**The SBA’s SBIC Portfolio**

**Program Performance**
The SBIC Program is a multi-billion dollar, government-sponsored investment fund created in 1958 to bridge the gap between entrepreneurs’ need for capital and traditional sources of financing:

- The program invests long-term capital in privately-owned and managed investment firms licensed as Small Business Investment Companies (SBICs)
- For every $1 an SBIC raises from a private investor, the SBA will provide $2 of debt capital, subject to a cap of $150 million
- Once capitalized, SBICs make debt and equity investments in some of America’s most promising small businesses, helping them grow
Our Results in Fiscal Year 2012

The SBA issued $\textbf{1.92 billion}$ in new commitments to SBICs

$\textbf{3.13 billion}$ in financing dollars were invested in small businesses

937 small businesses were financed, 29% of which were in low-to-moderate income areas or in minority or women-owned businesses

...financed at \textit{ZERO} cost to taxpayers...
Since its inception, the SBIC program has helped finance thousands of small businesses. The following is a small sample of SBIC success stories.

- The Application Process & Investment Criteria

The SBA's SBIC Portfolio

Program Performance
In January of 2011, the White House and the SBA announced the availability of two, new SBIC Licenses, each building on the success of the Standard Debenture License.

### Standard License
- **Investment Strategy:** For applicants seeking the broadest investment mandate, with few restrictions on their strategy or capital allocation.
- **Application Process:** - Rolling
- **Processing Time:** - Normal
- **Leverage Available:** - Two Tiers - Cap of $150 million

### Impact Investment License
- **Investment Strategy:** Applicants commit to investing 50% of their capital in clean energy, education, low income areas or rural areas.
- **Application Process:** - Rolling
- **Processing Time:** - Expedited
- **Leverage Available:** - Two Tiers - Cap of $150 million

### Early Stage License
- **Investment Strategy:** Applicants committed to deploying at least 50% of their capital in early-stage companies.
- **Application Process:** - Single Deadline
- **Processing Time:** - Normal
- **Leverage Available:** - One Tier - Cap of $50 million
## SBIC Leverage Products

<table>
<thead>
<tr>
<th>Standard Debenture</th>
<th>Discounted Debenture</th>
</tr>
</thead>
</table>

**Amount:** Typically 2x (but up to a maximum of 3x) the capital raised from private investors

**Term:** 10 years with principal payment due at maturity
NO prepayment penalty

**Interest:** Semi-annual payment based on a spread above the 10-year Treasury note

**Fees:** 1% commitment fee; 2% drawdown fee
Annual fee due semi-annually

**Uses:** Investments in “small businesses” as defined by the SBA Office of Size Standards and federal regulations, generally in later stage and “buyout” transactions. Real estate and project finance generally prohibited.

## Some Major SBIC Investment Requirements

### Instruments

**SBICs may invest using:**
- Loans
- Debt with Equity features
- Equity

**SBICs may not invest:**
- More than 10% of the proposed total fund size in a single company without SBA approval

### Geography

**SBICs may invest:**
- In businesses located anywhere in the U.S. or its territories

**SBICs may not invest:**
- In businesses with over 49% of their employees located outside the U.S.

### Size

**SBICs must invest in Small Businesses, defined as:**
- Businesses with a tangible net worth < $18 million **AND** average after-tax income for prior two years of < $6 million
- **OR** Businesses qualifying as “small” under SBA’s N.A.I.C.S. Industry Code standards

**SBICs must make 25% of their financings in “Smaller Businesses”, defined as:**
- Businesses with a tangible net worth < $6 million **AND** average after-tax income for prior two years < $2 million

### Use of Proceeds

**SBICs may not invest in:**
- Project Finance
- Real Estate
- Financial Intermediaries

### Control

**SBICs may:**
- Control small businesses for up to seven years, a limit that may be extended with SBA approval
Phase I: The Application Process

Part I – Office of Program Development:

- Applicants submit a “Management Assessment Questionnaire”, which includes:
  - Description of proposed fund strategy
  - Detailed investment track records of fund management
  - List of references to guide due diligence
  - Due diligence documents, term sheets and other fund documentation
- Analysts review track record and conduct extensive due diligence
- Investment Committee approval required to move forward
- Target Time Frame: 8 weeks
Phase I: The Application Process

**Analyst Review**

- **Due Diligence**
- **Management Qualifications Analysis**
- **Performance Analysis**

**Phase I – Key Evaluation Criteria for Analyst Review:**

**Manager Assessment**
- Proven investment experience
- Balanced track record among principals
- Evidence indicating a cohesive and effective team
- Principals with strong, positive reputations
- Robust investment and due diligence process

**Performance Analysis**
- High quality track record with transactions analogous to those proposed for the SBIC strategy
- Evidence past returns could have supported SBIC cost of leverage and met or exceeded targets
- Analysis of fund performance measured against peer funds

**Strategy Evaluation**
- Clearly articulated focus and investment thesis
- Evaluation of targeted transaction size, investment themes and type instruments to be used
- Clear indications proposed investments will fund eligible “small businesses”

**Fund Structure & Economics**
- Structure of LP preferred return
- GP carry, management fees and vesting schedules in line with industry norms
- Alignment of carry distribution with time dedication and level of responsibility
- Adequate fund infrastructure
Phase II – Office of Licensing:

- Prior to the submission of the Licensing Application, applicants must have secured private capital commitments in an amount sufficient to ensure the fund’s financial viability.
- Analysts review the application, business plan, financial projections, ownership diversity and coordinate a legal review with SBA’s Office of General Counsel.
- Licensing is contingent on the approval of the SBA’s Divisional Committee, Agency Committee and the Deputy Administrator.
- Target Time Frame: 6 months.
Phase III – Office of Operations:

- After an investment fund obtains an SBIC license it moves into the Investment Division’s Office of Operations, where the SBA monitors its performance.

- Analysts in the Office of Operations perform a variety of tasks:
  - Assist SBICs with the draw down of SBA-guaranteed leverage.
  - Review and seek authorization for potential conflicts-of-interest.
  - Process requests for the transfer of LP interests.
  - Monitor financial health of SBICs.

- Target Time Frame: Life of the Fund (~10 years)
Distributions to LPs and the SBA

Like other private equity funds, SBIC G.P.s have discretion regarding the use of proceeds when investments are exited. The graphic below illustrates the three options available to SBICs and the minimal role the SBA plays in the process.

“R.E.A.D.” Covenant Check
Before a distribution to LPs can be made, the SBIC must ensure it has positive “R.E.A.D.,” calculated as follows:

\[
\text{Net Realized Earnings} - \text{Unrealized Depreciation} \quad \Rightarrow \quad \text{Retained Earnings Available for Distribution}
\]

1. **Distribute**
   - If an SBIC has positive R.E.A.D., it is free to make distributions to its LPs according to the profit-sharing formula outlined in the Limited Partnership Agreement.

2. **Recycle**
   - The SBIC may recycle proceeds of realized investments for use in new or follow-on investments per the provisions of the fund’s Limited Partnership Agreement.

3. **Distribute**
   - The SBIC may, at any time, pay or prepay an SBA debenture without penalty.

The Application & Investment Processes

The SBIC Life Cycle

The SBA’s SBIC Portfolio
- Debenture Portfolio by Instrument
- Debenture Portfolio by Sector
- Debenture Portfolio by Geography

Program Performance
Given the structure of the SBA’s lending, debt dominates most debenture SBICs portfolios, but managers will often structure deals to include equity positions or will attach equity “kickers” to enhance returns.
The need for capital among small businesses is not limited to one, or even a few sectors of the economy. In fact, small businesses across the spectrum of American industry are connecting with debenture SBICs to access the capital they need to expand and grow.
While some SBIC managers source investments in their home regions, others seek opportunities regardless of location. Combined, their efforts distribute capital to small businesses across the country.

Not Meaningful (Avg. TVPI: 0.46x)
Low Cost Capital

The SBA’s leverage commitments to licensed SBICs are funded through the sale of government-backed securities called “trust certificates.” Every March and September, these commitments are pooled and sold on the open market at a premium over 10-year Treasury Notes.
Debenture and Other SBIC financings to small businesses, as well as SBA commitments to SBICs... both reached record levels in FY 2010, FY 2011 and FY 2012.
The Advantages of an SBIC

Strong, stable returns
Very low cost of capital provides SBICs pricing flexibility across cycles and 10 year debenture term avoids problem of duration mismatch.

Flexible Fund Structure
The SBA licenses a variety of fund structures, including SBICs established as “drop-down” or “side-car” funds attached to an existing investment fund.

Regulatory Benefits
SBICs are exempt from SEC registration requirements. Yet, LPs benefit from the careful monitoring done by the SBA, greatly reducing the risk for fraud and abuse.

Rapid Deployment of Funds
The SBA generally provides leverage up to 2x the private capital commitments an SBIC has raised, but selectively awards leverage at 3x. Fund managers are thus able to minimize the time they spend fundraising and focus their efforts on investing.

Community Reinvestment Act
Investments in Small Business Investment Companies are presumed qualified for the purposes of the Community Reinvestment Act.

The Opportunity of “Small Business”
Despite being the bedrock of the American economy, the small business community is underserved and represents a value opportunity for investors.
