EMERGING 200: TAKING THE INITIATIVE

Developed by the U.S. Small Business Administration (SBA), this is an intensive 13-week training initiative to accelerate high-potential small businesses' growth. This comprehensive curriculum provides the tools to catapult your company to the next level and help it emerge as growing, self-sustaining businesses in your community. In addition to the SBA, the training is supported by a coalition of local economic champions and mentored by business advisors with invaluable insight and expertise.

QUALIFYING FOR e200 TRAINING

We are looking for businesses owned by a Native American (51% or more) for at least 3 years, with at least one employee, and with annual revenues of \$300,000 or more. This training is not for start-ups; it's geared towards businesses that are ready to grow!

A ROBUST NETWORK OF SUPPORT

The Oklahoma SBA District Office has forged a coalition of key business leaders, government organizations and professional business associations. These individuals and organizations are involved with the *e200* initiative to encourage the success of its participants.

THE COST OF e200

The dollar cost to deliver *e200* is assumed by the U.S. Small Business Administration and its partners as an investment in your success and the future of your communities. Your costs to participate in the *e200* course series are your **time** and **commitment** to complete the curriculum. You must be ready to *focus* and *work hard* on your future success!
