

Connecticut

331,386 Small Businesses

69,464 Small Businesses with Employees

261,922 Small Businesses without Employees (Nonemployers)

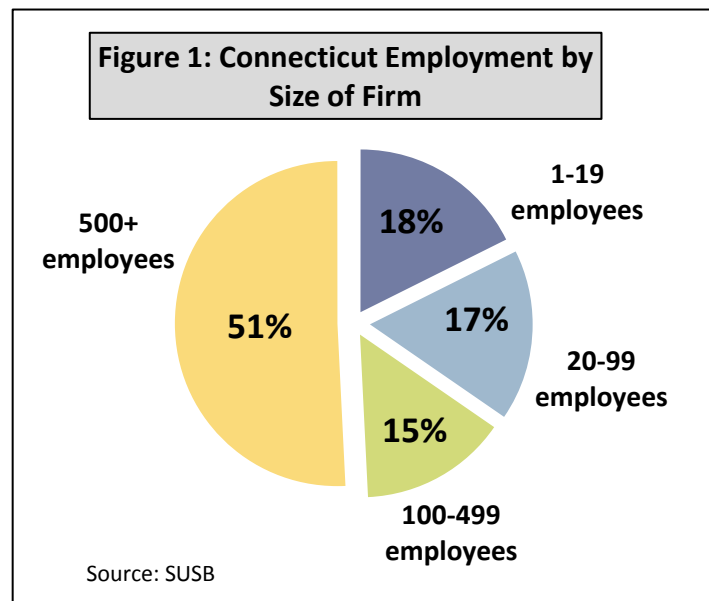

720,404 Workers Employed by Small Businesses

State Economy Overall

- Connecticut's economy grew at a slower rate than the United States in 2013. Connecticut's real gross state product increased by **0.9 percent** compared to **2.2 percent** for U.S. gross domestic product. (Source: BEA)
- The employment picture in Connecticut has improved. The unemployment rate in Connecticut declined from **7.6 percent** in October 2013 to **6.4 percent** in October 2014. This is above the national average of **5.8 percent** for the same time period. (Source: BLS)

Employment

- Connecticut's small businesses employed about half or **720,404** of the state's private workforce in 2012. (Source: SUSB)
- Almost all firms with employees are small. They make up **97.0 percent** of all employers in the state. (Source: SUSB)
- Firms with fewer than 100 employees have the largest share of small business employment. **Figure 1** offers further detail.
- In Connecticut, small businesses created **21,051** net new jobs in 2012. The biggest gain was in the smallest firm size category of 1-4 employees. (Source: BDS)
- The number of people who were primarily self-employed in 2013 increased by **5.9 percent** relative to the previous year.
- The state's private-sector employment growth increased by **3.2 percent** over the 12-month period ending in October 2014; this was above the national average growth rate of **2.6 percent**. (Source: BEA, BLS)

The *Small Business State and Territory Profiles* report on the economic status of small business from 2007 to 2014. They include information on the number of firms, employment, demographics and other topics using the most recently available government data. They are a reference tool for researchers, policymakers, and small entities who are interested in how small firms are performing regionally or nationally. *Note that this report defines small businesses as firms with fewer than 500 employees.*

Income and Finance

- The number of banks reported in the Call Reports between June 2013 and June 2014 declined. (Source: FDIC)
- In 2012, **71,763** loans under \$100,000 (and valued at **\$898.3 million**) were issued by Community Reinvestment Act lending institutions in Connecticut. (Source: FFIEC)
- The median income for individuals who are self-employed at their own incorporated businesses for the past 12 months was **\$59,067** in 2013. For individuals self-employed at their own unincorporated firms, this figure was **\$29,895**. (Source: ACS)

Note: Median income represents earnings from all sources. Unincorporated self-employment income includes unpaid family workers, a very small percent of the unincorporated self-employed.

Business Owner Demographics

- **Table 1** shows the top industry for nine business owner demographics. For example, **29.7 percent** of female-owned businesses were in the professional, scientific, and technical services industry, and female-owned firms made up **17.3 percent** of this industry.

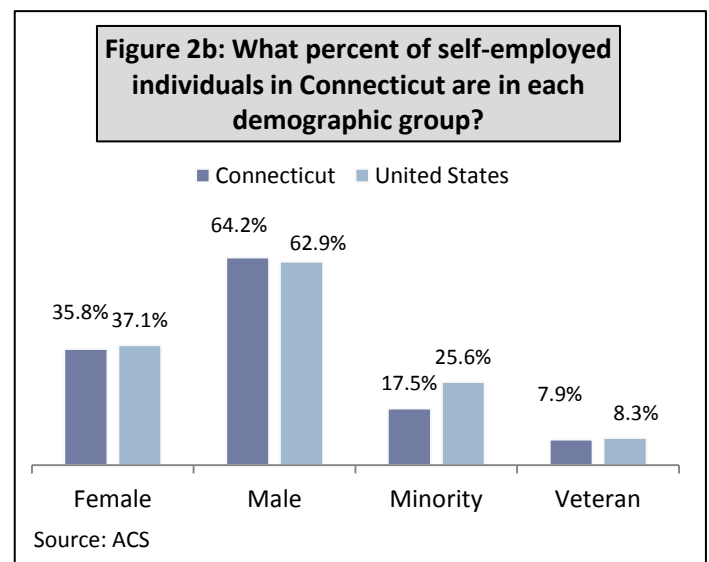

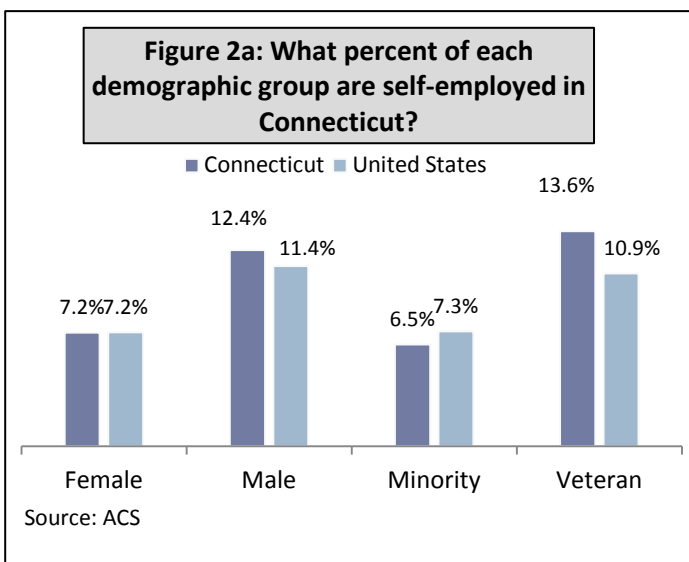

Table 1: Top Industry by Demographic Group in Connecticut, 2007

Demographic Group of Business Owners	Most Common Industry	% of Industry in Demographic Group	% of Demographic Group in Industry
Female	Prof., sci., & tech. services	29.7	17.3
Male	Construction	86.8	20.2
American Indian and Alaska Native	Other services	1.1	19.4
Asian	Retail trade	6.3	17.7
Black or African American	Health care & social assistance	10.7	20.2
Native Hawaiian and Other Pacific Islander	*	*	*
White	Prof., sci., & tech. services	91.7	17.1
Hispanic	Admin., support, etc. services	10.3	17.7
Veteran	Prof., sci., & tech. services	12.6	21.9

*Indicates that the sample size was too small to be representative of the population. For more detailed information on businesses in your state, see www.sba.gov/advocacy/847/841921.

- Figures **2a** and **2b** show the demographic makeup of the self-employed in four demographic groups. For example, **Figure 2a** shows that **7.2 percent** of females were self-employed, and **Figure 2b** shows that **35.8 percent** of all self-employed people were female.

Business Turnover

- In 2010, **5,197** establishments opened in Connecticut, and **74.4 percent** survived through 2012. In 2013, **6,762** establishments opened, and **82.1 percent** survived through 2014. (Source: BLS, BED)
- In the 1st quarter of 2014, **2,921** establishments opened and **2,943** closed in the state of Connecticut. (Source: BED)
- Business bankruptcies declined from 2010 to 2014, signaling a stronger state economy. (Source: U.S. Courts)

International Trade

- A total of **5,895** companies exported goods from the state in 2012. Of these, **5,232** or **88.8 percent** were small firms; they generated over one-fifth (**23.3 percent**) of the state's total known export value. (Source: ITA)

Small Businesses and Employment by Industry

- **Table 2** ranks the state's industries by the number of small employer firms. For comparison, the three most common industries for small employer firms across the United States are professional, scientific, and technical services; other services (except public administration); and retail trade.

Table 2: Number of Connecticut Small Firms by Industry, 2012
(ranked by number of small employer firms)

Industry	Employer Firms With 1-499 Employees	Employer Firms With 1-19 Employees	Nonemployer Firms	Total Small Firms
Other services (except public admin.)	8,639	8,121	29,916	38,555
Professional, scientific, & tech. svcs.	8,355	7,702	45,034	53,389
Retail trade	8,283	7,434	18,907	27,190
Construction	7,779	7,313	31,688	39,467
