CDC/504 Loan Program

The SBA's 504 Loan Program provides approved small businesses with long-term, fixed-rate financing used to acquire fixed assets for expansion, modernization or energy efficiency. 504 loans are made available through Certified Development Companies (CDCs), SBA's community based partners for 504 loans. 504 loans are typically structured with SBA providing 40% of the total project costs, a participating lender covering up to 50% of the total project costs, and borrower contributing 10% of the project costs. Under certain circumstances, a borrower may be required to contribute up to 20% of the total project costs.

Micro Loan Program

The SBA's Microloan Program provides small, short-term loans to small business concerns and certain types of not-for-profit child-care centers. The SBA makes funds available to specially designated intermediary lenders, which are nonprofit community-based organizations with experience in lending as well as management and technical assistance. These intermediaries make loans to eligible borrowers. The maximum loan amount is \$50,000, but the average microloan is about \$13,000.

Microloans may be used for the following purposes:

- Working capital;
- The purchase of inventory or supplies;
- The purchase of furniture or fixtures;
- The purchase of machinery or equipment.

Proceeds from a microloan cannot be used to pay existing debts or purchase real estate.
