

Area III Government Contracting Field Staff Directory

Procurement Center Representatives, Commercial Market Representatives, Certificate of Competency Specialists, Size Determination Specialists, and Industrial Specialists-Forestry

Explanation of Acronyms

PCR - Procurement Center Representative - PCRs increase the small business share of Federal procurement awards by initiating small business set-asides, reserving procurements for competition among small business firms; providing small business sources to Federal buying activities; and counseling small firms. In addition, PCRs, advocate for the breakout of items for full and open competition to affect savings to the Federal Government.

CMR - Commercial Market Representative - CMRs are stationed in area offices, conduct compliance reviews of prime contractors, counsel small businesses on how to obtain subcontracts, conduct matchmaking activities to facilitate subcontracting to small business, and provide orientation and training on the Subcontracting Assistance Program for both large and small businesses.

COC- Certificate of Competency - The COC program allows a small business to appeal a contracting officer's determination that it is unable to fulfill the requirements of a specific Government contract on which it is the apparent low bidder. When the small business applies for a COC, SBA's industrial and financial specialists conduct a detailed review of the firm's capabilities to perform on the contract. If the business demonstrates the ability to perform, SBA issues a COC to the contracting officer requiring the award of that specific contract to the small business.

SIZE- Small Business Size Determination- The Office of Government Contracting determines whether a particular business qualifies as a small business under the existing size standards set forth in the Code of Federal Regulations when an interested party protests the size status of a business responding to a Government solicitation that is a small business set-aside.

Industrial Specialist (Forestry) - The Federal Government sells large quantities of natural resources such as timber that is authorized for sale in accordance with public law. SBA cooperates with other federal agencies to channel a fair share of this property and resources to small businesses. The Industrial Specialists (Forestry) work with the U.S. Forest Service to ensure that Federal timber sales are set aside for small business to the maximum extent possible.

AREA III: Includes the states of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina and Tennessee

AREA DIRECTOR

CAROL L. THOMPSON

Office of Government Contracting
U.S. Small Business Administration
233 Peachtree St., NE, Suite 1900
Atlanta, GA 30303
