INTRODUCTION

The US Small Business Administration has developed the Entrepreneurial Management Development System (EDMIS) in order to collect counseling, training and economic impact information from each of our SBA partners and District Offices. EDMIS is a secure web portal that is designed around two primary forms: SBA Form 641 and SBA Form 888. SBA partners have the option of either manually entering their counseling and training data or using a software vendor to upload xml files.

SBA partners are required to provide counseling and training data at a minimum of quarterly. Users that upload data files should do so at least quarterly. Users that enter the data directly into EDMIS do so for each new session. SBA compiles the data in daily and quarterly reports that are used to measure counseling and training performance.

Section I – Accessing EDMIS

EDMIS is accessed via the General Logon System (GLS). Only users with an approved *user identification* and *password* will have operational access to EDMIS. To protect the integrity of the data, the system has a number of safeguards and is very secure. The system will automatically recognize an authorized user’s identification code (ID & Password) and provide operational access to the EDMIS home page.

Login to EDMIS

1. Open a browser (e.g. Internet Explorer 5.0 or above with 128-bit encryption) and enter the following address on the address bar. (*Note: you must include an “s” after “http” as this is a secure system.*)

<https://eweb.sba.gov/gls>

Once you enter the above address you should see the following view:

SBA Processing: 0.054 seconds

2. If you already have an SBA User ID and Password, skip to step 4. Otherwise continue here to obtain a User ID and Password. On the following screen shot, you will notice that on the left hand side there is a menu for several items, including instructions for GLS.

Select Request SBA User ID. You will be directed to a new page. You will need to fill out each item that is bordered in light blue. You may select your own user ID and it should be 8 characters long. Once you have completed this page, scroll to the bottom and click submit.

The form is titled "General Login System" and includes a "GLS Login" link. It is divided into sections: "Login Information" (User ID), "Identity Information" (Name: First, Middle, Last, Suffix; Date of Birth; PIN), and "Contact Information" (Country, Zip+4 Code, Street 1, Street 2, City Name, Phone Number, E-Mail Address, Re-enter E-Mail). A "Help" button is in the top right, and "Reset", "Clear", and "Submit" buttons are at the bottom right.

Once you have submitted the request for a User ID, you will receive an e-mail from ITSecurity@sba.gov with a temporary password. You can return to the main login screen and enter the User ID and Password. First time users will be prompted to change their passwords to an 8 character password that contains at least 3 of the following elements:

- 1 Capital Letter
- 1 Lower Case Letter
- 1 Number
- 1 Symbol

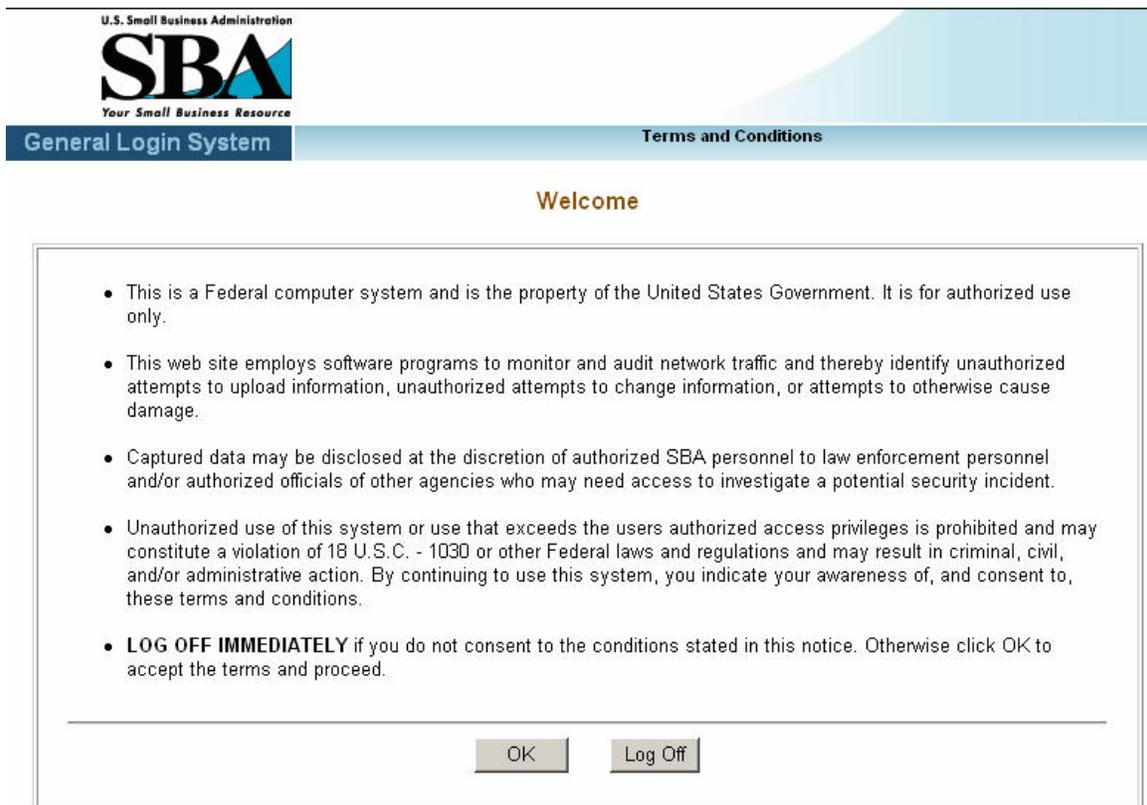

3. Once you have access through GLS, you will still need to obtain access to EDMIS. While you can request this access yourself, you will need to know your Location ID (from SBA's Partner Information Management System). It is recommended that you contact your program manager via e-mail requesting access. You should also send a

copy of the e-mail to SBDCEDMIS-II@sba.gov. You will need the following information:

- Name, E-mail, and User ID
- Name and Address of your
- Organization type (SBDC, WBC, etc.)

You will receive notification from ITSecurity@sba.gov that you have been given access rights to EDMIS.

3. You can now proceed to log in from <https://eweb.sba.gov/gls>. When you log into GLS with your password, you will first come to a welcome screen. Click OK to proceed.

General Login System Terms and Conditions

Welcome

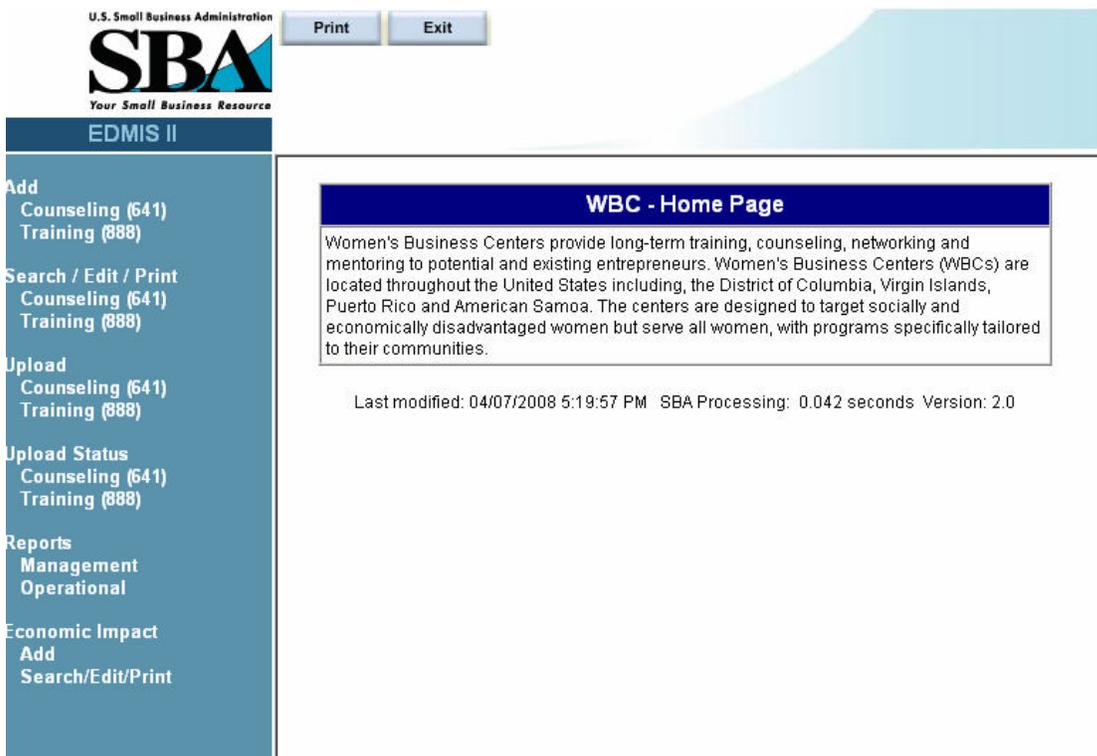

- This is a Federal computer system and is the property of the United States Government. It is for authorized use only.
- This web site employs software programs to monitor and audit network traffic and thereby identify unauthorized attempts to upload information, unauthorized attempts to change information, or attempts to otherwise cause damage.
- Captured data may be disclosed at the discretion of authorized SBA personnel to law enforcement personnel and/or authorized officials of other agencies who may need access to investigate a potential security incident.
- Unauthorized use of this system or use that exceeds the users authorized access privileges is prohibited and may constitute a violation of 18 U.S.C. - 1030 or other Federal laws and regulations and may result in criminal, civil, and/or administrative action. By continuing to use this system, you indicate your awareness of, and consent to, these terms and conditions.
- **LOG OFF IMMEDIATELY** if you do not consent to the conditions stated in this notice. Otherwise click OK to accept the terms and proceed.

OK Log Off

After you click OK, you should see a link for EDMIS if you have been given access to the system.

Clicking on the link will bring you to the main page for EDMIS. The page will appear different depending on your access rights. Following is an example of a main page for a Women’s Business Center.

Once you get to this point, you are now ready to enter or upload EDMIS data. From the Menu Bar on the left as seen above, the functions are:

- Add Counseling or Training data
- Search / Edit / Print Counseling or Training data
- Upload Counseling or Training data
- Upload Status Counseling or Training data
- Reports
- Economic Impact

Section II - Manually Entering Data into EDMIS

Adding 641 Part I - Request for Counseling

The add feature works in a similar fashion for both the 641 and 888. To add a new 641, click the link for Counseling (641) under the section for Add. **All fields presented in BOLD font and outlined in blue are mandatory fields and must be completed.**

Following are images of the actual data entry screens.

11. Agreement Indicator – This field reflects that the client has signed the form agreeing to the following statement. I request business counseling service from the Small Business Administration (SBA) or an SBA Resource Partner. I agree to cooperate should I be selected to participate in surveys designed to evaluate SBA services. I permit SBA or its agent the use of my name and address for SBA surveys and information mailings regarding SBA products and services (Yes No). I understand that any information disclosed will be held in strict confidence. (SBA will not provide your personal information to commercial entities.) I authorize SBA to furnish relevant information to the assigned management counselor(s). I further understand that the counselor(s) agrees not to: 1) recommend goods or services from sources in which he/she has an interest, and 2) accept fees or commissions developing from this counseling relationship. In consideration of the counselor(s) furnishing management or technical assistance, I waive all claims against SBA personnel, and that of its Resource Partners and host organizations, arising from this assistance.

- 12. Sponsor and Co-Sponsor Names.**

Section III –Uploading XML Data Files

Uploading Files

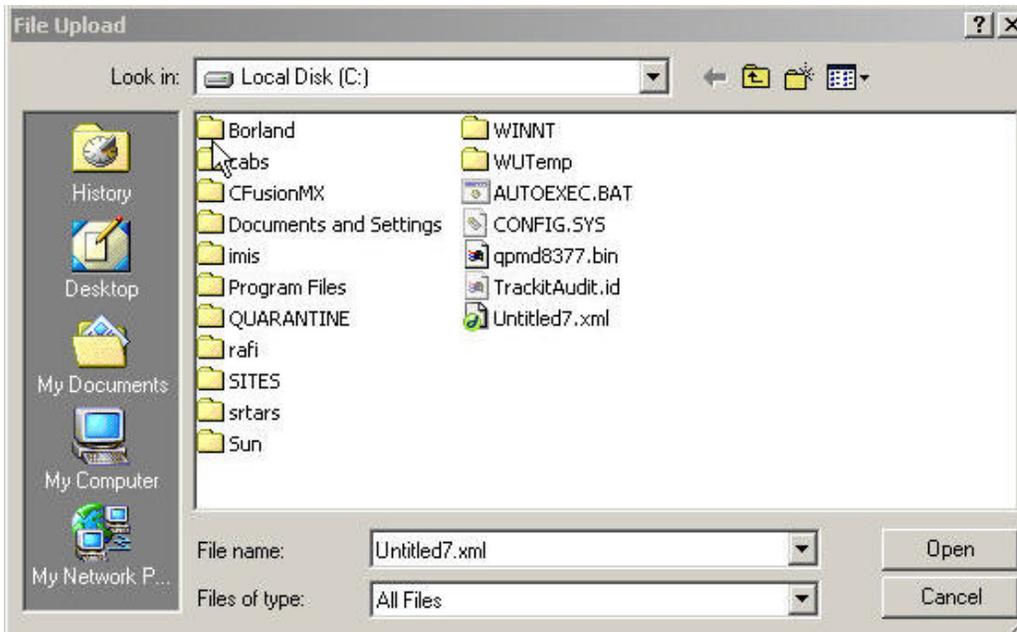

For SBA Partners that are using a software package to collect 641 and 888 data, on a quarterly basis, they will need to log into GLS to access EDMIS (Section I) and click on the Upload link for either Counseling (641) or Training (888).

Before you can upload a file, the file must comply with the xml schema and data requirements. The latest version of these can be found at <http://www.sba.gov/private/edmis2/private>. If you are using a software vendor, they should be familiar with these documents and should have the capability of creating the correct xml. You should consult with your software vendor for more details regarding how they create the xml file.

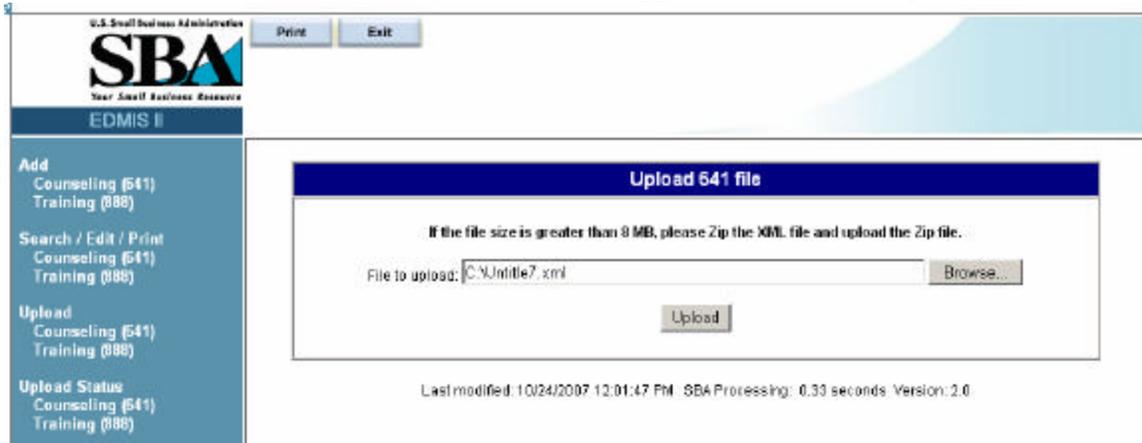

Once your system has the capability of creating an appropriate xml file, you will be able to upload data files quarterly as opposed to manually entering each record. The following image is a display of results from selecting the Counseling (641) link.

The screenshot shows the SBA EDMIS II web interface. At the top left is the SBA logo with the text 'U.S. Small Business Administration' and 'Your Small Business Resource'. To the right of the logo are 'Print' and 'Exit' buttons. Below the logo is a navigation menu with the following options: 'Add Counseling (641) Training (888)', 'Search / Edit / Print Counseling (641) Training (888)', 'Upload Counseling (641) Training (888)', and 'Upload Status Counseling (641) Training (888)'. The main content area is titled 'Upload 641 file' and contains the following text: 'If the file size is greater than 8 MB, please Zip the XML file and upload the Zip file.' Below this text is a 'File to Upload:' label followed by a text input field and a 'Browse...' button. Below the input field is an 'Upload' button. At the bottom of the page, there is a footer that reads: 'Last modified: 10/24/2007 12:01:47 PM SBAProcessing: 0.33 seconds Version: 2.0'.

Locate the xml file that you wish to upload. Click on the Browse button, select the file to upload and click the Open button.

The screen which has the address of the file will appear. Click on the upload button.

Once the user clicks on the upload button, a screen will appear that indicates the file successfully uploaded and that email confirmation will be sent once the file has been processed.

Note: Users can expect to receive email confirmation the day after submitting the file.

Checking the Upload Status

The user can log into EDMIS and view the upload status of the file from the EDMIS menu. **The user will be asked to input a date range; this range is for date of upload, not for record dates (as in the screen below).**

641 Upload Status

Please enter the File Upload begin and end dates.

File Upload Start Date: (MM/DD/YYYY)

File Upload End Date: (MM/DD/YYYY)

Submit

Last modified: 10/24/2007 12:01:57 PM SBA Processing: 0.072 seconds Version: 2.0

The upload status will indicate if the file has been processed or not. If the file has been processed it will give the summary information of number of successfully loaded records and number of failed records. **It will also have a link to the error file if there were any errors.**

641 Upload Status

File Name	Status	Upload Date	Process Start Date	Process End Date	Successful Records	Fail Records	Error File
WithPartnerClientNum.xml	Pending	6/13/2008 4:25:13 PM					

Last modified: 10/24/2007 12:01:38 PM SBA Processing: 0.32 seconds Version: 2.0

General Guidelines for Submitting 641 Records

- 641 clients have different sets of required fields depending upon the Type of Client classification (Face-to-face, Telephone or Email). Refer to Data Requirements. All of the required fields must be completely filled in for the record to be successfully loaded into the database. The XML document must include default values as documented in "Data Requirements Documents" if there is no data collected for the data elements.
- 641 Part 1, 2 and 3 is required to input the first record for a client in the database.
- 641 Part III records may be submitted without their parent Part I & II record(s) provided the Part I & II already exists in EDMIS (i.e. it was previously loaded). This option will help reduce the file size of the XML update files
- The 641 Part I & II are only loaded once into EDMIS for each client with sessions spanning multiple years of service, i.e. do not add the same client each new fiscal

year with a different unique Partner Number, EDMIS reports will reflect annual activity based on the 641 Part III records.

- 641 Part I & II records may be updated to reflect new or revised information.
Only Type of Client and Client Registration Date (Client Signature Date) cannot be modified after the end of a fiscal year.
- 641 Part III cannot be modified after the end of a fiscal year.
- 641 Part III, Field 47 - History has the following values: New Case, Follow-up, Case Close Out, or One Time
 - For any single client, there should only be one session (Part III) designated as “New Case” over the lifetime of that client
 - Case Close Out session(s) will not increment client counts nor counseling hours in SBA reports
- 641 Part III data will automatically change a client’s existing Part 1& 2 data in the EDMIS database. Resource partners could submit revised Part I & II records to revise Part I & II information for clients.
- If a new case session already exists for a client in the database, then 641 Part III of a New Case session has to be supplied along with 641 Part I & II to modify the Client Type before the end of the fiscal year.
- If there is no existing new case session for a client in the database and a new case session is being added then the Counseling Type of this new case session has to match with the existing Client Type in the database.
- If a new case session already exists for a client in the database and this 641 Part III is being modified before the end of the year then Counseling Type of this new case session has to match with the existing Client Type in the database.
- 641 Part I & II, 641 Part III of the new case session have to be supplied to modify the Counseling Type of the new case session before the end of the fiscal year.

In EDMIS, records can be added, edited or deleted by setting the record’s ‘Active Indicator’ to “A” for Active or “I” for Inactive. The “A” designation is used for either inserting new records or editing existing records. The “I” designation will make active records inactive and is similar to a delete action. Deleted records are not actually removed from the SBA database but are no longer available to reports or search actions.

Deleting 641 Records

- To delete a 641 Part I & II Client, submit the client record and only the following fields are required:
 1. Partner Client Number
 2. Location Code for the Resources Partner or Office Code for the Field Office
 3. Client Active Indicator = “I”**Deleting the 641 Part I & II Client record also deletes any associated counseling session for that client. It is a cascading delete.**
- To delete a 641 Part III counseling session, submit the session record and only the following fields are required:
 1. Partner Client Number
 2. Partner Session Number

3. Location Code for the Resources Partner or Office Code for the Field Office
4. Session Active Indicator = "I"

Note: Records cannot be deleted after the end of the Fiscal Year. **The only session (641 Part III) of a client cannot be deleted**

General Guidelines for Submitting 888 Records

- 888 has required fields depending upon the Data Requirements. All of the required fields must be completely filled in for the record to be successfully loaded into the database. The XML document must include default values as documented in "Data Requirements Documents" if there is no data collected for the data elements.
- 888 cannot be modified after certification.

Deleting 888 Records

To delete an 888 record, submit the record and only the following fields are required:

1. Partner Training Number
2. Location Code for the Resources Partner or Office Code for the Field Office
3. Training Active Indicator = "I"

Note: Quarterly uploads are due 30 days after the end of the Fiscal Quarter. SBA allows a 5 day grace period to allow for data error corrections. If you can not meet the deadline, you need to immediately contact your program manager for your program. That manger can make the determination whether to allow additional time for an upload.

Email Confirmation Reports

Email Confirmation Reports for 641

There are two reports Summary Report and Error Report that will be emailed to the user's email address in the GLS system.

If the size of the Error Report is greater than 500K then it will not be sent as an attachment. The confirmation email will have the name of the error file, a link to the EDMIS website and the following statement:

The error file is too big to be sent as an attachment. Please log in EDMIS and click on Upload Status to view the error file.

NOTE: The dates to input in the search fields are **UPLOAD** dates not record dates.

- The Summary Report has the following details
 1. Number of successfully loaded records
 2. Number of rejected records.
- The Error Report has all the rejected records with the following details.
 1. Record Number
 2. Partner Client Number
 3. Partner Session Number
 4. Location ID / Office Code
 5. Explanation of the failure

Email Confirmation Reports for 888

There are two reports Summary Report and Error Report that will be emailed to the user's email address in the GLS system.

If the size of the Error Report is greater than 500K then it will not be sent as an attachment. The confirmation email will have the name of the error file, a link to the EDMIS website and the following statement:

The error file is too big to be sent as an attachment. Please log in EDMIS and click on Upload Status to view the error file.

NOTE: The dates to input in the search fields are UPLOAD dates not record dates.

- The Summary Report has the following details
 1. Number of successfully loaded records
 2. Number of rejected records.
- The Error Report has all the rejected records with the following details.
 1. Record Number
 2. Partner Training Number
 3. Location ID / Office Code
 4. Explanation of the failure

Section IV – Entering Additional Impact Data

Both the Women’s Business Center and Small Business Development Center programs require each of the partners to provide some impact data that is separate from the 641. The screen images from each are provided below. Partners should consult the program announcement for specific guidance on providing this information.

Section V – Using EDMIS to Locate and Edit Records

Search / Edit / Print 641

This screen allows the user to Search a previously entered 641. Any records that match the criteria selected will be returned.

The screenshot shows the SBA EDMIS II Search Function interface. At the top left, the SBA logo is displayed with the text "U.S. Small Business Administration" and "Your Small Business Resource". Below the logo, the text "EDMIS II" is visible. To the right of the logo are "Print" and "Exit" buttons. A vertical navigation menu on the left side contains the following options: "Add Counseling (641) Training (888)", "Search / Edit / Print Counseling (641) Training (888)", "Upload Counseling (641) Training (888)", "Upload Status Counseling (641) Training (888)", "Reports Management Operational", and "Economic Impact Add Search/Edit/Print". The main content area is titled "Search Function" and contains several search criteria:

- A "Last Name" text input field followed by a "Search" button.
- A "Counseling Date" section with "Begin Date" and "End Date" text input fields, each followed by "(MM/DD/YYYY)" and a "Search" button.
- An "SBA Client Number" text input field followed by a "Search" button.
- A "Partner Client Number" text input field followed by a "Search" button.

Last Name – If the user knows the client’s last name this field can be used to search

Counseling Date – If the user wants to search by date range search then the begin and end dates of the range are entered here.

SBA Client Number– Users may also search using the system assigned SBA Client Number

Partner Client Number– Resource partners may search by their internal Client number, if they input that number in the database.

The Search results will show the Parts I and II (highlighted in yellow) and each part 3 with the respective session number. From this search results screen you can update, delete or print the 641 information by clicking on the icons associated with each file.

Search Result Records

Your Search returned 1 Client records and 2 Counseling records. Please [Click here](#) to perform a new search.

Training Date – If the user wants to search by date range search then the begin and end dates of the range are entered here

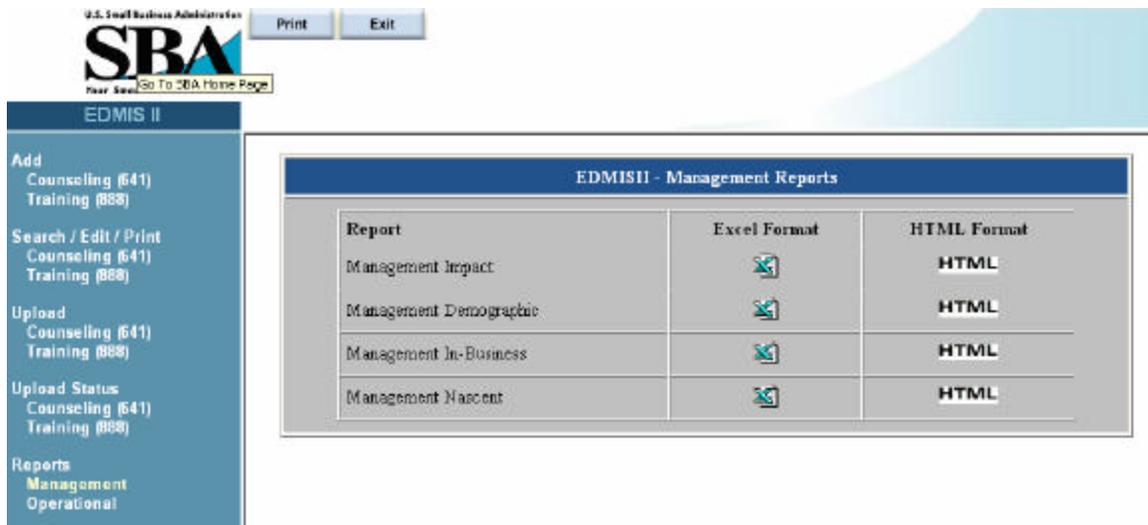

SBA Training Number– User may search using the system assigned SBA Training Number

Section VI – Accessing Reports

Management Reports

SBA has two types of reports that are used both by SBA and by our partners. These reports display quarterly or daily data (depending on your selection). Quarterly reports are static pages that are created after the end of each quarter. They are generally available around the 10th of the month following a quarterly upload. Daily reports are updated each night and should contain the most recent data.

The first set of reports is called Management Reports. You may also choose to view these as HTML files or as downloadable Excel files. These reports focus on management impact and demographics.
