4. Indicator Overview or Summary (measure description & relevance)	Measure is an indicator of productivity in outreach efforts by Advocacy's professional economists. Advocacy's statutory charter (see 15 U.S.C. 634a et seq.) requires the dissemination of information useful to its stakeholders, and the office strives to promote awareness of its work. Although this is an output measure, outreach efforts broaden knowledge of Advocacy's work, alert stakeholders to regulatory or policy issues that could affect them, and solicit input from these stakeholders for consideration by Advocacy. Advocacy economists are encouraged to share Advocacy's work and their own research with other professionals, policymakers and opinion leaders, with the outcome that such two-way communication between Advocacy and its stakeholders can improve decision-making by both.
