# Congratulations!

The U.S. Small Business Administration launched its 2015 Emerging Leaders executive level training initiative, formerly known as e200. This initiative offers executives of established businesses the framework, tools and resource network needed to position their firms for growth. Participants engage in a proven, practical curriculum incorporating classroom, homework, and peer CEO mentoring groups. Atlanta was one of the original ten sites.

Today, with the Emerging Leaders initiative now in 48 communities nationwide, we are proud to graduate the eighth Atlanta class. Nineteen small business owners from around the metro area successfully completed the seven months of intensive business training instructed by Mr. Russ Young.
