ON THE COVER  Mehdi Zarhloul, courtesy of Crazy Pita Rotisserie & Grill
This year the U.S. Small Business Administration marks its 65th year helping small businesses start, grow and succeed. The Agency remains committed to its core missions: advocating for entrepreneurs and helping them access capital, government contracts, counseling and disaster assistance. As Administrator of the SBA, I am honored to serve as a member of President Trump’s cabinet and represent the interests of America’s 30 million small businesses.

Small businesses truly are the engines of our economy—and our communities. Over half of the U.S. workforce either owns or works for a small business, and small businesses create two out of every three net new jobs in the private sector. Small businesses may not put their names on stadiums and skyscrapers, but they likely put them on the uniforms of their local Little League and bowling teams. They are the delis and salons and retailers and manufacturers that make each community special. Across our great country, neighborhoods and families depend on the success of small business.

Since taking leadership of the SBA in February 2017, I have had the privilege of meeting with entrepreneurs all over the country. My goal is to visit small businesses in every one of the SBA’s 68 districts. So many of them tell me they simply would not exist without the help of the SBA—from the guaranteed loans that provided the capital they needed to realize their dreams of owning a small business, to the advice they got from our district offices and resource partners, to the disaster aid they received when it seemed all hope had been lost.

Throughout this issue of our resource guide, you will read stories of successful entrepreneurs who received assistance from the SBA. These successes are the motivation for the work we do.

As SBA Administrator, I am proud to lead a team of professionals dedicated to helping entrepreneurs turn their visions into viable businesses. All of us share the joy of watching an entrepreneur go from having a simple idea and a business plan to living the American Dream—and often becoming an employer that empowers the dreams of others. It’s clear that the strength of America’s communities is often determined by the economic opportunities available to its citizens. Small businesses invigorate neighborhoods and cities, making them vibrant places to live, work and raise a family. And we at the SBA are working to ensure small businesses have the tools and resources they need to make that happen at every stage, whether they are launching, expanding or getting through a tough time.

Of course, we can’t do it alone. We are honored to have the expertise of our resource partners, including Small Business Development Centers, Women’s Business Centers, Veterans Business Outreach Centers and SCORE chapters in communities nationwide.

As the President noted at an event he hosted at the White House with more than a hundred entrepreneurs from all over the country, “America is on the verge of a golden age for small business.” The SBA is working to continue to revitalize a spirit of entrepreneurship in America and help America’s small businesses compete in a global economy. Entrepreneurs find that owning a business is one of the most effective ways to secure a financial future for themselves, provide for their families, exercise their commitments to their communities, and drive our country’s economic growth. I encourage all entrepreneurs to leverage the opportunities detailed in this resource guide to propel their businesses forward.

Regards,
Linda McMahon
SBA Administrator

I recently completed my first year as the district director for the state of Nevada and to say it has been a very exciting and fulfilling year is an understatement. I had been previously involved with various SBA lending programs in the past and that experience prepared me for this position as district director. It remains the goal of my office to provide each aspiring entrepreneur and business owner a resource guide that will serve as a roadmap to all SBA programs and services. I hope that you find the information within this guide helpful as you seek to start, grow, or expand your business.

The SBA is the primary resource for government guaranteed and fixed-asset loan programs. The SBA serves as an integral partner with area, regional and national lenders that seek to provide competitive commercial loans using the SBA 7(a) and 504 Certified Development Company Loan programs. Access to capital remains a priority for the SBA Nevada District Office. Our efforts to increase small business lending by educating the small business borrower reflects the importance of our lending-related programs to the Nevada small business community.

In addition to these loan programs, the SBA offers an extensive network of small business counselors and trainers who exist to provide guidance to small business owners and entrepreneurs throughout Nevada. The primary organizations serving small business under the SBA umbrella include Small Business Development Centers; they provide technical assistance, counseling and training through various urban and rural offices located throughout the state. SCORE mentors offer their expansive industry experience to counsel business owners on an individual basis. The Women’s Business Center provides counseling and business planning. The SBA Nevada District Office seeks to provide the best information and guidance while working with these partners. We collaborate on training and distribution of pertinent business data. Our office hopes to use their collective efforts in public-private partnerships now under development. The Veterans Business Outreach Center is an important player in contributing to the free or low-cost services provided by all SBA programs serving the small business community.

In the area of government contracting, the SBA helps disadvantaged small businesses better access federal contract opportunities through the 8(a) Business Development Program and HUBZone certification. SBA personnel empower underserved communities to better compete in the public-sector marketplace. It’s important to note that the U.S. government is the largest single purchaser of goods and services in the world, awarding more than $500 billion annually. The federal government sets aside 23 percent of prime contracts for small businesses.

During my first year as district director, I visited almost 450 small businesses throughout the state and listened to their comments and concerns. I also understand that our willingness to work together with local, state and other federal stakeholders will only enhance the products and services we provide to our small businesses. I have witnessed our collaboration with the Procurement Technical Assistance Center, U.S. Department of Agriculture, the U.S. Department of Commerce, the Governor’s Office of Economic Development, and the Nevada Department of Business and Industry programs. These relationships bring success to the small business community.

It is my hope that the information presented in this guide will provide a path to the resources you require for your small business operation. If you require additional information, do not hesitate to contact the Nevada district office. We are here to serve you and the entire business community. The future for small business looks bright in the state of Nevada.

How SBA-backed loans helped one woman turn a flagging pest control business into an ever-expanding enterprise.

written by Zack Harold
Rebecca Fyffe first worked at ABC Humane Wildlife Control & Prevention Inc., a pest control business in suburban Chicago, Illinois, for a college summer job. She was on a different career path when she got a call from her old employer. The president of ABC needed to take a medical sabbatical, and the company wanted Fyffe to take over in his absence. Fyffe had studied public policy, pre-law, and epidemiology in addition to university-level research on pesticides. Not content with just keeping the seat warm, Fyffe began making improvements to the company’s operations during her year at the helm. “Because of that I was made CEO,” she says. That was in 2001. Fyffe was just 25 years old, the youngest pest control company CEO in the nation and one of only a few women in a business dominated by men.

She continued to look for ways to grow the company. At the time, ABC focused its efforts solely on nuisance wildlife control. Fyffe saw a lucrative opportunity in urban bird management. She had long been concerned about pigeons. Growing up, one of her young cousins contracted encephalitis from pigeon droppings, which led to epilepsy, blindness, and eventually death. Fyffe studied the birds and how to mitigate their threat, which brought her to the conclusion that improvements could be made in urban pigeon control. She found more effective solutions were needed to make the mitigation material more durable for city use. Fyffe knew she could do better, but to get the new venture off the ground, ABC needed to borrow money to invest in training, equipment, and insurance. The company was hesitant to take on the financial risk, so Fyffe offered an alternative solution: allow her to launch a new company that would specialize in pigeon management. She would run that company in addition to her duties at ABC.

She launched Landmark Pest Management in 2010 with four employees. Fyffe still needed to borrow money, which would be more difficult now that she didn’t have an established business standing behind her. Thanks to workshops hosted by the SBA-supported Women’s Business Development Center, Fyffe applied for an SBA-backed 7(a) loan through Chase Bank. A conventional loan would have allowed her to mortgage the warehouse facility she needed, but nothing more.

“We would have maxed out our ability to borrow,” Fyffe says. “That would not have worked for our business.” Because of SBA backing, Chase was willing to offer Fyffe a larger line of credit, which allowed her to get the warehouse as well as the uniforms, tools, and materials she needed. “We couldn’t have done it without the SBA,” she says.

Landmark established its reputation from its first contract, installing netting on a bridge project in Chicago. This bridge became the Chicago Transit Authority’s showpiece for bird control. Within two years, Landmark was one of the main companies providing bird deterrent systems in Chicago. Fyffe used the money she made to purchase ABC and merge the two companies in 2012.
We couldn’t have done it without the SBA.”

Rebecca Fyffe
Founder
Landmark Pest Management

The company has grown to 85 employees with 50 trucks on the road every day, working alongside the biggest construction firms in the country. Still, Fyffe challenges herself by finding ways to expand the company. In addition to its work in Illinois, Landmark does business in Michigan, Indiana, and Missouri. Fyffe is considering expansion to California and New York.

Landmark has continued to use its science-based methodology and proprietary technology to expand its offerings. The company is a leader in bedbug science, pioneering a special DNA test to detect infestations with a relatively small sample. Fyffe’s team is also testing a new nontoxic fungi spore that could be used to kill the pests. The company’s fastest growing sector is food production applications. Inspectors shut down factories if they find a pest, even if the animal has already been caught in a trap. Fyffe’s company developed a trap that is equipped with sensors that allow Landmark to dispatch technicians as soon as a pest is captured. Although Fyffe has used conventional loans for these expansions, she credits her first SBA-backed loan and her Women’s Business Development Center guidance with teaching her how to craft a growth plan and pitch ideas to lenders.

“We might not have been able to access that without the SBA,” she says.

SBA Resource Partners

No matter your industry, location, or experience, if you have a dream, the SBA is here to help you realize it. Our SBA Resource Partners extend our reach, offering free or low-cost mentoring, counseling, and training to help you start-up and thrive at all stages of the business life cycle.

There are more than

300 SCORE chapters
980 Small Business Development Centers
100 Women’s Business Centers
20 Veterans Business Outreach Centers

SCORE

Join the ranks of other business owners who have experienced higher revenues and increased growth thanks to SCORE, the nation’s largest network of volunteer business mentors. These business executives share real-world knowledge for no cost and to fit your busy schedule. SCORE mentors are available as often as you need, in person, via email or over video chat. Visit sba.gov/score to start working on your business goals.

SMALL BUSINESS DEVELOPMENT CENTERS

Realize your dream of business ownership and then remain competitive in an ever-changing global economy with assistance from your local SBDC. Access free or low-cost one-on-one counseling and training on topics like marketing, regulatory compliance, technology development, and international trade. Connect with an SBDC adviser at sba.gov/sbdc.

WOMEN’S BUSINESS CENTERS

Women entrepreneurs receive essential business training from this national network of community-based centers. Each center tailors its services to help you navigate the challenges women often face when starting or growing their business. For your nearest Women’s Business Center, visit sba.gov/women.

VETERANS BUSINESS OUTREACH CENTERS

Veteran and military entrepreneurs receive business training, counseling and mentoring, and referrals to other SBA Resource Partners at a Veterans Business Outreach Center, sba.gov/vboc. These are also the places to receive procurement guidance, which can help your business better compete for government contracts. VBOCs also serve active duty service members, National Guard or Reserve members, veterans of any era, and military spouses.
Our Local SBA Resource Partners

SBA’s Resource Partners are independent organizations that are funded through SBA cooperative agreements or grants.

Your Advocates

The SBA’s offices of advocacy and ombudsman are independent voices for small business within the federal government.

Advocacy
When you need a voice within the federal government for your interests as a small business owner, the SBA’s regional advocates are here to assist. The advocates analyze the effects of proposed regulations and consider alternatives that minimize the economic burden on small businesses, governmental jurisdictions, and nonprofits. Find your regional advocate at sba.gov/advocacy.

Your advocate helps with these small business issues:
» if your business could be negatively affected by regulations proposed by the government
» if you have contracting issues with a federal agency
» when you need economic and small business statistics

The SBA’s Office of Advocacy also independently represents small business and advances its concerns before Congress, the White House, federal agencies, federal courts, and state policy makers.

Ombudsman
Entrepreneurs who have an issue with an existing federal regulation or policy can receive assistance from the SBA’s national ombudsman.

The ombudsman’s office helps you:
» resolve regulatory disputes with federal agencies
» reduce unfair penalties and fines
» seek remedies when rules are inconsistently applied
» recover payment for services done by government contractors

To report how a proposed federal regulation could unfairly affect you, find your regional SBA advocate at sba.gov/advocacy.

To submit a comment about how your business has been hurt by an existing regulation, visit sba.gov/ombudsman/comments.

Make your voice heard by participating in a Regional Regulatory Enforcement Fairness Roundtable or a public hearing hosted by the SBA’s national ombudsman. These events are posted periodically on the ombudsman website, sba.gov/ombudsman.

To submit a comment or complaint through the online form, visit sba.gov/ombudsman/comments. Your concerns will be directed to the appropriate federal agency for review. The SBA will collaborate with you and the agency to help resolve the issue.
Write your Business Plan

Your business plan is the foundation of your business. Learn how to write a business plan quickly and efficiently with a business plan template.

Business plans help you run your business

A good business plan guides you through each stage of starting and managing your business. You’ll use your business plan as a roadmap for how to structure, run, and grow your new business. It’s a way to think through the key elements of your business.

Business plans can help you get funding or bring on new business partners. Investors want to feel confident they’ll see a return on their investment. Your business plan is the tool you’ll use to convince people that working with you—or investing in your company—is a smart choice.

Pick a business plan format that works for you

- There’s no right or wrong way to write a business plan. What’s important is that your plan meets your needs.
- Most business plans fall into one of two common categories: traditional or lean startup.
- Traditional business plans are more common, use a standard structure, and encourage you to go into detail in each section. They tend to require more work upfront and can be dozens of pages long.
- Lean startup business plans are less common but still use a standard structure. They focus on summarizing only the most important points of the key elements of your plan. They can take as little as one hour to make and are typically only one page.

Which business plan format is right for you?

Traditional Business Plan

- This type of plan is very detailed, takes more time to write, and is comprehensive.
- Lenders and investors commonly request this plan.

Lean Startup Plan

- This type of plan is high-level focus, fast to write, and contains key elements only.
- Some lenders and investors may ask for more information.
TRADITIONAL BUSINESS PLAN FORMAT

You might prefer a traditional business plan format if you’re very detail oriented, want a comprehensive plan, or plan to request financing from traditional sources.

When you write your business plan, you don’t have to stick to the exact business plan outline. Instead, use the sections that make the most sense for your business and your needs. Traditional business plans use some combination of these nine sections.

Executive Summary
Briefly tell your reader what your company is and why it will be successful. Include your mission statement, your product or service, and basic information about your company’s leadership team, employees, and location. You should also include financial information and high-level growth plans if you plan to ask for financing.

Company Description
Use your company description to provide detailed information about your company. Go into detail about the problems your business solves. Be specific, and list out the consumers, organization, or businesses your company plans to serve.

Explain the competitive advantages that will make your business a success. Are there experts on your team? Have you found the perfect location for your store? Your company description is the place to boast about your strengths.

Market Analysis
You’ll need a good understanding of your industry outlook and target market. Competitive research will show you what other businesses are doing and what their strengths are. In your market research, look for trends and themes. What do successful competitors do? Why does it work? Can you do it better? Now’s the time to answer these questions.

Organization and Management
Tell your reader how your company will be structured and who will run it.

Describe the legal structure of your business. State whether you have or intend to incorporate your business as a C or an S corporation, form a general or limited partnership, or if you’re a sole proprietor or LLC.

Use an organizational chart to lay out who’s in charge of what in your company. Show how each person’s unique experience will contribute to the success of your venture. Consider including resumes or CVs of key members of your team.

Service or Product Line
Describe what you sell or what service you offer. Explain how it benefits your customers and what the product lifecycle looks like. Share your plans for intellectual property, like copyright or patent filings. If you’re doing research and development for your service or product, explain it in detail.

Marketing and Sales
There’s no single way to approach a marketing strategy. Your strategy should evolve and change to fit your unique needs.

Your goal in this section is to describe how you’ll attract and retain customers. You’ll also describe how a sale will actually happen. You’ll refer to this section later when you make financial projections, so make sure to thoroughly describe your complete marketing and sales strategies.

Funding Request
If you’re asking for funding, this is where you’ll outline your funding requirements. Your goal is to clearly explain how much funding you’ll need over the next five years and what you’ll use it for.

Specify whether you want debt or equity, the terms you’d like applied, and the length of time your request will cover. Give a detailed description of how you’ll use your funds. Specify if you need funds to buy equipment or materials, pay salaries, or cover specific bills until revenue increases. Always include a description of your future strategic financial plans, like paying off debt or selling your business.

Financial Projections
Supplement your funding request with financial projections. Your goal is to convince the reader that your business is stable and will be a financial success.

If your business is already established, include income statements, balance sheets, and cash flow statements for the last three to five years. If you have other collateral you could put against a loan, make sure to list it now.

Provide a prospective financial outlook for the next five years. Include forecasted income statements, balance sheets, cash flow statements, and capital expenditure budgets. For the first year, be even more specific and use quarterly—or even monthly—projections. Make sure to clearly explain your projections, and match them to your funding requests.

This is a great place to use graphs and charts to tell the financial story of your business.

Appendix
Use your appendix to provide supporting documents or other materials that were specially requested. Common items to include are credit histories, resumes, product pictures, letters of reference, licenses, permits, patents, legal documents, and other contracts.

TRADITIONAL BUSINESS PLAN CHECKLIST

- Executive summary
- Company description
- Marketing and sales
- Organization and management
- Financial projections
- Service or product line
- Funding request
- Appendix

15
LEARN STARTUP PLAN FORMAT

You might prefer a lean startup format if you want to explain or start your business quickly, your business is relatively simple, or you plan to regularly change and refine your business plan.

Lean startup formats are charts that use only a handful of elements to describe your company’s value proposition, infrastructure, customers, and finances. They’re useful for visualizing tradeoffs and fundamental facts about your company.

There are many versions of lean startup templates, but one of the oldest and most well known is the Business Model Canvas, developed by Alex Osterwalder. You can search the web to find free templates of the Business Model Canvas, or other versions, to build your business plan.

We’ll discuss the nine components of the Business Model Canvas version here.

**Key Partnerships**
Note the other businesses or services you’ll work with to run your business. Think about suppliers, manufacturers, subcontractors and similar strategic partners.

**Key Activities**
List the ways your business will gain a competitive advantage. Highlight things like selling direct to consumers or using technology to tap into the sharing economy.

**Key Resources**
List any resource you’ll leverage to create value for your customer. Your most important assets could include staff, capital, or intellectual property. Don’t forget to leverage business resources that might be available to women, veterans, Native Americans, and HUBZone–certified businesses.

**Value Proposition**
Make a clear and compelling statement about the unique value your company brings to the market.

**Customer Relationships**
Describe how customers will interact with your business. Is it automated or personal? In person or online? Think through the customer experience from start to finish.

**Customer Segments**
Be specific when you name your target market. Your business won’t be for everybody, so it’s important to have a clear sense of who your business will serve.

**Channels**
List the most important ways you’ll talk to your customers. Most businesses use a mix of channels and optimize them over time.

**Cost Structure**
Will your company focus on reducing cost or maximizing value? Define your strategy, then list the most significant costs you’ll face pursuing it.

**Revenue Streams**
Explain how your company will actually make money. Some examples are direct sales, memberships fees, and selling advertising space. If your company has multiple revenue streams, list them all.

"If you fail to plan, you are planning to fail."
Benjamin Franklin
Need entrepreneurship training?
Entrepreneurship training is available through the SBA’s programs for veterans, sba.gov/veterans, at military installations around the world. These programs are open to active duty service members, those transitioning out of service, National Guard and Reserve members, veterans of all eras, and military spouses. Connect to other entrepreneurs and your local network of SBA Resource Partners through these services and programs.

Veterans Business Outreach Centers, sba.gov/vboc, provide business training and counseling to those interested in starting, purchasing, or growing a small business.

Boots to Business is an entrepreneurial education and training program offered by the SBA as part of the Department of Defense’s Transition Assistance Program. Service members transitioning out of active duty and military spouses are eligible for Boots to Business.

During the course, you explore business ownership and other self-employment opportunities while learning key business concepts. You will walk away with an overview of entrepreneurship and applicable business ownership fundamentals, including how to access startup capital using SBA resources. Boots to Business is conducted on all military installations that host the Transition Assistance Program, both in and out of the contiguous United States.

Boots to Business: Reboot delivers the Boots to Business curriculum to veterans of all eras, members of the National Guard and Reserve, and military spouses in their local communities. Register for either program at https://sbavets.force.com.

If you’re a service-disabled veteran or a spouse, the SBA’s Service-Disabled Veteran Entrepreneurship Training Program provides guidance on starting or growing your small business, visit sba.gov/ovbd.

Interested in doing business with the government?
Veteran-owned and service-disabled veteran-owned small businesses interested in federal contracting opportunities can receive training through the Veteran Federal Procurement Entrepreneurship Training Program. This program is administered by the Veteran Institute for Procurement, which offers a platform with three training programs to assist veterans: VIP Start, VIP Grow, and VIP International.

» VIP Start is for companies wanting to enter the federal market and become ready for procurement. Nearly 200 veteran-owned businesses from 29 states plus Washington, DC have graduated from the program.

» VIP Grow is the core curriculum which assists companies in developing strategies to expand and operate within the federal marketplace. More than 700 veteran-owned businesses from 42 states plus DC and Guam have graduated from this program.

» VIP International is for companies that want to enter or expand their federal and commercial contracting opportunities overseas.

Loan Fee Relief
To encourage lending to members of the military community who want to start or grow their business, the SBA reduces upfront guarantee fees on select loans. That means the cost savings will be passed down to you, the eligible veteran or qualifying military member. To learn more, contact your local SBA district office or ask your SBA Lender about the Veterans Advantage program, sba.gov/loans.

Learn about the Service-Disabled Veteran-Owned Small Business certification program on page 49.

Have an employee who was called to active duty?
Ask your local SBA district office or lender about the Military Reservist Economic Injury Disaster Loan program. If you meet the eligibility requirements, you may receive funds that enable your business to meet ordinary and necessary operating expenses when an essential employee is called up to active duty in the military reserve.
How to Start a Business in Nevada
Thinking of starting a business? Here are the nuts & bolts.

The Startup Logistics
Even if you’re running a home-based business, you will have to comply with many local, state, and federal regulations. Do not ignore regulatory details. You may avoid some red tape in the beginning, but your lack of compliance could become an obstacle as your business grows. Taking the time to research the applicable regulations is as important as knowing your market. Carefully investigate the laws affecting your industry. Being out of compliance could leave you unprotected legally, lead to expensive penalties, and jeopardize your business. Access the Nevada Department of Business and Industry’s business startup guide at business.nv.gov/resource_center/nevada_business_start_up_guide.

Market Research
Need to do research on your clients and location? View consumer and business data for your area using the Census Business Builder: Small Business Edition, https://cbb.census.gov/sbe. Filter your search by business type and location to view data on your potential customers, including consumer spending, and a summary of existing businesses, available as a map and a report.

Business License & Zoning
Licenses are typically administered by a variety of state and local departments. It is important to consider zoning regulations when choosing a site for your business. Contact the local business license office where you plan to locate your business. You may not be permitted to conduct business out of your home or engage in industrial activity in a retail district. For information visit nvsilverflume.gov.

Taxes
As a business owner, you should know your federal tax responsibilities and make some basic business decisions to comply with certain tax requirements. The IRS Small Business and Self-Employed Tax Center, go.usa.gov/xPxYR, offers information on a variety of topics including: obtaining an Employer Identification Number, paying and filing income tax, virtual workshops, forms, and publications.

Whether you are a new or an experienced business owner, there are new tax law changes that may affect your business. As the IRS works to implement the Tax Cuts and Jobs Act, signed into law December 2017, you can access the latest information on irs.gov/tax-reform to better understand the new tax law implications and how they affect your bottom line.

» State Taxes
Nevada Department of Taxation
(866) 962-3707
tax.nv.gov

Social Security
If you have any employees, including officers of a corporation but not the sole proprietor or partners, you must make periodic payments, and/or file quarterly reports about payroll taxes and other mandatory deductions. You can contact the IRS or the Social Security Administration for information, assistance and forms, socialsecurity.gov/employer or (800) 772-1213. You can file W-2s online or verify job seekers through the Social Security Number Verification Service.

Employment Eligibility Verification
The Federal Immigration Reform and Control Act of 1986 requires employers to verify employment eligibility of new employees. The law obligates an employer to process Employment Eligibility Verification Form I-9. The U.S. Citizenship and Immigration Service offers information and assistance through uscis.gov/i-9-central. For forms, call (800) 870-3676, for the employer hotline, call (888) 464-4218 or e-mail I-9central@dhs.gov. E-Verify, operated by the Department of Homeland Security in partnership with the Social Security Administration, electronically verifies the Social Security number and employment eligibility information reported on Form I-9. It’s the
quickest way for employers to determine the employment eligibility of new hires. Visit e-verify.gov, call (888) 464-4218 or email e-verify@dhs.gov.

**Health & Safety**

All businesses with employees are required to comply with state and federal regulations regarding the protection of employees, visit dol.gov for information. The Occupational Safety and Health Administration provides information on the specific health and safety standards used by the U.S. Department of Labor, (800) 321-6742 or visit osha.gov.

» Office of the Labor Commissioner labor.nv.gov
Las Vegas
3300 W. Sahara Ave., suite 225
(702) 486-2650
Carson City
1818 College Parkway, suite 102
(775) 684-1890
State safety and health regulations can be found at Nevada Division of Industrial Relations at dir.nv.gov.

**Employee Insurance**

Check with your state laws to see if you are required to provide unemployment or workers’ compensation insurance for your employees. For health insurance options, call the Small Business Health Options Program at (800) 706-7893 or visit nevadahealthlink.com or visit healthcare.gov/small-businesses/employers.

» Nevada unemployment insurance ui.nv.gov

» Nevada worker’s compensation insurance dir.nv.gov/wcs/home

**Environmental Regulations**

State assistance is available for small businesses that must comply with environmental regulations under the Clean Air Act. State Small Business Environmental Assistance programs provide free, confidential assistance to help small business owners understand and comply with complex environmental regulations and permitting requirements. These state programs can help businesses reduce emissions at the source, often reducing regulatory burden and saving you money. To learn more about these free services, visit nationalsbeap.org/states/list.

» Nevada Division of Environmental Protection https://ndep.nv.gov

**Disability Compliance**

For assistance with the Americans with Disabilities Act call (800) 669-3362 or visit ada.gov.

**Child Support**

Employers are essential to the success of the child support program and are responsible for collecting 75 percent of support nationwide through payroll deductions. The Office of Child Support Enforcement at Health and Human Services offers employers step-by-step instructions for processing income withholding orders for child support. “A Guide to an Employer’s Role in the Child Support Program” is available at the Office of Child Support Enforcement’s website at acf.hhs.gov/programs/css > employer responsibilities. You can also find information about other employer responsibilities and tools that can make meeting those responsibilities easier, such as electronic income withholding orders and the Child Support Portal, at acf.hhs.gov/programs/css/employers. Send questions to employerservices@acf.hhs.gov. For state assistance, contact the Nevada Division of Welfare and Support Services at dwss.nv.gov.

**Intellectual Property**

Patents, trademarks, and copyrights are types of intellectual property that serve to protect creations and innovations. Intellectual property may be valuable assets for small businesses and entrepreneurs, and are important to consider in the development of any business plan.

**Patents and Trademarks**

For information and resources about U.S. patents and federally registered trademarks: Visit uspto.gov or call the U.S. Patent and Trademark Office Help Center at (800) 786-9199. The Silicon Valley office in San Jose, California, serves Alaska, Arizona, California, Hawaii, Nevada, Oregon, and Washington, uspto.gov/siliconvalley.

A patent for an invention is the grant of a property right to an inventor, issued by the patent office. The right conferred by the patent grant is the right to exclude others from making, using, offering for sale, or selling the invention in the United States or importing the invention. There are three types of patents:

- Utility patents may be granted to anyone who invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement.
- Design patents may be granted to anyone who invents a new, original, and ornamental design for an article of manufacture.
- Plant patents may be granted to anyone who invents or discovers and asexually reproduces any distinct and new variety of plant, other than a tuber propagated plant or a plant found in an uncultivated state. For information visit uspto.gov/inventors.

A trademark or service mark includes any word, name, symbol, device, or any combination used or intended to be used to identify and distinguish the goods/services of one seller or provider from those of others, and to indicate the source of the goods/services. Trademarks and service marks may be registered at both the state and federal level with the latter at the U.S. Patent and Trademark Office. Federally registered trademarks may conflict with and supersede those registered only at the state level. For information visit uspto.gov/trademarks. For state registration of a trademark contact the Nevada Secretary of State, www.nvsos.gov/sos.

**Copyrights**

Copyrights protect original works of authorship, including literary, dramatic, musical and artistic, and certain other intellectual works. Copyrights do not protect facts, ideas, and systems, although it may protect the way these are expressed. For general information contact:

Programs for Entrepreneurs

SBA’s Emerging Leaders program helps grow businesses.

Business executives looking for their next educational opportunity will find it in the SBA’s Emerging Leaders program.

Participants in the intense seven-month Emerging Leaders entrepreneurship program are selected through a competitive process. The program fosters a learning environment that accelerates the growth of high-potential small businesses, while providing training and peer networking sessions. Emerging Leaders graduates have reported gaining more than $300 million in new financing and securing over $2.16 billion in government contracts. For information about the Emerging Leaders program, visit sba.gov/emergingleaders.

Online Resources for Entrepreneurs

Find free short courses and learning tools to start and grow your small business at sba.gov/learning. The SBA’s free Online Learning Center is a great resource for every entrepreneur, especially rural business owners looking for easy access to vital business training.

Courses include:

- writing your business plan
- small business legal requirements
- small business financing options
- digital and traditional marketing to win customers
- disaster recovery
- cyber security and crime prevention

Entrepreneurs receive business counseling and assistance at the Philadelphia SBA district office in King of Prussia.
During the sluggish economic recovery in Las Vegas, Crazy Pita Rotisserie & Grill needed to reinvigorate itself to meet consumer demands. As owner Mehdi Zarhloul worked to do that, the SBA’s largest financing program supported him. He qualified for two SBA-backed 7(a) loans, which helped Mehdi to expand to two more locations in Southern Nevada. He focused on customer service and his own fresh casual Mediterranean style. Mehdi also restructured his business, which brought a revenue increase of 10 percent so he could support 15 employees at each of his locations in Green Valley Ranch, Town Square, and Downtown Summerlin. Las Vegas became the place where Mehdi’s American dream became a reality.

- **What challenge did you have?** One of the main challenges I faced was having the financial freedom to expand my small business. For more than nine years I looked to open more locations and couldn’t find the financing I needed.

- **What was the SBA solution?** An SBA-backed loan finally gave me the ability to fulfill my dream of expanding my fresh Mediterranean casual restaurants across Las Vegas. When an ideal space became available, I then had the cash flow to make it happen. In addition to guaranteeing the loan with my lender, my local Small Business Development Center provided free counseling to help with my expansion.

- **What benefit did this have for you?** With my two 7(a) loans, Crazy Pita was able to open two more Southern Nevada locations, hire an additional 30 employees, and continue to brand our small business by hiring a marketing and public relations firm. The help provided by the SBA benefited our company greatly and has allowed us to solidify our place in the market. I am working on franchising the Crazy Pita Rotisserie & Grill fast-casual chain across the country.
My business expanded thanks to the SBA.
A Deal is Inked

An SBA loan helps these entrepreneurs succeed in the challenging printing market.

WRITTEN BY Pam Kasey
When Mark Moralez’s employer, the owner of Printing Palace in Santa Monica, California, told him in 2014 he’d found a buyer for the business, Moralez reacted with shock. “Why?” his boss asked. “Do you want to buy it instead?”

The idea surprised Moralez, but it was appealing. He’d been in the industry for more than 20 years and at Printing Palace for a decade. As general manager, he managed nine employees and took care of the business as if it were his own; many customers assumed he was the owner. He and his husband, John Briggs, discussed a possible purchase over lunch. “It wasn’t something I was looking to do, I was just trying to take control of my own destiny,” Moralez says. He was scared, but the couple decided to take the leap.

Moralez and Briggs visited their credit union and were quickly disappointed. The loan officer wouldn’t take the risk. “He decided that printing was a dying industry and there was no way he was going to fund us,” Moralez said.

In frustration, Moralez posted about the setback on Facebook. His social network came to his aid; the post got him the attention of an SBA Lender—as high up as the bank’s vice president, Mark Morales. This SBA Lender decided the couple deserved the chance, and Moralez and Briggs soon qualified for SBA funding. They received a 7(a) loan of $1.1 million toward the $1.4 million purchase, enabling Moralez and Briggs to buy Printing Palace in 2015.

It was a challenging time to invest in printing. “There were probably 20 printers in our area 10 years ago, and there are probably four now,” Moralez says. “The industry has changed a lot, even in the past three years. What used to be 20 to 30 percent of our business is now 50 to 60 percent, and that’s on-demand, digital, quick, turned around in a day.” The couple has met the challenge, giving up equipment they owned for five new digital printers they lease. They also added an architectural plan printer in response to frequent customer requests. “It’s not a huge moneymaker, but it meets demand and it’s a profitable unit,” Moralez says.

What sets Printing Palace apart in a changing industry is the shop’s commitment to customer service. “Everybody wants to do online printing,” he says. “What keeps us going, and we’re doing well, is that we cater to people who are frustrated with that—or who just want to come in and feel things and talk to somebody who’s knowledgeable about the product.” Printing Palace’s website touts its print-industry veterans who take pride in delivering jobs on time. Moralez and Briggs have earned high reviews online.

Moralez sought certification early on as an LGBT-owned business. He serves as president of his local chapter of the Los Angeles Gay & Lesbian
We’re Builders at Heart

Building a successful business is no easy feat. You’re responsible for managing financing, cashflow, hiring, payroll, taxes—all of which are areas that are challenging enough on their own before you take into account the efforts required to find and retain profitable customers.

Whether your business is creating products or offering services, you’ll need to build your brand and find a way to reach your most valuable customers and prospects.

Like you, we’re builders at heart. At Facebook, we’ve built a company that connects billions of people around the world. Our teams are constantly iterating, solving problems and working together to empower people to build community and connect to one another in meaningful ways.

We’ve also built powerful tools that help millions of small businesses to expand their reach, find new customers, and subsequently drive transactions and build lasting relationships with them.

For example, Lloyd Taco, a food truck and restaurant company based in Buffalo, New York, built their business from scratch using a Facebook Business Page (and Page tools) as their go-to platform for engaging with the community. The actions they took on their page included announcing the truck’s whereabouts, managing promotions and communicating directly with customers. As of mid-2018, the company reported:

- 37% of new customers learned about Lloyd Taco from Facebook
- 42,000 people reached per week, on average
- 15 hours saved per week by prescheduling Facebook post publishing

While it’s easier than ever before to make your small business brand big by leveraging mobile technology and social media, we know it can be daunting for entrepreneurs and owners who are not experienced digital marketers.

That is why we created Facebook Blueprint—a global education program that offers free, self-paced courses (online and video). It will help you master the tools and create effective marketing on Facebook and Instagram. From Creating a Facebook Business Page to Audience Targeting to Campaign Measurement, there’s a course for everyone whether you’re a beginner or advanced.
3 Tips for Building Your Brand Online

You’re building a business, which means you’re also building your brand. These days, the first place people look when learning more about a business is online, and having a Facebook Business Page gives you a chance to make important information about your business easily accessible.

Here are 3 tips to set up your Facebook Business Page (and to make the most of Page tools) so you can be on your way to reaching your business goals.

1. Create a place for people to “meet your business” online
   You can create your Facebook Business Page in minutes. It’s simple, free, and looks great on both desktop and mobile. Be sure to select the Page template and action buttons (e.g. Shop Now, Send a Message, Write a Recommendation) that make the most sense for your business.

2. Build an active and engaged audience for your business
   Grow your audience by inviting people who may be interested in what you have to offer to like your Business Page. Your audience will likely consist of a wide variety of people — friends or family who are fans of your product/content, potential customers, current customers and former customers. Posting on your Business Page is a great way to let your customers and fans know what your business is up to. Keep customers interested and engaged with product or service updates, special promotions, event notifications and more.

3. Manage many aspects of your business from your Page
   In addition to posting, there are many more ways for you to use your Page to manage your business:
   - **Encourage customers to take specific actions** - Drive more transactions with Page features tailored for your business type. For example, you can schedule appointments or take reservations, drive people to your website’s shop or donate page, or provide a link for your app or game to encourage people to download.
   - **Offer great customer service** - People can communicate with your business through Messenger—it’s a familiar and convenient way to answer questions or help out a customer. You can even create and save responses to common inquiries to cut down on response time.
   - **Post an open job** - Reach qualified job candidates where they’re already spending their time—on Facebook. You can post job opportunities on your Business Page for free.
   - **Share on offer** - Create coupons and discounts right from your Page to let people know about specials and deals—it can help you re-engage existing customers and attract new ones.
   - **Promote an event** - If you’re hosting an event for your business, you can use Facebook Events to spread the word. Share key details (time, location, etc.), increase attendance and sell tickets.
   - **Sell things on Marketplace** - Connect your products and services to your local community by listing things on Facebook Marketplace. You can target buyers on the go with mobile-friendly listings.

Want to grow your business but don’t know where to start?

FUNDING PROGRAMS

"If it’s something you want to do and you have the skill to do it, you just have to jump in with both feet."

Mark Moralez
Owner
Printing Palace

Chamber of Commerce, giving Printing Palace prominence in a loyal market. “We’ve also done some charity work for Human Rights Campaign and Equality California, we’ve donated money and free printing. Those causes are near and dear to our hearts.”

At a time when print shops routinely struggle and fail, Printing Palace has secured its place. “Revenues have stayed steady,” Moralez says. “But we’ve streamlined everything, so we’re a lot more efficient and profitable than we were. In an industry that peaked 10 years ago and has slowly been in decline, the fact that we can stay where we are and make it profitable is a strong indication of how well we’re doing.”

The pressure is real. “Now everybody is relying on us, and the weight falls on my shoulders,” Moralez says. “It’s more work than I’ve ever done in my life, but it’s been a good thing. I’m glad we did it.”

For those seeking business financing, Moralez has this advice: do your research and find an SBA Lender who wants to work with you. “Then, go for it,” he says. “If it’s something you want to do and you have the skill to do it, you just have to jump in with both feet.”

SBA-backed Loans

For small business owners and entrepreneurs who cannot get traditional forms of credit, an SBA-guaranteed loan can fill that need. The SBA guarantees loans made by lending institutions to small businesses that would not otherwise be able to obtain financing. If you are eligible and cannot obtain conventional financing with reasonable rates and terms, the SBA guarantee reduces a lender’s risk of loss in the event of a default on the loan. The guarantee is conditional on the lender following SBA program requirements. Just like with any other loan, you make your loan payments directly to your SBA Lender in accordance with your terms.

Lender Match

Visit your local SBA office for a lender referral, or use Lender Match, sba.gov/lendermatch. The SBA’s online tool connects entrepreneurs with SBA Lenders interested in making small business loans in your area.
Need Financing?

Visit your local SBA office or lender to learn about these funding options.

The 7(a) Loan, the SBA’s Largest Financing Program
If you’re unable to get conventional financing and you meet the eligibility requirements, you can use a 7(a) loan to buy real estate, equipment, or inventory for your small business. It may also be used for working capital, to refinance business debt or purchase a small business.

**INTEREST RATE:** generally prime + a reasonable rate capped at 2.75 percent

**TERMS:** loan term varies according to the purpose of the loan, generally up to 25 years for real estate, 10 years for other fixed assets and working capital

**GUARANTEE:** 50 to 90 percent

**MAX LOAN AMOUNT:** $5 million

**INTEREST RATE:** for loans less than $50,000, prime + 6.5 percent; for loans of $50,000 and greater, prime + 4.75 percent

**TERMS:** loan term varies according to the purpose of the loan, generally up to 25 years for real estate and 10 years for other fixed assets and working capital.

**GUARANTEE:** 50 percent

SBA Express Loan
Featuring a simplified process, these loans are delivered by experienced lenders who are authorized to make the credit decision for the SBA. These can be term loans or revolving lines of credit.

**MAX LOAN AMOUNT:** $350,000

**INTEREST RATE:** prime + 6 percent

**TERMS:** up to 25 years for real estate, 10 years for equipment and working capital

**GUARANTEE:** 75 to 90 percent

Microloan Program
Eligible businesses can startup and grow with working capital or funds for supplies, equipment, furniture and fixtures. Borrow from $500 to $50,000 and access free business counseling from microlenders.

**INTEREST RATE:** loans less than $10,000, lender cost + 8.5 percent; loans $10,000 and greater, lender cost + 7.75 percent

**TERMS:** lender negotiated, no early payoff penalty

504 Certified Development Company Loan Program
If you do not qualify for traditional financing, but would like to purchase/renovate real estate or buy heavy equipment for your business, ask about the 504 loan program. It provides competitive fixed-rate mortgage financing through a lender and a Certified Development Company.

**MAX LOAN AMOUNT** (up to 40 percent of the total project): up to $5 million; $5.5 million for manufacturing or energy public policy projects

**INTEREST RATE:** below market fixed rates for 10, 20 or 25 year terms

**TERMS:** 20 or 25 years for real estate or long term equipment, 10 years for general machinery and equipment

**GUARANTEE:** the lender provides a senior loan for 50 percent of the project cost (with no SBA guarantee); the CDC finances up to 40 percent in a junior lien position (supported by the SBA guarantee)

**SPECIAL CONDITION:** a minimum borrower contribution, or down payment, is required, amounts vary by project but are usually 10 percent

CAPlines
Meet your revolving capital needs with lines of credit. CAPLines can be used for contract financing, seasonal lines of credit, builders line of credit, or for general working capital lines.

Community Advantage Program
Financing for women, veterans, low-income borrowers, and minority entrepreneurs just starting up or in business for a few years. Receive free business counseling as you work with a community-based financial institution.

**Greater Options in Commercial Banking**

At Greater Nevada Credit Union, we’re proud to be an SBA Lender of the Year, and we celebrate your business milestones.

Through our Commercial Services, we offer financial solutions such as:

- flexible checking account options
- convenient remote deposit
- competitively priced merchant services, and
- 24/7 cash management tools

Our subsidiary Greater Commercial Lending offers a variety of loan options, including Small Business Administration (SBA), United States Department of Agriculture (USDA), commercial real estate, agriculture and business lines of credit.

Get your business ready for Greater.

Visit gncu.org/commercial or call 800-421-6674.
Financing 101

What you need, when you need it!

1. What do you need funding for?
   - Start or purchase a business
   - Purchase, renovate or expand facilities
   - Purchase inventory, equipment or machinery
   - Revolving credit/working capital for day-to-day expenses
   - Export a product or service

2. Do you need help with your business plan or loan package?
   If so, SBA Resource Partners can help! Ask for a local list.

3. Now that you have your business plan and loan package ready, contact an SBA Lender to see if you qualify! There are two options...

   A. Check out Lender Match (www.sba.gov/lendermatch) to search national SBA Lenders who may specialize in your industry or type of project.
   B. Visit an active SBA Lender in your area. Ask your nearest SBA District Office for a list of local SBA Lenders.

Be prepared to discuss:
- Size and purpose of your loan
- Size and age of your business
- Your credit history
- Collateral
- Financial projections
- Your technical assistance/mentoring needs
Assistance with Exporting

Businesses that export are less dependent on any one market. Exporting also broadens the market and stabilizes sales for those who make seasonal products.

Small businesses can enter and excel in the international marketplace using State Trade Expansion Program grants and training. Visit sba.gov/internationaltrade to find out if your state is participating. You can:

• learn how to export
• participate in foreign trade missions and trade shows
• obtain services to support foreign market entry
• translate websites to attract foreign buyers
• design international marketing products or campaigns

Financing for International Growth

The International Trade Loan can position you to enter or expand into international markets. It can also help you better compete if your business has been adversely affected by unfair trade practices.

Max loan amount: $5 million
Interest rate: generally prime + a reasonable rate capped at 2.75 percent
Terms: up to 25 years for real estate, up to 10 years for equipment, up to seven years for lines of credit
Guarantee: up to 90 percent

Exporters looking to meet their short-term capital needs can use the Export Working Capital Program. Use this loan to purchase inventory to make the products you export or to finance receivables. You can apply for lines of credit prior to finalizing an export sale or contract.

Max loan amount: $5 million
Interest rate: negotiated between lender and business, fixed or variable rate
Terms: typically one year, cannot exceed three years
Guarantee: up to 90 percent

Expert Advice on Exporting

If you need assistance with international trade regulations, the SBA can be your advocate in foreign markets. Call toll free (855) 722-4877 or email your contact information and trade issue to international@sba.gov.

Find an SBA professional in one of the 21 U.S. Export Assistance Centers, sba.gov/tools/local-assistance/eac, located in most major metro areas. The centers are also staffed by the U.S. Department of Commerce and, in some locations, the Export-Import Bank of the United States and other public and private organizations. Also, visit your local Small Business Development Center (see page 8) for exporting assistance from professional business counselors.

Benefits of Exporting

Nearly 96 percent of consumers live outside the U.S., and two-thirds of the world’s purchasing power is in foreign countries. If you’re a small business owner, here’s how to work with the SBA for your trade needs.

STEP 1 GET COUNSELING

STEP 2 FIND BUYERS

STEP 3 GET FUNDING
If you own a U.S. small business, you could receive capital from a Small Business Investment Company that is regulated by the SBA. Investment companies with financing expertise in certain industry sectors receive SBA-guaranteed loans, which means the federal government is responsible in case of default. These investment companies use the SBA-guaranteed capital and private funds to invest in qualifying small businesses. Small businesses then receive a loan, equity (a share of ownership an investment company gets in a business), or a combination of both.

Mature, profitable businesses with sufficient cash flow to pay interest are more likely to receive an investment from an SBIC. Each one has its own investment profile in terms of targeted industry, geography, company maturity, the types and size of financing they provide. Search the SBIC directory by visiting sba.gov and clicking on Funding Program and then Investment Capital.

Looking for investors? You might find leads in our Small Business Investment Company online directory.
R&D Opportunities for Next Gen Entrepreneurs

If you are engaged in high-risk research and development, your small business may be eligible to compete for funding to develop your tech and get it to market.

Do you work in one of these areas?
- advanced materials
- agTech
- artificial intelligence
- biomedical
- cybersecurity
- energy
- first response
- national security
- space exploration

The Small Business Innovation Research and the Small Business Technology Transfer programs, also called America’s Seed Fund, provide more than $2.5 billion in early stage capital through more than 4,000 new awards annually.

How it works
Every year, 11 participating federal agencies announce topical areas that address their R&D needs. Eligible businesses submit proposals through a competitive process, and if successful, enter a three phase awards program.

- Phase I, the proof-of-concept stage, typically lasts from 6-12 months, often providing $100,000-$225,000.
- Phase II, the full R&D period, lasts about 24 months and typically provides $600,000-$1.5 million.
- Phase III, the commercialization stage, where you seek public or private funds for your venture.

How else does your startup benefit? The funding agency does not take an equity position or ownership of your business. The federal government also has a protection period in which it does not disclose your reports and data.

Visit sbir.gov to find funding opportunities and helpful program tutorials, as well as past award winners, such as Qualcomm, iRobot, Illumina, and Symantec.

Participating agencies:
- Department of Agriculture
- Department of Commerce
- National Institute of Standards and Technology
- National Oceanic and Atmospheric Administration
- Department of Defense
- Department of Education
- Department of Energy
- Department of Health and Human Services
- Department of Homeland Security
- Department of Transportation
- Environmental Protection Agency
- NASA
- National Science Foundation
After the Flood

A South Carolina fabric business rebounds bigger and better with the help of an SBA disaster loan.

written by Carlee Lammers

After floodwaters devastated his family business, Michael Marsha visited the SBA and received something not many others could give him: security. Marsha is the owner and president of Forest Lake Drapery and Upholstery Fabric Center Inc. in Columbia, South Carolina. The fabric store started in 1964 as an offshoot of L.A. Marsha Textile Co., a closeout fabric store owned by his father and grandfather. Marsha took over the family business in 1990 and worked to grow it into something bigger. "I grew it slow, he says. "I didn’t borrow money. I just took the cashflow over the years and grew it into a big, big company. I didn’t really have a banker at all. I didn’t really need one."

When catastrophic flooding hit South Carolina in October 2015, water destroyed Marsha’s entire fabric inventory and nearly destroyed the lower level of his store, wrecking structural havoc, tearing out sheetrock and destroying the carpeting. The damages came to about $1.4 million. Crews spent hours cleaning after the floods receded. All that was left of Marsha’s business was a shell.

He had to act fast. Marsha bought a space two doors down from his store. Marsha kept his inventory in the upper level of his original store and cut the fabric in his new space. Lenders made offers to help him rebuild, but Marsha wanted better terms. He was speaking to state officials about the flood when he met some SBA disaster assistance specialists.

Marsha recalled how he felt at the time: “I couldn’t crawl back into business, I needed to sprint back into business."

He received a low-interest, fixed-rate SBA...
“The SBA bent over backward to help me get back in business. I couldn’t have asked for a better situation. I really couldn’t.”

Michael Marsha
Owner/President
Forest Lake Drapery and Upholstery Fabric Center

The SBA, the Federal Emergency Management Agency, and other organizations work together to provide assistance to those affected by a disaster. Once immediate safety and security needs are met, the SBA helps get you and your community back to where you were before the disaster. The SBA provides loans to businesses of all sizes, nonprofits, homeowners, and renters to cover rebuilding costs not covered by insurance or other forms of assistance.

Small businesses and nonprofits are also eligible to apply for economic injury losses, even if they suffered no physical damages. These direct loans come with low-interest rates and long terms. Property owners can also secure additional SBA funds to help protect their business or home against a disaster. Visit sba.gov/disaster.
Three Brothers Bakery is no stranger to difficult times. The business got its start in Chrzanow, Poland in the early 1800s as Morris Jucker’s Bakery. Jucker’s twin boys, Sigmund and Sol, started out in the business in 1932 when a baker’s strike meant only family members could work the ovens—this started a lifetime of camaraderie and partnership between the brothers. They worked together through the outbreak of World War II and the invasion of Poland, enduring internment in a Nazi concentration camp when they were 19. After their liberation, Sigmund and Sol Jucker joined their younger brother, Max, and immigrated to America. Living in Houston, Texas, the three brothers returned to their family roots and established their bakery in 1949, near one of the city’s bayous on Braeswood Boulevard. Today, the three locations of the kosher Eastern European bakery are owned by Sigmund’s son Bobby Jucker and his wife, Janice.

The family has continued to weather storms. Hurricane Ike in 2008 brought 12 inches of rain, destroying the bakery roof. Hurricane Harvey in 2017 poured four and a half feet of water...
into the building. Photos of the bakery’s submerged parking lot went viral on social media.

After each disaster, the family had some money for recovery, but not nearly enough. There was so much to purchase, so much to repair. Each time, Three Brothers turned to the U.S. Small Business Administration’s disaster assistance program for help.

The SBA was a saving grace for the Juckers, providing money and resources they wouldn’t otherwise have access to. “If it weren’t for the SBA, we would’ve been out of business—twice,” Janice Jucker says. “There was no way we would have had the cash to recover.”

Houston is recovering, but there’s still work to be done. “People are buying sofas and socks,” Janice Juckers says, “But they are not yet buying as many cakes and other baked goods.” She remains optimistic for a full recovery. The Juckers are also leading an effort to craft legislation that would encourage consumers to shop in areas affected by a disaster—to help rebuild broken economies.

With help from their local SBA district office, the bakery is rebranding, working on a new website, and investing in new marketing strategies. “Everything the SBA does—everything they do—is good,” she says.
How an SBA Disaster Loan Works

The SBA provides loans to businesses of all sizes, nonprofits, homeowners and renters to cover rebuilding costs not covered by insurance or other forms of assistance.

Verification & Processing
An SBA loss verifier will estimate the total loss to your property damaged by the disaster. A loan officer determines your creditworthiness and eligibility after reviewing any insurance or other recovery funds. The SBA can approve and disburse a loan while your insurance recovery is pending. You will be advised in writing of all loan decisions.

- Terms may go up to 30 years. The SBA sets terms based on each borrower’s ability to repay, no early payoff fees or penalties.
- Rates are low, based on the type of loan and if you have credit available elsewhere.

For Physical Damages
A business of any size and any nonprofit may borrow up to $2 million to repair or replace damaged or destroyed real estate, machinery and equipment, inventory, and other business assets.

- A homeowner may borrow up to $200,000 to repair/replace primary residence damage.
- A homeowner or renter may borrow up to $40,000 to repair/replace damage to personal property, including vehicle losses.

For Economic Injury
The SBA also offers economic injury disaster loans for up to $2 million to help meet working capital needs caused by a disaster.

- Who are eligible: small businesses, small agricultural cooperatives, small aquaculture businesses, and most nonprofits.
- Economic injury assistance is available regardless of whether the business suffered any property damage.

Closing & Funds Disbursement
Approval decision and disbursement of loan funds is dependent on receipt of your documentation.

Be sure to sign your closing documents. This can be done by mail or with an SBA representative at a closing center, if one is open in your area.

The SBA disburses loan funds as recovery work is completed, items are replaced, and/or as funds are needed. The SBA will typically make an initial disbursement of up to $25,000, if all requirements are met, within five days of receiving your signed loan closing documents. Your case manager will schedule subsequent disbursements of the full loan amount. Your case manager will work with you to help you meet all loan conditions. Your loan may be adjusted after closing according to your changing circumstances, such as unexpected repair costs or additional insurance proceeds.

Keep in mind
An SBA disaster loan is a direct loan from the government. Other organizations may reduce or not award you a grant if you have received an SBA loan or other assistance. Be sure to check with other organizations to see how an SBA loan might affect your eligibility for their program.

In general, recovery expenses covered by insurance, FEMA or other forms of assistance may reduce the amount provided by your SBA disaster loan.
How to Prepare Your Business for an Emergency

The financial cost of rebuilding a business after a disaster can be overwhelming. However, with a business continuity plan in place, you will be able to rebound and reopen quickly. You’ll be in a better position to contribute to the economic recovery of your community.

Establish a protocol to communicate with employees outside of the office to ensure they and their families are safe. Test the procedures regularly.

Keep your plan and all related documents in a digital format or in an accessible, protected, off-site location.

Review your insurance coverage
- Contact your insurance agent to find out if your coverage is right for your business; make sure you understand the policy limits and deductibles.
- Ask about business interruption insurance, which compensates you for lost income and covers operating expenses if your company has to temporarily shut down after a disaster.

Establish a solid supply chain
If your vendors and suppliers are local and the disaster is widespread, you will all be in the same situation—struggling to recover. Set yourself up to be able to get key supplies from companies outside your area, if possible.
- Create a contact list of important contractors and vendors you plan to use in an emergency.
- Make sure you know your suppliers’ recovery plans.

Plan for an alternative location
- Do some research in advance of the disaster for several alternative places to relocate your company in case a disaster forces you to close your business for an extended time.

Contact a local real estate agent to get a list of available office space. You could make an agreement with a neighboring business to share office space. You could also make plans for employees to telecommute until your office reopens.

The Ready Business program, ready.gov/business, gives step-by-step guidance on how to prepare your business for a disaster. The series includes preparedness toolkits for earthquakes, hurricanes, inland flooding, power outages, and severe winds/tornadoes. Spanish materials are available.
Surety bonds help small businesses win construction, supply, and service contracts by providing the customer with a guarantee the work will be completed. Many contracts require surety bonds, which are offered by surety companies. The SBA guarantee provides an incentive for surety companies to work with small businesses that would normally not be able to obtain the bond. Eligible small businesses can receive the bonding assistance necessary to compete for contracting and subcontracting jobs using the **Surety Bond Guarantee Program**. This program is aimed at small businesses that lack the financial resources or performance track record necessary to secure bonding through regular commercial channels.

**Small businesses that often come to the SBA for surety bonds:**

- **Startups and firms** in business less than three years
- **Businesses with credit issues** or internally prepared financial statements
- **Subcontract trades** with a desire to establish their own bonding as a prime contractor
- **Those wishing to increase** their current bonding limits

---

1. **Surety bonds are requested**
   - Some contracts require that the business doing the work be properly bonded.

2. **Surety partners with business**
   - Authorized surety companies provide surety bonds to businesses that meet their qualifications.

3. **The SBA guarantees**
   - The SBA guarantees surety bonds for private surety companies, so more small businesses can qualify.

4. **Small businesses benefit**
   - Small businesses get SBA-guaranteed surety bonds so they can get to work.
For Public and Private Prime Contracts and all Subcontracts

The SBA guarantees: bid, payment, performance, and ancillary bonds issued by surety companies

Cost of contract: up to $6.5 million

SBA reimburses surety companies in case of default
90 percent of losses sustained for veteran and service-disabled veteran, minority, 8(a), and HUBZone-certified small businesses; all projects up to $100,000
80 percent for all other small businesses.

For Federal Contracts

The SBA guarantees: bid, payment, performance, and ancillary bonds issued by surety companies—if a guarantee would be in the best interest of the government

Cost of contract: up to $10 million

SBA reimburses surety companies in case of default
90 percent of losses sustained for veteran and service-disabled veteran, minority, 8(a), and HUBZone-certified small businesses; all projects up to $100,000
80 percent for all other small businesses.

SBA’s QuickApp Program

Typically, small businesses provide financial statements and other documentation when applying for surety bond guarantees. This process is streamlined under the SBA’s QuickApp program, which is for contracts below $400,000. The streamlined application reduces the normal paperwork to a simple two-page application, and the small business does not need to file any financials with the SBA.

The SBA partners with 35 surety companies and hundreds of bonding agents. Online applications submitted through SBA authorized agents are approved in less than two days for regular applications and within hours for QuickApps. Find authorized agents at sba.gov/osg.

Staying Power

Evans Capacitor Co. of Rhode Island was chosen as the SBA’s 2018 National Small Business Subcontractor of the Year for its customer care.

WRITTEN BY JESS WALKER
Powering some of America’s greatest defense and aerospace technologies is a small product from a small business located in the smallest state. Evans Capacitor Co. of Rhode Island is a leading manufacturer of high energy density capacitors, battery-like components that can release stored electrical energy quickly—crucial in applications such as laser or radar systems.

“The best and most rewarding feeling is when we have visitors to our plant, be they customers, politicians, or even from the SBA, who look around and are truly astonished by what we do right here in East Providence,” says Charles Dewey, cofounder and CEO of Evans Capacitor. “They are always smiling and surprised when they see our great employees actually building these devices by hand.”

In 1996, Dewey and his cousin and cofounder Dave Evans spun Evans Capacitor out of an old family business. Dewey handled the business model and finances, and Evans spearheaded engineering and development. Evans’s hybrid capacitor invention, which combined electrolytic with electrochemical technology, had come to him in a dream. He made that dream into a reality, but the market for it was not immediately robust. A licensing deal with medical device producer Wilson Greatbatch Technologies incorporated the invention into capacitors for implantable defibrillators, jump-starting the young company.

Evans Capacitor has been a subcontractor since its beginning, with most products sold commercially to defense contractors. Its client base now extends into commercial aviation and the oil and gas industry. “Dave Evans and I decided early on that we would work on what we knew,” says Dewey. “He invented a lot of stuff, but only some things were business-viable. We stuck to what worked and built a niche.”

Evans Capacitor prides itself on its responsiveness to customers. When a client once needed a smaller product, the company repackaged its round capacitor into a square, which provided more energy using the same footprint. Another client’s comments about overheating resulted in a capacitor that reduced resistance by half, effectively doubling the power while decreasing the need for cooling. “Listening to our customers is critical so we know which direction to focus our efforts,” says Colin McClennan, vice president and general manager. It’s a practice that pays off in relationships and recognition: Longtime customer Lockheed Martin

Evans Capacitor built its business by being a subcontractor that sells its products to defense contractors. The company is expanding into commercial aviation and the oil and gas industry.
nominated Evans Capacitor for the 2018 National Small Business Subcontractor of the Year, which the company went on to win.

The State Trade Expansion Program, administered by the SBA’s Office of International Trade, has helped Evans Capacitor smooth the peaks and valleys of production through expansion of its customer base. A national export initiative, the STEP grant awards matching funds to states and territory governments to help small businesses enter and thrive in international markets.

For the past two years, Evans Capacitor has used Rhode Island STEP funding to send representatives to global exhibits, create trade show materials, and revamp its website for international audiences. The company has been represented as far away as India, Spain, and the United Kingdom. “We’ve done programs with [STEP assistance] we likely wouldn’t have done otherwise,” says McClennan. “I expect we’ll continue using it.”

Running a small business can be hard, but the close-knit environment makes it worthwhile. When McClennan joined the company in 2000, he thought he’d live in Rhode Island for a year or so before moving back to Ohio. Eighteen years later, he still finds every day at the 47-employee plant engaging and ever-changing. “You’re able to have such an impact in a small business,” he says, “as opposed to working in a large corporation where the impact of your efforts might be much more diluted.”

Dewey is happy for other entrepreneurs to learn from Evans Capacitor’s experience. “We hope the SBA uses us as a model, especially to other small businesses looking to get into subcontracting and defense work,” he says. “It is a daunting undertaking for a commercial company, but it’s been our lives since day one, so maybe we can help.”

For other small businesses, no matter the industry, Dewey recommends they hone in on their niches. “Don’t stray, stay focused, and be the best you can be. As Dave says, ‘You have to play the hand you’re dealt.’ But you can learn to play it well.”

How to do business with the government

1. Identify your product or service number at naics.com.

2. Search the FedBizOpps database (fbo.gov) or web.sba.gov/subnet to see if any federal agencies are looking for your product or service.

3. Attend an SBA district office workshop on contracting. Visit sba.gov/localassistance to find your local office.

4. Talk to a local Small Business Development Center counselor (see page 8) or visit a Procurement Technical Assistance Program adviser. Find your closest center at aptac-us.org.

5. Obtain a free DUNS number at fedgov.dnb.com/webform.

6. Register with the System for Award Management (sam.gov) to start doing business with the government.

7. See if you’re eligible for a contracting program and start the certification process. All required documents must be uploaded to certify.sba.gov before submitting an offer on a contract set aside for a specific program.
Government Contracting

Is it right for you? Government contracting can be a valuable tool to grow your small business, but it isn't for everyone. Complete the following readiness assessment to help you decide whether your company can successfully compete for government contracts.

1. Does the government buy the product or service that you sell?
   - Yes: Continue to question 2.
   - No: Government contracting may not be for you at this time.
   - ? Start with your local SBA District Office. If you can’t identify at least three federal agencies that might buy what you sell, contracting might not be right for you.

2. Are you capable of fulfilling a government contract (e.g., time, staffing, and materials)?
   - Yes: Continue to question 3.
   - No: Your local SBA District Office can help you gauge ramp-up time and other factors that contribute to government contracting success.

3. Confirm your answer to all of the following:
   - Is the majority owner(s) a U.S. citizen?
   - Does your company have a place of business in the U.S.?
   - Is your business organized for profit?
   - Does your business generate revenue?
   - Yes: Continue to question 4.
   - No: These are requirements for participation in government contracting programs.

4. Are you credit worthy?
   - Yes: Continue to question 5.
   - No: Visit an SBA Resource Partner for tips on repairing your credit.
   - ? Talk to an SBA Lender about how to build credit.

5. Do you have an accounting system that produces financial statements, such as profit and loss statements, balance sheets, and cash flow projections?
   - Yes: Continue to question 6.
   - No: Before you get into government contracting, make sure your accounting system is compatible with the government’s requirements.

6. Do you have cash on hand to purchase working inventory, if needed?
   - Yes: Continue to question 7.
   - No: Talk to an SBA Lender about getting a line of credit or a loan to do business with the government.

7. Do you already have federal/state/local government contracting experience?
   - Yes: Continue to question 8.
   - No: If you don’t yet have contracting experience, you won’t reap the full benefit of opportunities like the 8(a) Business Development Program. You can only participate in the 8(a) program once in a nine-year period, so make sure it’s the right time for you.

8. Do you know where to find contracting opportunities?
   - Yes: Continue to question 9.
   - No: Ask an SBA Business Opportunity Specialist for help.

9. Do you have the following:
   - A DUNS number?
   - The NAICS codes and size standards for your industry?
   - SAM registration?
   - Yes: Continue below.
   - No: This is a requirement for participation in some government contracting programs.

It sounds like you may be a good fit for government contracting! Visit your local SBA District Office or sba.gov/contracting for more information.
SBA Contracting Programs

Your business could earn profit and gain valuable work experience by providing goods or services to the government.

The federal government sets aside contracts for small business, and these certification programs are designed to help you compete for and win federal contracts. Visit sba.gov/contracting to learn more about set-asides and whether one or more of these government contracting programs is right for your business.

**All Small Mentor-Protege Program**
Looking for an opportunity to partner with a more experienced firm for mentorship? You may find that effort rewarded in the All Small Mentor-Protege Program, sba.gov/allsmallmpp. At the same time you’re gaining invaluable direction and experience, you and your mentor can compete for government contracts, further growing your business.

To qualify for this program:
- Mentors and proteges must be organized for profit or as an agricultural cooperative.
- Mentors cannot own more than 40 percent equity in the protege’s business.
- An SBA determination of affiliation must not exist between the mentor and the protege. All Small-approved partnerships receive an exclusion of affiliation for contracting purposes.

**8(a) Business Development Program**
If you’re an entrepreneur who is socially and economically disadvantaged, you can get business training and government contracting assistance through the 8(a) Business Development Program, sba.gov/8a. The program includes free business development education, training workshops, and match-making opportunities with federal buyers. Firms owned by Alaska Native Corporations, Indian tribes, Native Hawaiian organizations, and Community Development Corporations are also eligible for 8(a) business development assistance.

To be eligible for the 8(a) program, your small business must meet the following criteria:
- Qualify as a small business which is unconditionally owned and controlled by one or more socially and economically disadvantaged people of good character
- Be controlled by a U.S. citizen who lives in the United States
- Demonstrate a track record of work and that you have potential for continued success

Socially disadvantaged: those who have been subjected to racial or ethnic prejudice or cultural bias without regard to their individual qualities because of their identity as members of certain groups. The following groups of people are assumed to be socially disadvantaged: Black Americans, Native Americans, Alaska Natives, Native Hawaiians, Hispanic Americans, Asian Pacific Americans, and Subcontinent Asian Americans. A person who is not a member of one of these groups must establish that it is more likely than not that they have suffered disadvantage.

Economically disadvantaged: those whose ability to compete in the marketplace has been impaired because the person has not had as much capital and credit opportunities compared to others in the same or similar line of business who are not socially disadvantaged.
CONTRACTING

The benefits:

» 8(a) businesses are assigned an SBA professional to help coordinate your business development assistance.

» You could be awarded an 8(a) sole-source contract up to $4 million for goods and services; $7 million for manufacturing, exceptions apply.

What is an 8(a) sole-source contract? A direct awarding of a contract to an 8(a) small business that can provide the needed services.

HUBZones

Businesses located in Historically Underutilized Business Zones, HUBZones, sba.gov/hubzone, must be certified to gain special access to federal contracts. To qualify for the program, a small business must:

» be at least 51 percent owned and controlled by a U.S. citizen(s), a Community Development Corporation, an agricultural cooperative, or an Indian tribe

» be located within a HUBZone, which includes Indian reservations and military facilities closed by the Base Realignment and Closure Act. Enter your address in our interactive map to see if your business is located in a HUBZone, maps.certify.sba.gov/hubzone/map.

» have at least 35 percent of your employees residing in a HUBZone.

By the Numbers

The U.S. government is the largest single purchaser of goods and services in the world. Every year it awards more than $500 billion in contracts.

Of those prime contracts, the federal government must set aside 23 percent for small businesses.

This includes:

» 5 percent for small disadvantaged businesses

» 5 percent for women-owned small businesses

» 3 percent for HUBZone-certified small businesses

» 3 percent for service-disabled veteran-owned small businesses

Keep in mind

The SBA does not officially certify this designation, so when a contract awarded based on this eligibility is protested, the SBA will determine if your business meets the eligibility status, ownership and control requirements.

An O’Fallon Casting Inc. employee at work in O’Fallon, MO. Owner Vince Gimeno grew his business thanks to expert SBA business counseling.

Service-Disabled Veterans

If you’re a service-disabled veteran looking to enter the federal marketplace, you may be eligible for this small business certification. To determine your eligibility, contact a veterans business development officer at your local SBA office, or the SBA’s Office of Veterans Business Development at sba.gov/ovbd. After you have set up to do business with the government in sam.gov, update your status as a service-disabled veteran business.
Women-Owned Small Business Certification

If you're a woman proprietor looking to sell to the federal government, you may be eligible for the Women-Owned Small Business certification, sba.gov/wosb.

Here’s how to get certified:

1. Make sure you’re eligible
   - Your business must be at least 51 percent owned and controlled by one or more women who are U.S. citizens. The ownership must be direct and unconditional.
   - A woman must hold the highest officer position and have managerial experience required to run the business.
   - One or more women must manage the daily business operations on a full-time basis and conduct long-term decision making and planning.

To qualify as an economically disadvantaged woman-owned small business, your company must meet these criteria and the business owner and/or manager must meet certain income and asset requirements.

2. Register
   - Register with the System for Award Management (sam.gov) to start doing business with the government.

3. Certify
   - Self-certify as a woman-owned small business or an economically disadvantaged woman-owned small business for free, or obtain certification from one of the SBA’s approved third-party certifiers (which costs a fee):
     - El Paso Hispanic Chamber of Commerce
     - National Women Business Owners Corporation
     - U.S. Women’s Chamber of Commerce
     - Women’s Business Enterprise National Council

All required documents must be uploaded to certify.sba.gov prior to submitting an offer on a contract set aside for the program.

4. Update your status
   - Update your status as a woman-owned small business in sam.gov.

5. Search the database
   - Search the FedBizOpps database (fbo.gov) for your new business opportunity.
