Dear Friends,

**Thank you all for gathering today to spread the word about supporting New Hampshire's small businesses! Please know that I join you in spirit as we highlight and celebrate the good work of these shops and restaurants that, in many communities, are local institutions. In New Hampshire, Small Business Saturday is particularly special. The Granite State is a small business state. Independently owned restaurants, coffee shops, boutiques and stores are fundamental to our economy and our communities, not only providing critical economic engines for cities and towns across the state, but also serving as cultural hubs and gathering places for friends and neighbors. Small Business Saturday is a reminder that we need to support the shops that make New Hampshire special – not just during the holidays, but throughout the year.**

*Shopping small is not just about ensuring that we have vibrant downtowns or a strong economy. It is also about supporting the entrepreneurs in our community who take great pride in their work, and pour their passion, expertise and an attention to detail into each product. Simply put, New Hampshire small businesses offer high quality goods and services. This is a testament to our small business owners, who labor long hours to keep their businesses running, and still know your name when you walk in the door.*

*As a member of the Senate's Small Business Committee, I have no higher priority than to support New Hampshire's small businesses in the challenges they face, especially as they navigate their way through a devastating pandemic. I will continue to do all that I can to ensure that you all have everything you need to thrive.*

*Happy Small Business Saturday! I wish you all the best as you continue your good work.*

Sincerely,

**Jeanne Shaheen United States Senator**
