A PRACTICAL GUIDE TO DOING BUSINESS WITH
THE FEDERAL GOVERNMENT
AND
Directory of
Federal Procurement
Offices
Message from the Area Director-

In Fiscal Year 2010, the Federal Government bought almost $500 Billion in goods and services, ranging from paper clips and janitorial services to space shuttles and advanced scientific research – and pretty much everything in between. Small businesses received nearly $100 Billion in contract awards. Recent laws such as the Small Business Jobs Act and the Women-Owned Small Business Contracting Program will help put even more of these dollars into the hands of small businesses, helping them grow, drive innovation and create jobs.

While dealing with the Federal Government can be a formidable task at times, the Small Business Administration (SBA), through our Office of Government Contracting (GC) and our many Resource Partners can assist you to market your firm’s products and services.

Knowledge is power! We hope this guide and directory will help you overcome any uncertainties that you may have and be a useful tool for you. Best wishes and Good Luck!

James A. Gambardella

SBA GC Area VI -

Providing Small Business with the Competitive Edge!
Dealing with the Federal Government can at times seem like a difficult task. However, with a little patience, persistence and perseverance on your part -- your efforts can be rewarded in the long run. To assist you, we developed a procedural step-by-step process that will enhance your potential for success. Good Luck!

1. Become familiar with the following websites for Government Contracting:

SBA offers a wide array of programs and hands-on assistance to small businesses considering the federal marketplace. Go to [http://www.sba.gov/content/government-contracting-field-staff-directory](http://www.sba.gov/content/government-contracting-field-staff-directory) where you can identify local contracting experts who can be an invaluable resource to you, whether you are new to government contracting or are currently doing business with the government and are seeking advice on how to deal with a particular issue.

From the Contracting Section under Contracting Opportunities: [http://www.sba.gov/category/navigation-structure/contracting/contracting-opportunities](http://www.sba.gov/category/navigation-structure/contracting/contracting-opportunities)

You will find links to additional procurement-related programs and assistance such as: Subcontracting, Federal Business Opportunities, GSA Schedules, Green Contracting Opportunities, Federal Procurement Database Systems - Next Generation, USA Spends, Contracting of Manufacturing, Contracting Opportunities for Energy-Efficient Businesses. For Federal Agency Acquisition Forecasts of upcoming government contract opportunities go to the website: [https://www.acquisition.gov/comp/procurement_forecasts/index.html](https://www.acquisition.gov/comp/procurement_forecasts/index.html) and ‘click on’ the agency you are interested in doing business with.

The SBA also offers a wide array of self-paced, on-line courses and training resources through our Small Business Training Network (SBTN). The SBTN is a virtual campus providing quality and targeted online training to meet the information needs of prospective and existing small business owners. Go to [http://www.sba.gov/content/online-courses-government-contracting](http://www.sba.gov/content/online-courses-government-contracting) to see the current course listings.

2. Obtain a DUNS Number, register in the Central Contractor Registration (CCR) System and Online Representations and Certifications Application (ORCA).

If you do not already have a Data Universal Number System (DUNS) number, contact Dun & Bradstreet (D&B) at [www.dnb.com](http://www.dnb.com) to obtain one. You must be registered in CCR to be awarded a federal contract and to receive payment by the Government. Obtaining a DUNS Number is free.

Once you have obtained your DUNS number, your next step is to register in the Central Contractors Registration (CCR) database [https://www.bpn.gov/ccr/](https://www.bpn.gov/ccr/). To learn more about CCR, log onto the website. However, be sure to see step number 4, below, prior to starting registration, as you will need to determine which Federal Supply Classification Codes (FSC) [http://www.dispositionservices.dla.mil/asset/fsclist.html](http://www.dispositionservices.dla.mil/asset/fsclist.html) and North American Industry Classification System (NAICS) Codes [http://www.census.gov/ess/www/naics](http://www.census.gov/ess/www/naics) apply to your business. Questions concerning your CCR registration should be directed to the Federal Service Desk at 1-866-606-8220 or 1-334-206-7828.

NOTE: When you see “Registration Complete” at the bottom of the page, you will see two SBA symbols. Click on the one on the right hand side that says “SBA Register or Update your SBA Profile”. Once you click on this, you will get a message that states you will log out of CCR Update and you will be taken to the Small Business Administration’s Dynamic Small Business Search (DSBS) profile registration and update page. In the SBA’s DSBS profile registration and update page profile, you will list items such as your Construction and Service Bonding Levels, Quality Assurance Standards, Capabilities Narrative, Special Equipment/Material, Past Performance, etc. All this information will be accessible by contracting staff under the SBA - Dynamic Small Business Search ([http://dsbs.sba.gov/dsbs/search/dsp_dsbs.cfm](http://dsbs.sba.gov/dsbs/search/dsp_dsbs.cfm)). The CCR-SBA Profile linkage is part of a comprehensive strategy to consolidate DSBS functions to the E-Gov Business Partner Network (BPN) in order to simplify government-wide vendor registration.

NOTE: Based on the information you enter into DSBS, the SBA’s small business size logic application will populate fields indicating if a firm is self-certified as small. Only SBA can enter information with regard to a firm’s certification as 8(a) Business Development or Historically Underutilized Business Zone (HUBZone) program participant.
The government has implemented the On-line Certifications and Representations Application (ORCA) (https://orca.bpn.gov/). This initiative to replaces the paper based representations and certifications (more commonly referred to as “reps and certs”) process which was required with the submission of each sealed bid (IFB) or request for proposal (RFP). Using ORCA, a contractor can enter their reps and certs information over the web once and will then be able to submit them electronically from ORCA web and make them available to a contracting officer when required. ORCA registration is a mandatory requirement and firms must review/update their data at least once annually or as circumstances change.

CCR, DSBS and ORCA are part of the Business Partner Network (BPN) which is a component of the Integrated Acquisition Environment (IAE), one of the e-government initiatives to create integrated business processes for buyers and sellers in the federal marketplace. For more information about IAE and the systems it supports, visit the website at http://www.gsa.gov/portal/content/105036.

3. Determine if your firm qualifies for one of SBA’s Certification Programs.

Formal certification by small business concerns is not required to bid on federal contracts. Firms self-certify that they are small at the time of bid/proposal submission. The contracting officer will generally verify the firm’s size in the ORCA database (see step 2 above for info regarding ORCA).

The SBA currently has three contracts-related certification programs: 8(a), HUBZone and Women-Owned Small Business Programs. Our 8(a) Business Development program assists eligible small businesses to compete by providing them with business developmental assistance. Although primarily a business development program, there are certain contracts restricted to certified 8(a) concerns. Certification in our Historically Underutilized Business Zone (HUBZone) program entitles qualified firms to special bidding benefits in the federal contracting arena.

The SBA offers an on-line application process that makes it easier, faster and less expensive for small firms to apply for 8(a) Business Development (www.sba.gov/8abd) and HUBZone certification (www.sba.gov/hubzone) directly from SBA’s website, eliminating the need to download and complete a paper application. The applications are 100% web-based, which incorporates context sensitive help, real-time validation, printer-ready versions and integrates with the Central Contractor Registration (CCR) database.

Service-Disabled Veteran-Owned Small Business Concerns (SDVOSB) - (http://www.sba.gov/content/service-disabled-veteran-owned-small-business-concerns-sdvosbc) - Although not a formal certification program, Public Law 108-183 dated Dec 16, 2003, SBA announced a new procurement program to boost federal contract opportunities for service-disabled veteran-owned small business (SDVOSB) concerns. Under the rule, contracting officers may restrict contract awards to SDVOSBs where there is a reasonable expectation that two or more SDVOSB concerns will submit bids at a fair market price. If the anticipated contract price will not exceed $3.5 million (or $6 million for manufacturing contracts), the new rules allow for a sole-source award, if there is not a reasonable expectation of competitive bids/offers from two or more SDVOSB concerns. In addition, the rule allows SDVOSB concerns to self-certify. Any challenge to a concern’s status as a small business or as a SDVOSB must be referred to the SBA for resolution. (Note: the Department of Veterans Affairs (VA) has authority to set-aside requirements for both Veteran-owned Small Businesses (VOSBs) as well as SDVOSBs. For more information, go to http://www.vetbiz.gov/. The principal purposes of the VetBiz website are to provide information about the VIP verification process; to assist Veteran business owners in registering their business in the Secretary’s Database of Veteran-owned small businesses and to enable VA contracting officers to easily identify service-disabled Veteran-owned small businesses (SDVOSBs) and VOSBs eligible for procurement opportunities.)

Women-Owned Small Business (WOSB)/Economically Disadvantaged Women-Owned Small Business (EDWOSB) Program-(http://www.sba.gov/content/contracting-opportunities-women-owned-small-businesses) On October 7, 2010, the U.S. Small Business Administration published a final rule aimed at expanding federal contracting opportunities for women-owned small businesses (WOSBs). The Women-Owned Small Business (WOSB) Federal Contract program authorizes contracting officers to set aside certain federal contracts for eligible Women-owned small businesses (WOSBs) or Economically disadvantaged women-owned small businesses (EDWOSBs). (EDWOSBs also qualify as WOSBs, so only 1 certification is required). Those firms can self-certify their status by providing documentation demonstrating eligibility or can use the services of an SBA approved 3rd Party Certifier. Log onto the SBA’s WOSB/EDWOSB to learn more about this Program, including a list of those eighty-three 4 digit NAICs codes for which contracting officers may set aside contracts, so that you can determine if your firm qualifies for participation. Your firm must have its documents demonstrating that it meets the criteria as either a WOSB or EDWOSB in the SBA repository, which you will make available to a contracting officer if you are in line for a set-aside award. To access the repository, firms must have an SBA General Login System (GLS) account. It’s free to sign up for a GLS account. Go to https://eweb.sba.gov/gls for information and registration.
4. Identify your product or service.

It is essential to know the Federal Supply Classification Codes (FSC) and North American Industry Classification System (NAICS) Codes for your product or service. Many government product/service listings and future procurements are identified by FSC and contracting officers often use NAICS codes when searching for sources in CCR. To identify FSCs applicable to your company, log onto http://www.dispositionservices.dla.mil/asset/fsclist.html. Detailed information regarding NAICS can be found on the SBA website at http://www.sba.gov/content/table-small-business-size-standards.

5. Identify current federal procurement opportunities.

Federal Business Opportunities (FedBizOps) https://www.fbo.gov/ – the designated government-wide point of entry – is the exclusive official source for public access to notices of federal contracting actions over $25,000. (Agencies are also encouraged to use FedBizOps to provide notices for actions of $25,000 or less). Once you identify those agencies and buying offices that purchase your products and services, it’s a good idea to contact them directly to learn more about upcoming procurements (i.e., procurement forecasts) posted on websites or electronic bulletin boards. FedBizOps allows businesses to sign up for automatic e-mail notifications of open and upcoming contract actions. See the FedBizOpps (FBO) website for guidance.

The government is encouraging agencies to utilize environmentally-friendly oriented products and services (Buy Green). To learn more about the government’s Buy Green/Comprehensive Procurement Guideline, log onto http://www.sba.gov/content/green-contracting-opportunities.

The SBA has established a Disaster Contracting Assistance Center (DCAC) to provide a central point of reference for small businesses, particularly for firms owned by disadvantaged, women and veteran businesses, to register for and learn about federal contracting opportunities related to disasters. Business owners can visit the website at www.disastercontractingassistance.gov for a detailed look at how to seek government disaster related contracts. The site also provides

6. Familiarize yourself with the government’s contracting procedures.

Be familiar with Federal Acquisition Regulations (FAR) (https://www.acquisition.gov/far/index.html) and the Defense Federal Acquisition Regulation Supplement (DFARS) www.acq.osd.mil/dpap. You can also get access to other federal agency’s FAR supplements from their respective webpage. The “Where in Federal Contracting” website, which can be accessed at www.wifcon.com, provides quick and easy access to acquisition information such as contracting laws and pending legislation, current and proposed regulations, guidance, courts and boards of contract appeals, bid protest decisions, links to contracting newsletters, and selected analysis of federal acquisition issues. Search engines such as “Google” can also be useful in searches for contracting information. For Service or Construction firms: The Department of Labor provides a single location for identifying the appropriate Service Contract Act (SCA) and Davis-Bacon Act (DBA) wage determinations (WDs) for each official contract action. The website http://www.wdol.gov/ is available to the general public. Guidance in selecting WDs from this website is provided in the WDOL.gov User’s Guide.

The General Services Administration (GSA) manages Multiple Award Schedule (MAS) contracts, also known as Federal Supply Schedule (FSS) contracts. Under MAS/FSS, contracts are awarded to multiple companies supplying comparable products and services at pre-negotiated prices, terms and conditions. Once GSA awards the contracts, federal contracting officers and other authorized users have access to the entire product list. Contracting officers may conduct set-asides utilizing MAS/FSS contracts. Many federal purchases are, in fact, orders made against MAS/FSS contracts. Contact the General Services Administration (GSA) for information on how to obtain a MAS/FSS contract or visit http://www.gsa.gov/portal/content/198005. (Be sure that your marketing information and CCR profile contains information on any MAS/FSS contracts held by your firm).

8. Seek additional assistance as needed in the federal marketplace.

There are a number of important resources that are available to provide you with hands-on assistance in the federal marketplace:

-SBA Procurement Center Representatives (PCRs) and Commercial Market Representatives (CMRs) SBA has a nationwide cadre of procurement professionals who are charged with assisting small businesses and acting as their advocates at both the prime and subcontracting levels. PCRs assist small firms interested in doing business as prime contractors directly with federal agency buying offices.

CMRs work with those small firms interested in identifying subcontracting opportunities with large businesses that have been awarded a federal contract. To identify the PCR or CMR located nearest to you, visit: http://www.sba.gov/content/government-contracting-field-staff-directory

-Procurement Technical Assistance Centers

Procurement Technical Assistance Centers (PTACs) are located in most states. PTACs, funded by the Department of Defense, provide technical contracting and marketing assistance to small businesses wishing to do business with any federal agency. They provide training and counseling on marketing, financial, and contracting issues at minimal or no cost. To identify a local PTAC, go to: [http://www.dla.mil/SmallBusiness/Pages/ProcurementTechnicalAssistanceCenters.aspx](http://www.dla.mil/SmallBusiness/Pages/ProcurementTechnicalAssistanceCenters.aspx)

-Small Business Development Centers

offer training and counseling services to small businesses and would-be entrepreneurs. They offer free, one-on-one consulting, and training programs on a variety of issues, including marketing, regulatory compliance and international trade. Go to [http://www.sba.gov/content/small-business-development-centers-sbdc](http://www.sba.gov/content/small-business-development-centers-sbdc) to find an SBDC near you.

-Small Business Specialists

are located at each federal buying office and can provide assistance on how to market to that Agency. A complete listing of Small Business Specialists can be obtained from each agency’s website. Links to the homepages of every military activity/agency can be found on the DOD website at [http://www.defense.gov/](http://www.defense.gov/). This information is invaluable when researching the federal marketplace and identifying your target market, e.g., those buying office that buy your products and services. Links to [Agency Recurring Procurement Forecasts](http://www.acquisition.gov/comp/procurement_forecasts/index.html) are located at [http://www.acquisition.gov/comp/procurement_forecasts/index.html](http://www.acquisition.gov/comp/procurement_forecasts/index.html). Additional program information may be located on each agency’s website.

-Directors of Federal Agency Office of Small and Disadvantaged Business Utilization (OSDBU)/Directors of the Office of Small Business Programs (OSBP) ([http://www.osdbu.gov/](http://www.osdbu.gov/)) for Defense agencies, are in place at the headquarters level of each federal agency and department. They are responsible for ensuring that small businesses are afforded an equitable opportunity to compete for prime contracting opportunities. The OSDBU Directors have formed an Interagency Council which meets regularly to, among other functions, identify procurement practices that will enhance small business participation for the government’s procurement opportunities. A listing of each of the OSDBU offices is located on the OSDBU website on the members’ page at [http://www.osdbu.gov/members.html](http://www.osdbu.gov/members.html).

-SBA’s Women Business Centers (WBC) at [http://www.sba.gov/content/womens-business-centers](http://www.sba.gov/content/womens-business-centers) is the SBA’s Business Center Program appraises of national networks of WBC’s providing business training, counseling and other resources to help women start and grow successful businesses. Additionally, the [Gateway for Women-owned Businesses Selling to the Federal Government](http://www.womenbiz.gov) are excellent resources for women-owned firms seeking to do business with the government.

-SCORE – Counselors to American’s Small Business (SCORE) – [www.score.org](http://www.score.org) – is a nonprofit association dedicated to educating entrepreneurs and the formation, growth and success of small businesses. SCORE provides mentoring to both start-up and existing small businesses through face-to-face and email counseling as well as educational workshops. All counseling is provided free of charge. Explore the SCORE website to find a chapter and counselor near you.

9. Explore subcontracting opportunities.

Subcontracting can be an excellent entre into contracting. Regardless of your product or service, it is important that you do not neglect our very large secondary market. Subcontracting Opportunities with Federal Prime Contractors. Be sure to check out our website at [http://web.sba.gov/subnet/search/index.cfm?CFID=454251&CFTOKEN=4bf46047a1572584-70F67CD5-B06A-8428-EF5BB5D53590AB78](http://web.sba.gov/subnet/search/index.cfm?CFID=454251&CFTOKEN=4bf46047a1572584-70F67CD5-B06A-8428-EF5BB5D53590AB78). The SBA/GC Subcontracting Opportunities Directory lists, by state, large business Federal Prime Contractors along with the name and telephone number of each firm’s Small Business Liaison Officer (SBLO). We encourage you to investigate potential opportunities with these firms. Many of these firms also have websites that may be useful and we encourage you to contact their respective SBLO for subcontracting and teaming opportunities. Many major Large business prime contractors use the SBA’s SUB-Net to post subcontract opportunities. SUB-Net can be accessed at [http://web.sba.gov/subnet/search/index.cfm](http://web.sba.gov/subnet/search/index.cfm).

10. Investigate other federal, state and local programs.

There are several other programs that may be of interest to you, such as individual agency Mentor-Protégé Programs ([http://www.sba.gov/content/mentor-prot%C3%A9g%C3%A9-program](http://www.sba.gov/content/mentor-prot%C3%A9g%C3%A9-program)) and the SBA’s Small Business Innovation Research Program ([http://www.sba.gov/category/navigation-structure/contracting/working-with-government/small-business-innovation-research](http://www.sba.gov/category/navigation-structure/contracting/working-with-government/small-business-innovation-research)). Information on these and other programs is available on the SBA website at [http://www.sba.gov/aboutsba/shapograms/gc/programs/index.html](http://www.sba.gov/aboutsba/shapograms/gc/programs/index.html). Don’t overlook state and local government procurement opportunities. Contact your state and local government contracting agencies to learn more about how they do business.

11. Accept credit cards.

More than 250,000 federal employees are using the GSA SmartPay cards. As a vendor, you can maximize your ability to capture government sales by accepting credit cards (Visa, MasterCard and Voyager). If you already accept these cards, you have no additional work to do. If you do not accept these cards, contact a bank to establish a merchant account. For more information, visit GSA’s website at [http://www.gsa.gov/portal/content/104616](http://www.gsa.gov/portal/content/104616).
Market, Market, Market!

The 3 most important words to remember in order to be successful in the Federal Procurement Arena is market, market, market. Hopefully, this guide provided you with some good ideas on how to market your firm. After you have identified your customers, researched their requirements, and familiarized yourself with the government’s procurement regulations and strategies, it is time to market your product or service. Present your capabilities directly to those buying offices that purchase your products or services. Realize that, like you, their time is valuable and if the match is a good one and you can provide them with a cost-effective, quality solution to their requirements, the contract could be yours. Good luck and while you’re ultimately responsible for your own success—you’re not alone.
