report *substantially curtailed* business concerns are those as firms with the number of employees at the end of the Reporting year to be less than 50% of the number of employees at the end of the fiscal year when the business left the 8(a) BD program.

PROGRAM INITIATIVES

1. **Mission:** The purpose of the 8(a) BD program is to assist eligible small disadvantaged business concerns to compete in the American economy through business development. These small disadvantaged businesses are owned and controlled by socially and economically disadvantaged individuals who are of good character and citizens of and residing in the United States. However, small business owned by Alaskan Native Corporations, Native Hawaiian Organizations, Indian tribes, and Community Development Corporations entities are responsible for the welfare of the underserved shareholder communities. The 8(a) BD program fulfills its mission by providing business development resources, such as marketing, managerial, technical, and financial and procurement assistance.
2. **Business Development:** The 8(a) BD program promotes business development over a nine-year period. Each participant's progress is monitored and measured, and its developmental needs are identified through an annual review, including an analysis of the firm's business plan. The 8(a) BD firms can receive guidance from many organizations outside of the SBA, to include SCORE, Small Business Development Centers (SBDC), Procurement Technical Assistance Centers (PTAC) and Women's Business Centers (WBC). In addition, through award of sole source and limited-competition contracts, the 8(a) BD program provides a logical and systematic approach to market access and enterprise growth to Program participants.
3. **Management and Technical Assistance:** Pursuant to the Small Business Act Section 7(j), the SBA provides technical or management assistance to individuals or enterprises eligible for assistance, with special attention to small businesses located in areas of high concentration of unemployed or low-income entrepreneurs to small businesses eligible to receive contracts pursuant to Section 8(a) of the Act. The 8(a) BD program participants also receive assistance through SCORE, SBDCs, WBCs, and the United States Export Assistance Centers (USEAC), as well as the mentor-protégé, joint venture, surety bond guarantee, and SBA loan programs.

NET WORTH OF NEWLY CERTIFIED PROGRAM PARTICIPANTS

SMALL BUSINESS ACT – SECTION 7(j)(16)(B)(i)

([T]he administrator shall submit a report to Congress...that shall include the following:)

The average personal net worth of individuals who own and control concerns that were initially certified for participation in the Program during the immediately preceding fiscal year. The Administrator shall also indicate the dollar distribution of net worth, at \$50,000 increments, of all such individuals found to be socially and economically disadvantaged.

1. **Unadjusted Personal Net Worth⁶:** The unadjusted personal net worth, for program purposes, is the net value of the remaining assets of an individual, after total liabilities are deducted from his/her total assets. During the 2018 fiscal year, 277 individuals were initially certified to participate in the 8(a) BD program. Table I represents data on the unadjusted personal net worth of those individuals in their initial application.
2. **Adjusted Personal Net Worth⁷:** The adjusted personal net worth, for program purposes, is defined as personal net worth less the disadvantaged individual's equity in his or her primary residence and the individual's ownership interest in the applicant concern. In determining personal net worth, the Small Business Act requires the SBA to utilize adjusted personal net worth when determining eligibility for new applicants. At the time of this report, an applicant adjusted new worth cannot exceed \$250,000. Table II represents data on the adjusted personal net worth of those individuals after SBA's review.

BENEFITS AND COSTS OF THE DEVELOPMENT PROGRAM TO THE ECONOMY AND GOVERNMENT

SMALL BUSINESS ACT - Section 7(j)(16)(B)(ii)

([T]he administrator shall submit a report to the Congress...that shall include the following:)

A description and estimate of the benefits and costs that have accrued to the economy and the Government in the immediately preceding fiscal year due to the operation of those business concerns that were performing contracts awarded pursuant to section 8(a).

During FY 2018, a total of 5,384 firms participated in the 8(a) BD program. This total includes all firms that were in the program at least one day during the fiscal year. These firms provided employment for more than 120,010 people.

According to data collected from the Federal Procurement Data System – Next Generation (FPDS-NG) total federal obligations to participating firms were \$27,382,322,349. This consisted of \$17,632,106,192 in 8(a) sales and \$9,750,216,157 non-8(a) sales. The 8(a) obligations represent an estimated 64.3 percent of total revenue for FY 2018 firms.

Benefits to the Economy and to the Government

In principle, the benefit to the economy represents the incremental gain to disadvantaged groups from employment and income supported by 8(a) business development assistance as well as incremental gains in business sustainability. The following are areas in which 8(a) participants are contributing to the gross domestic product: the Nation's tax base, employment, and the individual wealth and well-being of all Americans.

- a) **Long-term Business Development Efforts:** While 8(a) BD contract value figures represent a very small percentage of total Federal procurement dollars, they serve as an indicator of the development of firms owned and operated by individuals and entities that historically have had limited access to capital, credit and public/private contracting opportunities. Additionally, these contracts and values can serve as gauges to the Nation's economic growth and to the diversity of much needed new jobs.
- b) **Employment:** The 5,384 8(a) BD firms provided employment to an estimated 120,010 people during FY 2018, representing an average of 22.2 employees per company. The 8(a) BD program is a source of employment in all fifty states as well as the District of Columbia, Guam, Puerto Rico and the U.S. Virgin Islands.

Costs to the Government

The SBA's Office of Business Development (BD), under the Office of Government Contracting and Business Development (GCBD), is responsible for the administration of the 8(a) BD program.

a. Program Administrative Costs⁸

SBA program administrative costs consist of direct costs from the operating budget plus compensation and benefits, Agency-wide costs such as rent and telecommunications, and indirect costs such as Agency overhead (e.g., financial management). Total costs for the 8(a) BD program in FY2018 were \$71.5 million, including \$13.1 million attributable to the Field Offices and \$58.3 million attributable to Headquarters.

b. Management and Technical Assistance⁹

Section 7(j) of the Small Business Act mandates that the SBA obtains and maintains a cadre of qualified individuals and organizations providing assistance to socially and economically disadvantaged individuals. For FY 2018, Section 7(j) assistance had actual costs of \$3.08 million attributable to cooperative agreements and contracts.

⁹ Management and technical assistance data provided by SBA's Office of Chief Financial Officer (OCFO).

EVALUATION OF FIRMS THAT COMPLETED 8(a) BUSINESS DEVELOPMENT PROGRAM DURING THREE PREVIOUS FISCAL YEARS

SMALL BUSINESS ACT - Section 7(j)(16)(B)(iii)

([T]he administrator shall submit a report to the Congress...that shall include the following :)

A compilation and evaluation of those business concerns that have exited the Program during the immediately preceding three fiscal years. Such compilation and evaluation shall detail the number of concerns actively engaged in business operations, those that have ceased or substantially curtailed such operations, including the reasons for such actions, and those concerns that have been acquired by other firms or organizations owned and controlled by other than socially and economically disadvantaged individuals. For those businesses that have continued operations after they exited from the Program, the Administrator shall also separately detail the benefits and costs that have accrued to the economy during the immediately preceding fiscal year due to the operations of such concern.

The SBA utilized data provided by D&B to analyze the 1,442 firms that completed their 8(a) Business Development Program terms between October 1, 2014, and September 30, 2017. Of the 1,442-total number of firms, 1,270 were active firms. In FY 2018, 127 had ceased business operations, and 45 firms did not have business data available. Of the active firms, 15 were acquired by another firm or organization owned and controlled by other than socially and economically disadvantaged individuals and 163 firms were substantially curtailed.

Of the 1,270 active firms that had completed or exited the program, the total annual revenue for such firms over the preceding three fiscal years was approximately \$7,161,479,140 in FY 2018. This provided jobs for approximately 47,433 persons.

As for the reasons that former program participant firms ceased operations, these could be various. Such reasons are most likely similar to the reasons that cause any category of business to cease operations. These may include the following: economic conditions; retirement; illness or death of the owner; reduced federal contracting opportunities; a decision to sell the business or start a new business venture; or the pursuit of other professional interests. According to recent Census data,¹⁰ two out of three new employer firms survive at least two years; and over a third of those companies stay in business 10 years or more. Census data report that 67.6 percent of new employer firms in 2000 survived at least two years, and 48.8 percent survived at least 5 years. Survival rates were similar across states and major industries. Bureau of Labor Statistics data on establishment age show that 33.6 percent of establishments survived at least ten years and 25.7 percent survived 15 years.¹¹

Survival rates (1994-2018)

¹⁰ U.S. Department of Commerce, Census Bureau, Business Dynamics Statistics (BDS). It should be noted that the Census Bureau does not produce and release official survival rate statistics. These numbers can, however, be derived from statistics provided in the BDS; specifically, the number of employer businesses by age and year. A couple of caveats that are expected to distort these numbers slightly are: 1) Business exits have a precise definition in the BDS. An exit takes place when all establishments of a firm cease to exist. Firm entities that cease to exist as a legal construct due to merger and acquisition (M&A) activity but whose establishments do not all cease to exist; are not considered exits in these data. 2) The number of firms in the economy can change for things other than entry. Specifically, firm break ups, spinoffs and M&A activity can lead to multiple new legal entities where there was only one before.

¹¹ It should be noted that the Census data represent *firms*, which are the entity of the business, while Bureau of Labor Statistics indicate establishments. The firm and establishment survival age figures are similar.

*Statutory language in this section requests status information on firms that have completed the 8(a) Program for each of the three preceding fiscal years of the Report Year. A firm having *completed* the 8(a) program is defined as a firm having spent the full nine years in the program. *Active* firms are defined as being actively engaged in business operations. *Ceased* firms are firms that are out of business. Active firms *acquired* are defined as having been acquired by other firms or organizations owned and controlled by other than socially and economically disadvantaged individuals. If the firm was acquired by other than an 8(a) firm, then the firm would be listed as acquired.

Firms *substantially curtailed* (defined in statute as “substantially ceased” are defined as firms with the number of employees at the end of the Reporting year to be less than 50% of the number of employees at the end of the fiscal year when the business left the program.

COMPILATION OF FISCAL YEAR 2016 PROGRAM PARTICIPANTS

SMALL BUSINESS ACT - Section 7(j)(16)(B)(iv)

([T]he administrator shall submit a report to the Congress...that shall include the following :)

A listing of all participants in the Program during the preceding fiscal year identifying, by State and by Region, for each firm: the name of the concern, the race or ethnicity, and gender of the disadvantaged owners, the dollar value of all contracts received in the preceding year, the dollar amount of advance payments received by each concern pursuant to contracts awarded under section 637(a) of this title, and a description including (if appropriate) an estimate of the dollar value of all benefits received pursuant to paragraphs (13) and (14) and section 7(a) (20) during such year.

[Appendix B](#) to this Report sets forth a listing of all FY 2018 program participants. For each participant, the following information is provided: firm name; firm location by state and region; race or ethnicity of the qualifying disadvantaged owner; gender of the qualifying disadvantaged owner (if disclosed); and the value of all 8(a) contract obligations in FY 2018.¹²

In designating a qualifying owner's basis for social disadvantage, SBA uses Ethnicity/Race. The following information below shows the number of firms in each Ethnicity/Race and the percentage that number is of the total number of firms (5,384):

- Asian Pacific American (AP) – 551 (10.2%)
- Black American (BA) – 1,770 (32.9%)
- Hispanic American (HA) – 1,214 (22.6%)
- Native American (NA) – 354 (6.6%)
- Other (American) (OT)¹³ – 368 (6.8%)
- Subcontinent Asian American (SA) – 641 (11.9%)

According to SBA's internal database for 8(a) BD records management men owned 60.5 percent of the FY

¹² Firm names listed in Appendix B were pulled from a FPDS-NG Ad Hoc report on February 25, 2019, using DUNS numbers for FY 2018 8(a) firms.

¹³ The category of "Other (American)" includes individuals who selected "Other" or who made no selection at all.

2018 participant firms, and women owned 30.4 percent; 9.1 percent of the firms did not report a specific gender.

The following identifies the number of FY 2018 entity-owned participant firms (i.e., those owned by Indian Tribes, ANC, NHOs, or CDCs), and the percentage that number is of the total number of firms (5,384):

- Alaskan Native Corporations (ANC) - 299 (5.5 percent)
- Native Hawaiian Organizations (NHO) - 40 (0.73 percent)
- Indian Tribes (TO) - 143 (2.7 percent)
- Community Development Corporation (CDC) – 4 (.07 percent)

As part of the annual review submission, each Participant owned by a Tribe, ANC, NHO or CDC must submit to SBA information showing how the Tribe, ANC, NHO or CDC has provided benefits to the applicable Tribal, or native, or underserved community due to the Tribe's/ ANC's/ NHO's/ CDC's participation in the 8(a) BD program through one or more firms. In assessing such benefits, SBA collects information related to the following: employee assistance; preparatory classes; education reimbursement; internship programs; health, social and cultural support, to include in-school support programs, drug and alcohol treatment, individual and family crisis assistance and after-school summer programs; and economic and community development, to include establishment of non-profit organizations, such as a housing authority, to provide quality housing for elders, individuals and families. Participating Tribes, ANCs, NHOs and CDCs reported diverse benefits valued at approximately \$491,443,417. Contract dollars for entities totaled \$2,361,540,182.84 in 8(a) revenue and \$3,703,906,834 in total revenues (8(a) and non-8(a) revenues combined).¹⁴

([T]he administrator shall submit a report to the Congress...that shall include the following:)

The total dollar value of contracts and options awarded pursuant to section 637(a) of this title, at such dollar increments as the Administrator deems appropriate, for each four-digit standard industrial classification code under which such contracts and options are classified.

[Appendix A](#)¹⁷ which follows indicates FY 2018 8(a) contract dollars obligated¹⁸ by NAICS code for current firms and including dollars obligated under option periods of performance for contracts awarded in previous fiscal years. This information was certified from FPDS-NG on February 18, 2019.

¹⁶ A North American Industry Classification System (NAICS) code is a six-digit industry classification which best describes the primary purpose of a federal procurement. The SIC four-digit standard industrial classification code system is no longer in existence.

¹⁷ FY 2018 dollars obligated by NAICS were certified on February 18, 2019, from Federal Procurement Data System – Next Generation (FPDS-NG). FPDS-NG is the official depository for Federal procurements.

¹⁸ Contract dollars obligated (listed as “action obligations in FPDS-NG”) represents dollars actually obligated in the fiscal year. “Actions” listed in FPDS-NG and used in this report represent number of modifications performed by the Contracting Officer during the fiscal year and do not represent number of contracts.
