New Jersey District Office Loan Approvals

The information being provided is derived solely from Agency records that are submitted by the Agency's participant lenders engaged in making SBA guaranteed loans. This information is collected by the lenders from SBA loan applicants who provide it on a voluntary basis. It is then forwarded by the lenders to SBA. Since the information is given by the loan applicants on a voluntary basis it is not necessarily inclusive of all SBA borrowers, nor is its accuracy checked by the Agency. Accordingly, SBA cannot make any representation as to the completeness or accuracy of the information provided to the American Banker and in view of this the Agency takes no responsibility for any further dissemination of this information.

Moreover, the information provided relates solely to the actions of particular lenders with respect to SBA-guaranteed loans. The data does not reflect the nature or extent of those lenders' service to the specified minority communities through actions that are not related to SBA programs. Further, the lending data being provided is gross data only and should not be taken as indicative of the nature and extent of the institution's "commitment" to minority lending. For example, some banks are located in regions with low proportions of certain minority communities and thus, should not be compared to those institutions based in regions with larger minority communities.
