**Comments:**

## Graded Agency:

NASA has maintained its small business score of a "B" in FY 2016. Despite not meeting small business socioeconomic categories goals in FY 2015 and FY 2016, NASA was able to increase both our prime (direct awards) and subcontracting awards to small businesses. In FY 2016, NASA awarded approximately \$5.2 billion to small businesses which equates to approximately 1/3 of our total contracting dollars. NASA awarded approximately \$2.7 billion directly to small businesses and an additional \$2.5 billion through subcontracts from our major suppliers. This represents an approximate \$316 million dollar increase from FY 2015 or a 6.4% increase awarded to small businesses in FY 2016.

To improve our small business subcategory performance, NASA will continue to host Industry Days focusing on the areas NASA did not achieve our goals in FY 2016. During FY 2016 NASA partnered with economic development corporations and small business associations to present two (2) regional outreach events in cities not necessarily close to a NASA center in an effort to increase our small business industrial base.

The Agency anticipates partnering with area Procurement Technical Assistant Centers in FY 2017 to present additional outreach opportunities.
