Comments:

In FY 2011 the Department of Education (Department) met its overall prime contracting goal and improved in seven of ten assessed prime and subcontracting categories as compared to FY 2010. It is noteworthy that actions were recently taken by two major Department contractors to correct their FY 2011 subcontracting report submissions. While these revisions were made subsequent to SBA's Scorecard data analysis, the overall result is a significant increase in the Agency's FY 2011 subcontracting achievement, which we believe reflects our continued commitment and focus in this area. The Department's steadfast efforts to identify and strategically engage in areas of greatest opportunity were key to our overall improvement. The Department's comprehensive small business strategy focuses on outreach, training, advocacy, and strategic partnering. Even as our efforts have proven successful in recent years, the Department continues to engage and execute a variety of initiatives designed to yield overarching near and long-term program improvements, particularly in program areas where achievement fell short. With the support and collaboration of senior ED leadership, we remain steadfast in our efforts to build on our successes, even in the face of some significant programmatic challenges.
